THE CITY ELECTION.

Mayor and Aldermen to be Nominated by the Primary Plan—The First Primary to be Held on Friday 30th Instant.

As a complete failure, as far as numbers are concerned, a citizens' meeting in the city of Newberry is a howling success.

The chairman of the Democratic Executive Committee of the city of Newberry, Mr. J. C. Wilson, issued a call in the county papers several days ago for a citizens' meeting to be held in the opera house on Tuesday, the 15th inst., for the purpose of deciding the manner of nominating candidates for Mayor and Aldermen of the city for the coming year, and if the primary plan be decided on, to adopt rules to govern the same, and elect an executive committee.

As a result of this call on Thursday afternoon at 4 o'clock the following citizens met at the opera house: M. A. Carlisle, O. B. Mayer, O. L. Schumpert, P. J. Voss, F. H. Dominick, Cole L. Bleese, M. W. Pinson, R. H. Welch, Otto Klettner, H. H. Franklin, W. M. Shackelford, Jno. T. Hutchinson, Edward Scholtz and J. W. Earhardt.

The meeting was called to order by Mr. Carlisle who was a member of the executive committee, and on motion of Mr. Bleese, Mr. R. H. Welch was elected chairman of the meeting. J. W. Earhardt was made secretary.

Mr. Carlisle stated the object of the meeting in accordance with the published call.

Col. Schumpert moved that the primary plan of nominating be adopted, and this was agreed to.

Mr. Schumpert then moved that the rules that governed the last city primary be adopted to govern this election, with the necessary change of dates, and this motion finally prevailed.

F. H. Dominick moved that the rules be amended so that the election of a city clerk and treasurer be included in the officers to be chosen in the primary. This motion was seconded by Mr. Bleese.

Col. Schumpert thought that as the meeting was such a small one, and that as such action was not contemplated by the people he could not think it admissible.

Mr. Dominick thought that the meeting had been sufficiently advertised and that it was not the fault of those present that others had not attended the meeting. The people had to deal directly with the city clerk and treasurer, and they should say who he shall be. He stated that he had no axe to grind, was speaking in the interest of no candidate—simply advocating what he thought the people desired. He was a strong advocate of the primary plan for all officers and was always willing to trust the people.

Mr. Voss saw several serious objections to putting the city clerk into the primary. He did not know of a city in the United States that did this, and thought it would be a mistake.

Mr. Bleese cited Orangeburg in this State as a progressive city, which had adopted this plan.

Mayor Mayer did not think it would work well. The clerk was responsible to the council for the performance of his duties and the council stood between the clerk and the city.

Mr. Bleese thought the clerk should be elected by the people. He knew that the plan had worked well in other cities, for instance in Orangeburg in this State, and he saw no reason why it would not work here. One strong reason that he advocated it was that he knew the office in Newberry had been bartered as so much stock in trade, and such methods should be stopped.

Col. Schumpert said he had to oppose the motion as it was an innovation and the meeting had been called for a special purpose and the crowd being so small, he did not think it wise. As for trades, they were made in all elections, and they would be hard to stop.

Mr. Carlisle was of the opinion that it would not do to put the clerk in the primary. The election of a clerk is the council's prerogative and it should not be taken from them. He thought there would be some danger of putting in a person incapable of filling the office by the primary plan. It would be defeating the very object had in view in making five wards in the city. It would be throwing open the doors to a class of people that will not suit the town—it might destroy the financial standing of the city. We ought to deliberate over this before we do it. Do not transgress the rights of the council.

The motion was then voted on and was defeated by a vote of five to two.

Mr. Bleese moved as an amendment to the rules the following:

"That all white Democrats who are enrolled as members of a Democratic club within the incorporated limits of the city, ten days previous to the primary election, be allowed to participate in the primary election for Mayor and Aldermen."

Mr. Bleese spoke at length on his motion, stating that the primary elections, in the manner in which they were conducted in this city, were a fraud out of the whole cloth, citing the fact that the same certificates were required for the primary that were required for the general election, when it was a known fact that there were not a doz-

tered negro voters in the city limits. He said it was done to keep a certain element of citizens from voting—a class that was required to walk up and pay \$1 a year street tax, but are not allowed to cast a ballot. He wanted to know who ever heard of an election being held under such strict registration rules and the registration books held open on the day of election? What does that show? Does it look like fairness and justice?

Mr. Bleese's motion was put and lost by a vote of 4 to 3.

Col. Schumpert then moved that the question be referred to the Executive Committee, to which Mr. Bleese objected, and the motion was withdrawn. The rules were then read and adopted, as follows:

THE RULES.

V. The citizens' meeting that shall adopt rules for the primary election shall elect an executive committee of seven members, two from the town at large and one from each Ward, and this committee shall have power to fill vacancies in its membership.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N.
