## The Herald and News Julius Casar, the conqueror of a

How to Attain Success.

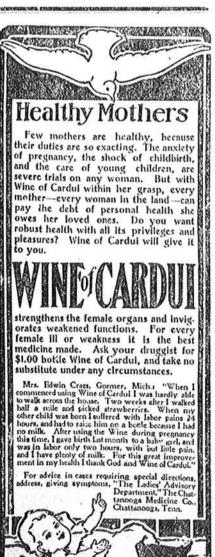

BY HANNAH RUPERT.

(Our Young People.)

Success is the result of gradual growth and development. When we come to analyze the character of those with whom we are surrounded, we are forced to the conclusion, that for the most part men are neither mentally nor morally what they ought to be. Men are prone to sink to what is below rather than to rise to what is above them. It is well then, for a young Think of this. Put the question man at the very outset of his career, to set before him the example of men who have attained eminence among their fellows, and discover selves? If not, now and only now if possible, the methods by which is your chance; make a radical they succeeded. However humble change and make it at once. Begin our station in life, we are under a new life and rise out of the old the weightiest moral obligations to ruts. Do your own thinking and do our best. If our life work be acting. Strive to be a man, among noblest and the best.

fore him a perfect example, and all having lived in the world, though he may never attain to its full height, yet he who follows it or doing is the result of protracte will surely reach a higher rank and carnest effort, and though suc than he who aims at a lower stand less may seem to be long delayer ard. There are many difficulties yet he who would win it mus in the way, many discouragements needs be careful not to relax a to overcome, but they may be made effort or to waste an opportunity the stepping-stone along which the We are warranted then, in repeat resolute soul hastens on his upward ing the truism, "Success is a creating the creating the creating and the creating the creating and the cre course. He who by strength of ture of continued and gradual depurpose would accomplish this velot ment." Despise not then the must remember that success is a slow process of development no prize to be achieved only by per the humble means that afford ai sistent, untiring exertion, It is never a premium for a single spas- its workers the best, and it will sit motic effort, nor a bauble thrown to the last the pretentions of thos to the votary of the fickle goddess

Premanent and continual success is the only standard of value, and to attain this there must be a normal and steady growth of the powers. An achievement which would be counted a success for a youth would be a signal failure for a mature man. It is the promise for the future which enhances the brilliancy of the effort of the lad, performance itself. There are a always outstrip mere brilliancy. The list names on the annals. proves this. Many : :kable for nothing in their yearn save stupidity, have, in after years, achieved fame.

world, when a youth was very ordinary in mind and aspirations. It required long seasons of the severest experience to rouse his intent energies.

The day to rely upon the prestige of birth or position has passed. The field is before you, and if you would conquer you must depend upon your own powers of head and heart. Your destiny is in your own hands and your own future will be your own making. Are you making the most of the one life that is intrusted to you? Are you putting to the best uses the natural abilities of body and mind with which you have been intrusted? squarely to yourselves as we put it for you, and answer it honestly. Are you making the best of yourworth any effort, it demands the men, with a worthy purpose and a pure ambition, then will the world To stimulate man to the noblest not only be better for your living self-exertion, there has been set be- in it, but you will be better for

Anything that is worth havin around you. The age demands who solicit its favors. Never b fore more than now, was excellent made the crucial test of succes Brilliant talents may and will improved by industry. Moderat ability may more than supply is deficiency by diligence and per sistent application, "Nothing is denied to well directed labor, not hing can be obtained without it."

Never was a man known to attain anything worth attaining withand not the intrinsic merit of his out self-denial, and he who would succeed in life must practice it. few who have achieved commercial. Self-indulgence ruins men, she is forensic or literary prominence in the Delilah upon whose Lap many early life. John Quincy Adams a noble head has been shorn of its [ astonished his friends when a lad strength and manhood forever. of seven years, by delivering in the Self denial makes strong men. She presence of the family, a speech is the angel who leads them on worth the capacity of a youth of ward, over a rough and thorny fourteen. That remarkable Poet path it may be, but she finally puts of Nature, William Cullen Bryant, the crown of lasting success upon at the age of sixteen wrote the im- their brows. There is self indulmortal, poem to Immortality. gence in the terror-stricken, ruined "Thanatopsis," and won the ad- Belshazzar, trembling in the midst miration of the literary world, of his drunken lords. There is Yet in spite of these conspicuous self denial in the Prophet who examples of youthful genius suc- stands erect before him to proceeded by matured power in age, nounce his well-deserved doom. we are forced to acknowledge that And he who would scale the persistency, in the long run, will heights of the grandest possibilities must learn this lesson at the very beginning.

Another element conducive to a steady growth of power is self consecration. Devoting ones energies, time and talents to a given object. All things are made to bend to this one. God has given each man something to do, it is your duty to seek out that one thing and do it with all your might. The men of this generation who have achieved the most permanent success have been those who have concentrated every energy in some one direction. Numbers of men in this country today began their career without any capital save pluck and energy, and they have conquered in spite of disadvantageous beginnings. They have left behind them an

Population of the United States.

The following is the official announcement of the population of the United States in 1900 by that the Singer leads, and all others follow. We have the round bobbin, States. The figures in the first column represent the sensus for 1900, the second column for 1890 and the third column the number

Is sold by all druggists on guarantee first bottle benefits or money back. Book on heart and nerves sent free, Dr. Miles Medical Company, Elkhart, Ind.

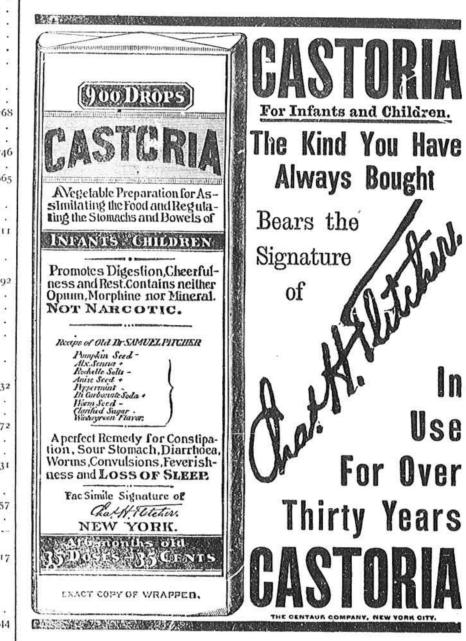

Having been with the Singer Manufacturing Company for the past four years, and having been transferred from open road which any young man may travel.

North Carolina territory to Newborry, I desire to announce to the public that my headquarters will be with Mr. Todd, the Commission Merchant, where I will carry a large stock of the cele brated Singer Machines, Oil and Necdles. To anyone in the city or county of Newberry, who has an old machine, and is thinking of exchanging for a new one, I desire to say if you will let me show you a Singer, you will find my price right, and it is the world's verdict the improvement over the Oscillator, what we call the C. B Machine, and we also have the Vibrator. I will give as much in exchange for an old ma-chine as any man, and I will guarantee

my prices are all right. Remember, it costs nothing to have a new Singer placed in your house on free trial. If you find the machine as represented, I will be glad to deal with you. They are sold strictly on their months.

Remember, we sell on the easiest terms in the world. Don's forget, if you can not find me, any information left with Mr. Jas. F. Todd will always receive my prompt attention. We take in exchange old machines and pay from \$5.00 to \$25.00 for them.

Yours very truly,
J. L. HILL.
