THE WORST GOLD BRICK YET. A great deal of stash and slobber headed by Senator McLaurin, of honored as such,

A great deal more is being said at this movement abroad than at In fact we very rarely bear erly Democrats, who will accept but federal offices, but outside of this have searily very limited number, the berry Observer. Letween. Senator M. Laurin's de-parture from the Democratic party is not regarded as a matter of much all good Democrats.

Senator McLaurin is not a big enough man to either originate or direct any movement of consequence. And yet many Republican newspa-Twis tre proclaiming him as the deliverer of the South from Demo eratic denomation.

This is very attaching to those who know McLaurin and have observed how atterly indifferent are the people of the South to his gyrations.

The St. Louis Globe Democrats in its bilinity over McLaurin's top declares that "Southern papers of the better class are nearly all with Me-Laurin in the new departure which he has proclaimed," and to prove that this is so it quotes a few lines, from the Charlotte Observer and the Richmond Times.

The Journal is correct. Even if a white Republican purry is built up M. . Estade Stanti came home Sunday be the leader of that party. He has neither personal magnetism nor moral courage, and it will take a great deal of both. And then people berry ple will never put trust in any man who has proved a traiter to his party, even if they are opposed to that party, and neither do they want a man to represent them who supports a platform directly opposed to the one on which he was elected, but yet is took weak to throw off the mask and boldly declare himself with the other party. It is true that for awhile there were a good many peaple who claimed to support Me Lauria, but then there are always n which they think there is some thing to be gained for themselves Of course all of McLaurin's support ers are not of this type. McLaurin will never again be put in office by the people of his State, and before the time for the next election be will not even be thought of as a political possibility. If Mr. McKinley is seriously thinking of trying to establish a Republican party with him as leader, we are afraid that his hopes will never be realized.

It is a little amusing to watch the have even weakened in their faith his chare. and seem to be about ready to get on the other side of the fence. Let the good work go on. A few more blunders such as this on McLaurin's part will end the whole matter of paper. that much discussed new Republican party.

We hope that the newspapers of the State will urge their local teams to attend the firemen's tournament to be held here the 5th and 6th of next month. Col. O. L. Schumpert, of Newberry. presented a memorial on behalf of the University publishing company, in which the action of the committee on text books which appeared before the State board of education in reference to text books was endorsed. The company claims that its histories especially were misrepresented: that they were fair to both sides and gave both sides; that for one to be well educated in history both sides of the great conflict should be known. It is stated that cotton mill has started up and we wish | none of the books of the publishing company were adopted on account of the alleged misrepresentation. Mr. Madole is an earnest worker and strong believer in this order, and is going to succeed in instituting a camp of Woodmen here.

He left yesterday for Saluda, where he has succeeded in instituting a camp, of which all except one county office, are members.

He has consented bowever to return here next week and give a free lecture on "Woodcraft." The lecture will be delivered in Masonic Hall, Crotwell Hotel building, next Friday night, and we hope a large crowd will be present. Nearly every city and town in the

State has one or more camps of this order Spartanburg has three, Columbia three Rock Hill one, and there is one or more already in this county. It is one of the best, if not the bes,t fraternal insurance order on earth.

The order is eleven years old, and during the month of March, this year, over 6,000 members were added.

The assessments are low and never change: you pay according to age; you cannot be suspended during sickness: your certificate cannot be assigned for debt; and no Woodman rests in an unmarked grave.

Come out next Friday night and hear the lecture, and in the mean time cali at The Newberry Hotel and Mr. Madole will furnish you with literature and information concerning the order.

#### The River of Life.

The more we live, more brief appear Our life's succeeding stages; A day to childhood seems a year, And years like passing ages.

The gladsome current of our youth Ere passion yet disorders, Steals lingering like a river smooth Along its grassy borders.

But as the careworn cheek grows wan, And sorrow's shafts fly thicker, Ye stars, that measure life of man,

Why seem your courses quicker? When joys have lost their bloom and breath. And life itself is vapid,

Why, as we reach the Falls of Death, Feel we its tide more rapid?

It may be strange-yet who would change Time's course to slower speeding,

When one by one our friends have gone And left our bosoms bleeding?

Heaven gives our years of fading strength Indemnifying fleetness

And those of youth, a seeming length Proportioned to their sweetness.

Billiousness is a condition characterred by a disturbance of the direstive reads. The stomach is debilitated, te liver torpid, the bowels constipated. There is a loathing of food, pains in the towels, dizziness, coated tongue and vomiting, first of the indigested or partly digested food and then of bile. Chamberlain's Stomach and Liver Tab-lets allay the disturbances of the tomach and create a healthy appetite. They slso tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by W. E. Pelham.

To School Trustees of Newberry County THE COUNTY BOARD OF EDU action would carnestly recom-mend to the Boards of Trustees of the various school districts of the county that they elect teachers for the new

school year as early as practicable after the close of the schools in the The board would also urge upon Boards of Trustees the necessity of definite and written contracts with teachers, as such a course may save misunderstanding and unpleasantness, which is always liable to arise where the contract is not in writing and signed by the parties thereto.
