Following is a copy of the letter sent to Senator Tillman by Governor McSweney:

Sir: Your letter of June 1st has been received. I have carefully noted its contents, and the most charitable view which I can take of it is that it was written in the heat of passion and without due consideration.

I note that you say that I have "transcended" my authority and that the governor "cannot compel a member of the United States senate to hold his commission and exercise the functions of that office if he chooses to surrender it," and that you "do-

Deaths. James Davenport, of Belfast, departed this life Sunday, June 2nd. He was 56 years of age and had suffered for some time with paralysis. He leaves a wife and a number of children to mourn their loss. Mr. Davenport was buried at Bush River church on Monday. Little Thomas Earle, the infant son of Mr. and Mrs. T. E. Epting, died at their home Monday morning, after an illness of several weeks. The remains will be interred in Rosemont Cemetery this morning at 10 o'clock.

Children's Day at Trinity. On Saturday the first day of June I had the pleasure of attending one of the most enjoyable occasions of my life, and I shall never forget Mr. Grizzard for his kind invitation. We arrived at the church about 10:30 o'clock, and a goodly crowd had already gathered and by 11 o'clock the nation had about all got there. In a few more moments Mr. Hendrix came to the church door and announced that services would immediately begin. The congregation had scarcely been seated when a sweet little woman took her seat at the organ; to say that the music was fine would not half express it for indeed I believe that it was the best I ever had the good pleasure to hear. It is really wonderful how so small a creature can sing so. I am so sorry that I have forgotten her name.

She is, however, a music teacher from Georgia, and a better one could not be brought from that State or any other State. The children were all well trained, and as the pastor expressed it: "It will be a long time before Trinity will want for an organist," as they can all play and sing from the smallest to the oldest. The children all did well, in fact I can't see how there could be any improvement.

The old people give the church and Sunday school their immediate attention by their presence, which accounts for their success. Trinity is one of the finest neighborhoods the country affords, the people do their own work to a great extent and live strictly at home. I cannot help mentioning Mr. Dave Pitts in reference to living at home, in the first place the very appearance of his home shows that it is a prosperous, comfortable and happy home, and when we were returning in the evening after a most pleasant and profitable day, filled to the "utmost" of the many good things that the good women had prepared for dinner, Mr. Pitts would have us get out and have some strawberries. I had flattered myself that we had a good garden at home, but when he opened the gate of his garden and invited me in to get strawberries, I almost forgot what I went in for, as my eyes beheld cabbages as large as a peck measure, beans hanging as thick as your fingers on the vine; Irish potatoes full grown in abundance, in fact, every thing that one would desire in the garden was plentiful and ready for the table, then after I had looked for some time in admiration at the many good things we went to the back part of his wonderful garden and I saw and partook of the finest strawberries that I have ever seen. Indeed any one who loves to look at perfection on the farm would do well to drive up to Mr. Dave Pitts' lovely home. I hope that it may be my good pleasure to once more attend such a day at Trinity. BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disgusting pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on. Mr. H. T. Shobe, 2201 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disgusting eruption on her face, which resisted all treatment. She was taken to two different health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was used the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and a sign of the embarrassing disease has never returned."

S. S. S. is a positive, unfading cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Bad blood makes bad complexions, purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough, and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service. SWIFT SPECIFIC COMPANY, ATLANTA, GA.
