The Seminary will open on October 1st, and Rev. Scherer will have to report before the opening, which will cause him to have to leave Newberry about the 15th instant.

It was with great difficulty that Mr. Scherer could make up his mind to leave Newberry, but after careful consideration, and consulting with many of his warmest friends, he has decided that it is his duty to accept the call. Had he consulted his personal feelings alone in the matter, he would have remained in Newberry, for he likes his work here and is attached to his people, but he feels that it is his duty to go. He will carry with him the well wishes of the people of this city and community.

NEWBERRY AT THE EXPOSITION.

In Order to Have Our County Represented as She Should Be Newberrians Should Begin to Prepare Themselves—A Meeting of the Board Next Week.

So far there seems to be a lack of interest on the part of the people of the county in getting an exhibit for the Charleston Exposition. This should not be.

Newberry County should have an exhibit at this show that will be second to none. Let every farmer select the best specimen of agricultural products and get them together for the exhibit, so that visitors to the Exposition can get a correct impression of our resources.

The ladies of the city are taking a great interest in the exhibit, and are already raising funds and collecting articles to be sent to Charleston. It is up to the men now to do their part.

A building will be secured at an early date where articles intended for exhibition can be stored and taken care of, and it is intended to put an active man in the field to gather up articles for exhibition.

The commissioners of the county, including those from No. 1, and one from each other township of the county, will meet at the office of Mr. M. A. Carlisle, of this city, on Wednesday, 11th instant at 11 o'clock, to formulate plans to begin an active canvass in behalf of the exhibit.

Mr. G. M. B. Epling, who makes up the receipts for Newb., ry, places the figures at 18,372, as against 21,876 for the year previous, which shows a falling off of last year of 3,503 bales, but when the short crop of last year is considered, the showing made is a pretty good one.

A Baby Case. Magistrates J. H. Chappell and W. C. Sligh jointly had quite a little stir in Magistrate Chappell's court room yesterday morning. YOU CAN'T DOWN THE STEIFF! There are all kinds of men in the Piano business, but the meanest competitor that has attracted your attention recently, is the man who sets to and willfully tries to dissatisfy customers that have already bought fine Pianos by telling them they have been swindled, etc. We would advise such men as this to get out to work, but in the time they waste in such work as this in hunting new customers, and perhaps they could sell a Piano once in a while. The class of people who buy the STEIFF PIANOS are the best people on earth, and their minds are not to be changed by every little wind that blows. STEIFF PIANOS are the very finest Pianos made, and are sold all over the world on merit alone. It's the old reliable STEIFF PIANO all the time, and when anyone tells you he can furnish something as good for less money—just remember you have heard "Ghost stories" before. Write today and get Factory prices on the STEIFF PIANO and save the big profits made by the dealer.
