Caused by the Freeze. The macadam work on Main street has been temporarily discontinued on account of the supply of rock having been exhausted. The little girl in protecting her sister got the worse burned, of the two, but neither are seriously hurt. Dr. Houseal was called in and relieved their suffering.

Accident at Cotton Mill. Yesterday afternoon an accident happened at the Newberry Cotton Mill causing a painful injury to a 14-year-old son of Mr. Peter Schumpert. Death of W. H. Sheldon. Tugaloo, December 16.—Mr. William H. Sheldon, a prominent citizen of this place, died last Thursday morning at six o'clock, after a painful illness of several weeks. Notwithstanding his intense suffering he bore it uncomplainingly and without a murmur. Mr. Sheldon was one of our oldest citizens, being in his seventy-ninth year. He leaves nine children (all grown), six daughters and three sons, to mourn his death. His remains were interred in the Retreat Presbyterian cemetery by the Masonic fraternity, composed of members of Fair Play, Westminster and Seneca lodges. Mr. Sheldon had been a member of the Presbyterian church for many years, and a ruling elder for a considerable period. The funeral services were conducted by Rev. T. C. Ligon in the presence of a large and sorrowing congregation.—Wallaalla Courier, 18.

Mr. Sheldon was the father of Mrs. H. E. Todd and Mrs. J. W. Kibler, of this city, and these ladies have the sympathy of their many friends in Newberry in their sore bereavement.

SOME OF OUR PEOPLE IN DARKNESS.

More Arc and Incandescent Lights Needed. A Larger and a Better System, which could be Run Cheaper Suggested.

Last week we made mention of the fact that a representative of the General Electric Company of Atlanta was in the city and had a conference with the city council and the commissioners of public works in regard to a change in our system of electric lighting. Unfortunately when our system was put in we did not provide for the rapid growth of the town and the increased demand for incandescent lights. Our dynamo has a capacity of fifty arc lights and we are now carrying fifty-one. Even with this, there are sections of the city which are not lighted at all, and which should have, and are entitled to lights. We need at least seventy-five arc lights, and if a system is put in provision should be made for at least one hundred street lights. The incandescent dynamo has a capacity of one thousand sixteen candle power lights, and we are now carrying fifteen hundred and there is demand for more.

Of course it is not probable that all these fifteen hundred will burn at the same time but it is possible. We should have an incandescent dynamo capable of carrying at least twenty-five hundred sixteen candle power lights. It will be seen that both dynamo are now overloaded.

The system which is proposed is comparatively now in a series of alternating enclosed arc lights. The current for the arc lights is taken from the same machine as the current for house lighting, and will require only one machine and one engine. Our present system has two dynamo and two engines. It is claimed that greater efficiency can be had from one large machine than two small ones and that from one large engine more power can be developed than with two small engines of the same horse power. In developing this power there will also be saved in the item of fuel at least fifteen per cent. In other words instead of the fuel bill being \$240 per month as at present, with one engine and one machine carrying fifty per cent. more light and more power the fuel bill should not be any more and possibly should not exceed \$200 per month. The city could pay the same money that it is now paying for lighting the streets and get at least fifty per cent. more light, and the commissioners of public works would save money by giving this additional service.

The cost of this change at the station, including seventy-five new lamps, is estimated at \$7,600. It is also estimated that our present engine and the two dynamo and the lamps could be sold for a sufficient sum to put in a new engine.

It seems to us that it would be the part of wisdom and good business judgment to make the change and do it at once. If the money is not available it could be borrowed at a low rate of interest and those people in the city who are now without light on the streets could have the benefit of it. They are as much entitled to light as any other part of the city because they are required to pay their proportionate share of the present system and are receiving no benefit. We trust that our city council and commissioners of public works will look at this matter in the same light. They must either make the change or increase the lights in order to be fair and just to all of the taxpayers of the city. They can not increase the lights because the present dynamo is already overloaded. The only thing, therefore, that remains to be done is to make the change here suggested.

A PROMINENT COLUMBIAN DEAF.

Mr. W. J. Duffie, the Well Known Publisher of Dead—Once Lived in Newberry.

Columbia, S. C., December 18.—W. J. Duffie, one of the wealthiest men in the State, died yesterday afternoon at his home in this city. He made a fortune, which is invested in real estate in this city and elsewhere. He owned 25.3 acres of land in Oconee county, was for 36 years a ruling elder in the Presbyterian church and for 20 years treasurer of the Columbia Theological Seminary.—Special to Spartanburg Herald.

Mr. Duffie was well known in Newberry by many of our oldest citizens, having practically begun his business here years ago, running a book store. He made a success in business and died leaving a large estate.

MARRIAGE AT POMARIA.

Mr. Frank Lorick Leads to the Altar Miss Connie Kibler.

Pomaria, S. C., Dec. 22.—Last Wednesday evening at the home of the bride's parents, Mr. and Mrs. T. N. Kibler, of Pomaria, Newberry county, the marriage of Mr. Frank Lorick, of Lexington and Miss Connie Kibler, took place. Rev. J. A. Sligh of the St. Paul's Lutheran church of that community performed the ceremony.

The house was beautifully decorated with palms, holly, ferns and evergreens in place in artistic taste by many of the bride's friends. The parlor was beautifully illuminated, harmonizing with the back-grounds and walls which were decorated with a mass of green plants, palms and vines, making the room a beautiful sight to the admiring assemblage. The wedding march was played by Mrs. Pink Lorick, of Columbia. Promptly at the appointed hour, 4 p. m., the wedding march was sounded, and the waiters formed couples in the following order: Mr. J. B. Bedenbaugh and Miss Ruby Holaway, of Pomaria, Mr. J. J. Kibler, of Pomaria, and Miss Minnie Lane, of Newberry; Mr. J. M. Bushardt, of Newberry, and Miss Hattie Suber, of Irmo; Mr. Madison Lorick, of Ridgeway, and Miss Viola Kibler, of Mt. Pleasant, N. C.; Mr. T. E. Lorick, of Irmo, and Miss Lilla Bushardt, of Newberry; Mr. R. Y. Kibler, of Columbia, and Miss Marie Lorick, of Irmo; Mr. Newton Lorick, of Pomaria; Mr. Doss Kibler, of Pomaria.

As they entered the room they formed a semi-circle, the groomsmen to the right and the bride's maids to the left, and the bride and groom stood at the entrance while the vows were spoken which made them husband and wife. After the ceremony the bridal party went into the reception room.

The bride's costume was white silk trimmed with rose applique. Her corsage was fastened by the topaz and ruby gems worn at both her grandmother and mother's marriages. In her hand she carried an exquisite bouquet of chrysantheums. The bridesmaid was attired in pink organdy.

The bridal party was given a reception immediately after the ceremony to which all the relatives and friends of the community were the invited guests. The presents were numerous and handsome. The young couple's home will be in Lexington.—Special to The State.

GOOD ROADS CONVENTION.

Superior Jno. M. Schumpert Talks of the Greenville Meeting to Organize Newberry.

County Supervisor John M. Schumpert attended the Good Roads convention in Greenville last week, having been appointed a delegate from this county by the Governor.

Mr. Schumpert is now an enthusiast on the subject of good roads, and says he learned much of practical road working at this meeting.

The convention was organized and among the officers appointed are the County Superintendents of the State, each supervisor being appointed a vice president, and the duty placed on them of organizing a convention in their respective counties.

Mr. Schumpert will issue a call early next year, when the farmers are not so busy, for the purpose of organizing this county, and there should be a good representation from every part of the county, for Newberry must not lag in this matter. Some counties have already organized.

Mr. Schumpert thinks if the people of this county will attend this meeting and organize and learn the real benefit of good roads, that there will be no trouble in getting perfect roads throughout Newberry County.

GIRLISH FIGURES

HOW MARRIED WOMEN MAY RETAIN THEM.

Besides, coming to the extent of sweetness, grace and symmetry, often lose these powers when nature in its period of gestation imposes upon them the duty of child-birth.

Properly understood, motherhood is a season of pleasant anticipation. It is made so however, without artificial aid. A Hint for a Mother's Health is preferable to anything else. It is used through-out the entire period of pregnancy, will soothe and relax the tissues, often the muscles, and make elastic tendons and simple sinews.

This celebrated medicine removes stiffness and promotes expansion of the fibres when under strain. Your body is a machine of flesh, muscles and bones, and Mother's Friend is used for the purpose of lubricating the parts taxed during pregnancy. It can work no injury to another or child. It is applied externally to the abdominal region. Its effect is wonderful and worthy a trial.
