ADULT POPULATION AND SCHOOL POPULATION.

The proportion of children to adult population in the South seems to be much greater than in the Northern or Western States. This makes an important factor in dealing with the school question in the South. In South Carolina it seems to be lower than in

any other State. "The following figures, calculated from statistics in the United States Census, show that from this standpoint the burden of education in the Southern States is much heavier than in other sections of the country: In Tennessee there are 62 adult males to every 100 there are 62 adult males to every 100 children between five and twenty years old; in Vinginia, 63, North Carolina, 55, South Carolina, 51; Georgia, 59; Mississippi, 59; Texas, 66; Ohio, 91; Michigan, 91; New York, 102; Rhode Island, 102; Massachusetts, 108; Connecticul, 106; Washington, 125; California, 129; Montana, 156; In the States of the Fast, North and West the proportion of adult males to the dren of school age is a whose, but her the inding any State month of the Potomac, there are 89 admit makes to every 12 children of schoolage in the North Central States. 84 in the North Atlanta States, 99 in the Western States. mondand any State

Judge Janus M. Cossson, former resident of Newtony and at one lime an efficient of the November 1, paper of which has been writing some interesting letters in beganine old times in Newberry. We putershone in this issue. From a private letter from Mr. Crosson we get the information that he and his good wife expect to have a family reunion or Sunday the 19th of this month at which time they will celebrate the 55th anniversary of their marriage.

They have journeyed through life together for a long time, much longer than is granted to most people.

The Herald and News begs to extend its congratulations to the aged couple on the good fortune which has attended them through all the years of the past and to wish for them many returns of the happy anniversary and family re-

We will also be glad to have Mr. Crosson continue his reminiscences of Newberry of the olden time for publication in The Herald and News.

The plumbers and tinners of Columbia are on a strike and nobody, not even the men themselves, seems to know what the strike is about. A strike of this kind is calculated to do great harm to labor movements in Columbia, and to have a very bad effect generally. No strike can accomplish anything unless it is necessary and is backed by a healthy public sentiment.

This is not a gentle word-but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treat-ment of Consumption and Throat and Lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boschee's German Syrup. There are so many ordinary cough remedies made by daggists and others that are cheap and good for light colds perhaps, but for severe Coughs, Bronchitis, Croup-and especially for Consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup.
