

Kelly Directs 1949 Campaign

Professor Philip T. Kelly, of Newberry College, will serve as chairman of the 1949 drive of the S. C. Division of the American Cancer Society for Newberry county, Mrs. B. O. Long, of Silverstreet, commander of the county division of the society, announced this week.

Prof. Kelly is well known by many Newberryans and people in the county of Newberry. For the past eight years he has served in various positions at Newberry College, his alma mater. Before coming to Newberry Prof. Kelly was connected with Hillcrest high school, Sumter county, as Principal, and coach, where he had been located since his graduation from Newberry College. He is married to the former Margaret Fuller of Alabama and Newberry. Prof. and Mrs. Kelly have three children, two girls and a son.

The quota for Newberry county this year has been set at \$3000. The quota has been set for the campaign, which will be held on a countywide, statewide, and nationwide level during the month of April. Last year, Newberry county was awarded the Distinguished Service Award, for going over the top.

In accepting the chairmanship, Mr. Kelly stated, "I know that cancer is one of the most terrible threats to human life today, but, because we can do something about it, I have accepted the job of directing the fund-raising campaign for the county. I am primarily concerned with raising the money—but the great good that this money can do is the incentive that spurs us on."

Mr. Kelly pointed out that "sixty per cent of the money raised will remain within South Carolina to finance the service program, to purchase equipment for hospitals, to finance better detection facilities, to buy materials for home treatment of cancer cases and to furnish transportation to treatment centers for those who need it. Twenty-five per cent of the money goes into a national program of research to finance more than 200 projects seeking the causes and new cures of cancer. The other 15 per cent is used for education on a nationwide scale."

During the calendar year of 1947 a total of 1,373 South Carolinians died of cancer.
