

SEEN ALONG THE ROADSIDE

By J. M. Eleazer

Just about the full weight of corn products enrichment is now being felt in South Carolina. The past 163 additional corn mills over the state put in the enrichment attachments that are made by Clemson and furnished at cost.

State coverage with this discovery of science, whereby good food products of grits and meal from corn are made into better foods, has been championed from the very first by the state nutrition committee and cooperating health and legislative authorities.

Results are likely showing up in better nourished people. And if hard times should come, during which more cheap corn products are eaten, the state of general health will undoubtedly be far better than it would have otherwise been.

The other day I traveled a familiar road in Sumter county that I hadn't been along since I left there as county agent over three years ago. It goes through a settlement of small farmers, two to three horse fellows. But I didn't see any horses or mules in their fields. I saw tractors! Must have been at least some custom work going on there. Some of those were white farmers and some colored.

Thus the machine goes to small farms too. And what two or three men used to do on each of these small farms with mules and plows, small tractor outfits now do with only one man required. And it seemed that they were doing it better. The land was well plowed, not scratched over.

So it begins to look as though the mile will gradually go even for the small farms where folks thought the tractor couldn't reach. I am not necessarily advocating that. I'm simply reporting what I saw.

Farmers' Week at Clemson is set again for August. It will

be held on the 22nd through the 26th.

Outstanding speakers, demonstrations, lectures, and field meetings will make up the busy week. Farm machinery and home equipment dealers will display and demonstrate labor-saving machines and appliances. Board and lodging will be provided reasonably in the college barracks and dining room. Various farm groups and organizations will hold their conferences here then. The rural ministers will again convene here to discuss rural church problems during Farmers' Week. Thomas W. Morgan, assistant extension director, will again serve as general chairman.

August 22-26! You might mark that on your calendar.

Bamberg county has bought a drag line ditcher and a bulldozer for use in learing pastures and draining their lowlands. It is handled by a commission of five men and County Agent Hubbard is secretary. The charge is \$10 an hour for each machine.

TEACHERS NEEDED TO TEACH ADULT SCHOOLS

James D. Brown, Supt. of Education has received a letter from Miss Marguerite Tolbert, Supervisor of Adult Education asking for the names of white teachers who are interested in teaching five weeks summer school for adults. Adult schools for Negroes were held in the county during the fall and winter.

Miss Tolbert states that a conference June 9-June 12 will be held for those teachers interested in this work and attendance at same will be necessary in order to take part in the program. She states further that those teachers must have: (1) At least a Group, Class IV, Grade B, Certificate and successful teaching experience. (2) They must have a social viewpoint and promotional ability sufficient to organize and hold a class of 15 adults who are interested in serious study. (3) They should be comparatively young and energetic.

"It is hoped that at least some 4 or 5 teachers in Newberry County will be interested in this work," said Mr. Brown, and if so they should contact him at his office in the court house immediately.

ONE OF THEM WILL DIE OF CANCER ... UNLESS

"ME, DIE OF CANCER?"
Yes, it's perfectly possible.

Actual figures show that cancer deaths are increasing steadily and that cancer will strike in almost one of two families.

And never forget... it can perfectly well be yours.

So don't you think you ought to do something about it while there's still time?

THREE SIDES TO THE PROBLEM

If cancer is to be checked... and it can be! ... the problem must be attacked from three sides:

RESEARCH must continue all over the country, under the direction of our leading scientists, to find a cure. This needs money... millions of dollars.

SERVICE must be maintained and increased. Wherever you are, your community must

have facilities to provide information on the prevention, diagnosis and treatment of cancer.

EDUCATION must go forward. People must learn that delay is responsible for up to 35% of cancer deaths. They must know cancer's danger signals, and what to do about them. They must know that, if recognized in time, many cancers can be cured.

HOWEVER LITTLE YOU HELP, YOU MUST HELP!

Every three minutes someone dies of cancer. Every day that passes the chances increase that one of your loved ones may be stricken. You cannot, you must not, you dare not turn your back. There is no greater help you can give than to aid in the fight against this frightful scourge. Remember... someone in your family may be doomed to die of cancer. The help you give today may save a life!

YEAR BY YEAR, MORE PEOPLE DIE OF CANCER!

Millions of dollars are needed to check this dreadful scourge... and the money must come from you.

The need is desperate, the time is now! Will you help check this dreadful ravage? There is hope if you will give... Send your contribution today!

Cancer, the scourge that grows!
