MURRAY BLASTS TELEPHONE CO.

Chicago, June 12. — Philip Murray, president of the CIO, said tonight that the American Telephone and Telegraph Company "is the most vicious monopoly in America."
Murray accused the company of attempting to break the phone workers' union by treating contracts "which I consider sacred, as scraps of paper."
He addressed a convention banquet of the CIO Telephone Workers Organizing Committee, he said:
"I don't often run amok, but I'd take on A T & T tomorrow. Walter S. Gifford, chairman of the board of directors of A T & T, is made of the same clay as any telephone worker or any other citizen of the United States."
Murray said the company is just used to doing things that way, and except in rare cases they will continue to do it.
The Rev. M. DuBose thinks that for most people the rule is a good one.
The Rev. Mr. DuBose's church has about 500 members and he thinks this is a very nice number for a church. "The greatest asset of my church is its people, they are good people and we are progressing at Newberry. I like it there very much."
The biggest need of the church, according to the Rev. Mr. DuBose, is "Christian Stewardship." "All the mem-

TALKS OF CHURCH WORK

THE REV. C. F. DuBOSE, JR. of Newberry was one of many Methodist ministers attending the South Carolina Methodist pastors' school being held at Columbia college this. He is pastor of O'Neal Street Methodist church in this city.

often people go to church because it is profitable, it is good for business. That hurts a church very much. Now don't get me wrong, I am not a pessimist, I think most of the members are good and are carrying on the church work in a wonderful spirit.
"I always try to come to pastor's school, (Pastor's school is held yearly at Columbia college around this time of year). I find it very informative and inspirational. Above all, I think the fellowship with other ministers is good. It keeps us all on our toes when we see how well someone else is doing. After a trip to pastors' school, all of us go home with new ideas that we are eager to put into effect.
"Of the general needs of many churches is better building arrangements," said Mr. DuBose. "Many of us are handicapped with too few departments for our activities. Every department needs a place to feel at home in.
"I was reared on a farm, and have served in country churches, suburban churches and textile churches and I believe that people are all the same after you get beneath the surface. A real preacher can go anywhere and do a good job, with a few exceptions, if he puts his mind to it and his heart in it. Even as I say this, though, I realize that I would be scared to death of a big church."
The Rev. Mr. DuBose was in Columbia for the youth assembly held at Columbia college two weeks ago. Then he was at pastors' school and with all the training and inspiration he has received from both these, he is ready to go back to his church with renewed vigor for the Christian cause.
