MORE TREES FOR SOUTH CAROLINA
 The Newberry Chamber of Commerce in cooperation with the South Carolina Chamber of Commerce, the South Carolina State Commission of Forestry and the American Forest Products Industries is sponsoring a "More Trees for South Carolina" Program which it hopes will encourage the farmers of Newberry County to plant more pine seedlings on eroding and waste lands of the county.
 The local Chamber of Commerce has asked the cooperation of several local, State and Government Agencies in getting the necessary information to the land owners and to assist them in planting the seedlings.
 Fairfield Forest Products Company of Newberry has offered the use of a Lother tree planting machine free of charge to the Newberry Chamber of Commerce for use in this program. Hand planting tools will also be made available by various agencies for use by landowners wishing to plant areas which cannot be satisfactorily planted with the machine.
 Mr. Paul Ezell, County Agent, plans to hold a series of meetings in the various school districts at an early date at which time the use of the planting machine, hand tools, and other phases of this program will be explained.
 Three thousand forest tree seedlings will be available free of charge to South Carolina landowners desiring them, according to a statement by the S. C. Commission of Forestry.

.. to throw away a match without breaking it!

Don't do it! Never throw away a match without breaking it. The fire demon is always watching for his chance. Just one hot match—one match with a spark in it—and he's on top of it fanning it into a dangerous and destructive woods fire.

When you toss away a match without breaking it, you're gambling with valuable trees, future of "forest payrolls, even your own welfare.

Don't take a chance. Remember! It's bad luck to throw away a match without breaking it.
