ARRIVAL AND DEPARTURE OF TRAINS AT ORANGEBURG.

Table with columns for Passenger, Freight, Day Trains, and Night Trains, listing arrival and departure times.

THERMOMETER CHANGES.

Table showing corrected weekly by E. Ezekiel, Jeweler, with columns for A. M., M., P. M., and days of the week.

Go and see the Aeolian Harp at the Book Store—hear it play, and buy a book.

See notice of Dissolution of Co-partnership of Messrs. Strobel, Aldrich & Co. The business will hereafter be carried on by Messrs. Aldrich & Co.

The Postoffice has received a consignment of white paint. A shed would add to the comfort of the public, who wait in sun and rain for the opening of the mails.

We are glad to learn, that on Tuesday last the work at the Shingle-Factory had so far progressed, that a start was made, and the sawing of Shingles commenced. A sample of their work is at our office, and is decidedly the finest shingle we have ever seen.

A walk to the factory, situated on the banks of the Edisto, will well repay any one who takes interest in the progress of our town.

John Byrum's Show, visited our town on Wednesday and Thursday 16th and 17th inst. We are happy to inform our readers that Eyrum the champion Ethiopian personator with his Legende-magic, and magic art, were equal to any that has ever visited our town.

MAY DAY and the Tournament.

As this will be our last issue before the grand Tournament on May Day, we take this opportunity of endeavoring to persuade our farmers, far and near, to spare the plow-horses for one day, to allow their families to attend. Holidays are rare enough to our good country folk, and the loss of a single day's plowing

will be repaid ten-fold by the enjoyment afforded their wives and little ones. Our advice to fond daughters and still fonder wives is to start at "the old man" now, and keep at him, never giving him rest, day, or night, until the promise is given. On second thought, however, this advice is hardly needed, as it would be necessary only in those families where the husband and father ruled and we fear the Times visits few families where such is the case.—(our Business Manager is responsible for this.)

Come one and all, then, and let us make a gala day of it.

Special.

The Treasurer of Presbyterian Church Corporation, begs to acknowledge the receipt of \$5 from some unknown friend for "Foreign Missions."

The Southern Life Insurance Company

Will organize in Orangeburg a local board with a view to retaining capital in our midst, for the benefit of its assured.

Carpenters, Pattern Makers, and Cabinet Makers, Will take notice that P. P. Toale, of Charleston, has on hand and for sale, White Pine of the finest grade, wholesale and retail. Also, Walnut, Oak and other hard wood.

MR. JOSEPH McNAMARA. This gentleman, who is one of the best known and most reliable of our merchants, has just returned from the North and advertises in to-day's issue, a large and handsome assortment of Spring and Summer goods. Especial attention is called to his selection of Dress Goods, Casimeres, &c., of which he makes a sort of specialty in his business.

Cold Coliation, May 1st.

The ladies of the congregation of the Presbyterian Church are requested to meet in the Church, to-morrow, (Friday) afternoon, at five o'clock, to make arrangements for a cold coliation in aid of the organ fund.

Choice Stock.

A pair of fine Merino sheep, and a lamb of same stock were received here by Express for the Rev. I. S. K. Legare, on Friday last. Sheep raising is engrossing the attention of Southern farmers to a greater extent than formerly.

THE WEATHER AND CROPS.

The weather of the past fortnight has been intensely dry, and the dust is becoming very disagreeable. The bulk of the cotton crop must be in by this time, but little of it will sprout until we have rain. The young corn is beginning to show itself all over the country, and many planters have worked it over for the first time.

The Fountain Pump.

Everybody (and his brother) has been delighted with the working of the new Portable Pump and Sprinkler, kept for sale by Captain Briggmann. It has only to be seen to be appreciated, and the Captain will take pleasure in showing how useful for the garden, and for cleansing window panes it is, to say nothing of its value in case of fire.

Mr. Lawrence D. Clark.

The death of this gentleman, which occurred on Friday last, at Lewisville, was a severe shock to his many relatives and friends, who have our sympathy. It is sad when the aged are taken to their long rest, but when a young man is cut down, who had a apparently a long life ahead of him, and much to live for, it is inexpressibly sad. His funeral services were performed on last Sunday, by Rev. F. Auld, at the Methodist church.

Select Cotton Seed.

The untimely frosts of the past week, will cause many farmers to be looking out for seed, and those who have planted select seed (every one ought to) will be glad to learn that they can purchase the best of seed from Dr. J. W. Summers, who advertises them to-day. They are of his own selection, and we happen to know that they are good. His supply is limited, so call soon.

The Agricultural and Mechanical Association.

A meeting of the stockholders of this institution, is advertised to-day, to take place on May 10th. Although the Association is a fixed fact, yet it cannot be said to be fully underway, until the stockholders have met, elected officers, adopted by-laws for its government, and have agreed upon a definite plan of action. Let this meeting then, be a full one! Let those who desire to become stockholders attend, and even if all the shares have been disposed of, they can

can doubtless purchase an interest from those who have invested largely. We desire to see this Association fully started, as we believe it is destined to work great good to the country and on this account, shall watch its course with deep interest.

First Class Grocery Store.

We are pleased to see that the enterprise of Messrs. Vose & Izlar, in abandoning what is known as "General Merchandizing," is meeting so much encouragement, and that they are earning the success they deserve, in establishing a strictly first class grocery, and employing their energies in that specialty. As we have said before, nothing shows the growth of a town more than that its merchants feel encouraged to deal in a specialty, and (as in war,) it is but right that those who take the lead should get the spoils. Messrs. V. & J. are go-ahead young merchants, who will do all that (and more than) they promise. Try them. All goods delivered at your residence free.

MR. JOSEPH McNAMARA.

This gentleman, who is one of the best known and most reliable of our merchants, has just returned from the North and advertises in to-day's issue, a large and handsome assortment of Spring and Summer goods. Especial attention is called to his selection of Dress Goods, Casimeres, &c., of which he makes a sort of specialty in his business.

We predict a rush, and empty shelves in a short time, as Mr. McNamara buys largely for cash, and is prepared to sell at the very best rates.

South Carolina Loan and Trust Company, Charleston, S. C.

We would call the special attention of our readers to the advertisement of the above Company in another column. It offers inducements and security for investment of savings such as are rarely to be met with. Interest on deposits at six per cent, compounded quarterly, is in itself a handsome return, while the depositor is able to rest satisfied that he is running absolutely no risk at all. For in addition to the fact that the Directors and Trustees are among the most prominent and trustworthy business men of Charleston, the whole amount of the banking capital, viz: \$300,000, is a security for all deposits in the Savings Department.

Prepared Coal Tar.

AND AMMONIATED MUCILAGE. FOR STEEPING AND PREPARING SEEDS BEFORE PLANTING.

THIS preparation lately introduced to the Agricultural world, appear from recent experiments to surpass all that has ever been attempted in that line. It not only contains all the elements and fit food for the seed in its infant state, which enables it to come up strong and vigorous, but positively claimed that no rust, smut or blight can exist where it is applied, and proving a certain preventive against the potato rot. It dissolves readily, and forms a mucilage by which any material can be made to adhere to the seed. Coal Tar being a very small proportion of this valuable compound to prevent the ravages of birds and insects, but so united and prepared as to form a dry powder, which dissolves readily, one pound producing one and a half gallons, or fifteen pounds of mucilage. On every farm there are to be found in abundance valuable materials for rolling seed in before planting, which should never be neglected. These are rich dry black earth and wood ashes, or lime, and should be mixed in proportion of one part of wood ashes, or lime, to four parts of earth. By the aid of the mucilage much of this material can be made to adhere to each seed, which never fails to show good results. It has been tried on rice, cotton, wheat, potatoes, peas, corn, and all the cereals with marked effect, none showing any signs of rust, blight or fungus where it was applied.

For sale by KIRK ROBINSON, Agent. April 10, 1873.
