Notice.

Contract advertisers may change monthly. Every change must be sent in by Monday noon.

Several buildings are being put up on the Belville road near the town limits.

Guanos are arriving freely by every train. The demand will be mainly for cash.

See notice of valuable real-estate on Russell Street for sale by Messrs. Fowles & Glover, real estate agents.

The letter of the Rev. G. A. Hough in another column is a warning against the careless use of kerosene lamps.

We are requested to say that Mr. Race will not expect the pay, or any part of it until he delivers his transplants to purchasers.

C. D. Kortjohn.

Mr. Kortjohn is still at his old stand, attending to customers, who through his store to drink that delightful Lager Beer, which he has just received. He also has a fine lot of choice segars, which he sells cheap.

Monthly Parade.

On Tuesday the Young Americas paraded, and as usual attracted a large crowd by their brilliant uniforms. The Young Americas always come up to their "mast," and if ever a fire breaks out they will always be on the spot, but unless we have more fire wells any engine is useless.

Painting.

We notice that Mr. B. Williamson has just had his dwelling neatly painted by Mr. Jas. A. Williams, who is a painter that fully understands his business, and we advise everyone who wishes painting done in all styles, both plain and ornamental to give Mr. Williams a trial, and we are sure that he will give satisfaction.

Death of Mrs. Ann E. Barton.

The many friends of Dr. W. F. Barton, will be pained to hear of the death of his most estimable wife, who departed this life after a short illness, on the night of the 3d; Her remains were interred at New Hope Church on the 4th. Our worthy friend has the sympathy of the entire community.

To Subscribers.

Subscribers whose term has expired, will find a red Cross marked on the margin of the first page. Hope all that find the mark on their paper will renew immediately.

The old Drug House Revived.

Many of our subscribers will read with pleasure the announcement in another column, that their old friend and acquaintance, Mr. James Harral, has re-established his wholesale drug house in Charleston. Mr. Harral, who has for many years been known to the business community as a member of the firms of Haviland, Hurrell & Co., Charleston, Haviland, Risley & Co., Augusta, and Hurrell, Risley & Kitchen, New York, has associated with him George S. Pelzer, M. D., former Registrar of the City of Charleston, and brother of Mr. Pelzer of the well-known house of Pelzer, Rodgers & Co. With a thorough knowledge of their business and a large capital at command, their success is assured; and they have laid in a large and entirely new stock which offers great inducements to purchasers.

Sale Day.

Monday was bright and clear, affording the large crowd a fair opportunity to see and to be seen. The usual tempting assortment of hacked horses, and crazy wagons were up for a change of ownership, drawing a number of bidders if not a pile of greenbacks. Dr. Barton's planter was greatly admired for its simplicity, and thoroughness of performance. Mr. Gregorie was on the square with a new planter which had its friends. A very superior transplanter was on exhibition, showing the march of improvement in the agricultural line. This is the patent of Mr. A. Race of Chesterfield County. Mr. Race will visit our county to effect sales and orders. From experienced planters it is pronounced the best yet offered. The bland seller of fortunes was crowded with applicants, each craving a gift which few received; however he sold out and retired with a pleasant smile, and more money. There was a general desire to withhold from contracts for liens, and our impression is that planting must be limited in consequence.

There was only one sale by the Sheriff viz: one lot with building thereon in the town of Lewisville, belonging to the Estate of L. D. Clark, sold for partition bought by Geo. B. liver for \$1680.00.

The Rural Carolinian.

The March number of the Rural Carolinian is on our table, with its characteristic promptness. This number, like its predecessors, is replete with information which makes its regular monthly visits so welcome to the home of the farmer. The articles generally emanate from the pens of practical farmers, whose familiarity with the subjects on which they treat is portrayed in every line and word. We give the titles of a few of the leading articles in the number before us: Labor-Saving Machinery on the Farm; Some Methods of Irrigation, Illustrated; Ploughs and Ploughing Again; Dignity of Labor and the Importance of Knowledge; Hints towards Rational Farming; What can be done in North Carolina; Acid Phosphate and Cotton Seed Compost, ect. Besides the several departments of the Magazine are likewise filled with useful information, making the Rural, as we have often said, the most valuable agricultural publication issued in the Southern States. The terms are \$2 per annum; or Clubs of six, \$10 per year; Clubs of ten, \$16; Clubs of twenty, \$30. Address the Publishers at Charleston, S. C., who will furnish all information desired, as regards terms for Canvassing Agents and the two beautiful Chromos. which are offered to subscribers at exceedingly low prices—less than one-quarter their cost at retail.

Sends your orders for Doors Sash and Blinds to the Southern House of Geo. S. Hacker of Charleston S. C. Mr. L. Ransdale of our Town is the authorized agent for this House.

Facts worth knowing! One of the best indications of the South, and prosperity of Charleston, is to be found at the Establishment of Messrs I. H. Hall & Co., located at Nos. 2, 4, 6, 8 Market St., 223 & 225 East Bay. The rapidly increasing business last year of this firm, has induced them to enlarge their Establishment, which now supplies every conceivable article that can be required in the building of a house, from a baluster to any

size timber. Our friends in the City, and throughout the State who contemplate building a house can be supplied with the materials necessary for its construction, at prices and quality of work which will save a large percentage in the cost of building. They are Agents for Asbestos' Roofing Felt, endorsed by some of the best firms in the country. Send for price list and circulars.

[COMMUNICATED.]

Mr. Editor Orangeburg Times: I want to plant a small field of cotton in checks. Will some of your numerous readers be so kind as to inform me through the TIMES, whether it will be any easier to tend than if planted in drill. If so, how is the best way to prepare the land, how to apply the manure, how many stalks to leave in the hill, and whether he thinks it will make as much as drill cotton? In the TIMES of 19 Inquisitive says people may think him asleep, but more likely he and others are like myself, working too hard with head or hands to have any time to write for a newspaper but if he or any one else will please spare a few moments to answer the above and say something more about hauling out manure they will oblige you.

Persons are hereby notified not to trade for the above notes. A reward of ten dollars will be paid for the said money and notes. Leave at TIMES office.

A. F. OTT.

HIGHLY IMPORTANT TO FARMERS AND PLANTERS.

AMMONIATED MUCILAGE, FOR Steeping and Preparing Seeds before Planting. This preparation, lately introduced to the Agricultural world, appears from recent experiments to surpass all that has ever been attempted in that line. It not only contains all the elements and fit food for the seed in its infant state, which enables it to come up strong and vigorous, but positively claim that no rust smut or blight can exist where it is applied, and proving a certain preventive against the Potato rot. It dissolves readily, and forms a mucilage by which any material can be made to adhere to the seed. Coal Tar being a very small portion of this valuable compound to prevent the ravages of birds and insects, but so united and prepared as to form a dry powder, which dissolves readily, one pound producing one and a half gallons, or fifteen pounds of mucilage. On every farm there are to be found in abundance valuable materials for rolling seeds in before planting, which should never be neglected. These are rich dry black earth and wood ashes, or lime, and should be mixed in proportions of one part of wood ash or lime, to three parts of earth. By the aid of the mucilage, much of this material can be made to adhere to each seed, which never fails to show good results. It has been tried on corn, rice, cotton, wheat, potatoes, peas and all the cereals with marked effect, none showing any signs of rust, blight or fungus where it was applied. Put up in one pound Packages at 30 cents per pound, which dissolves and forms one and a half gallon of Mucilage, sufficient to roll seed for one acre land. 600 Planters used it last season with remarkable success. Every Farmer and Planter should use it. FOR SALE BY KIRK ROBINSON, Agent, Orangeburg, S. C. Feb. 26 3m.
