CHARLESTON, S. C.

Many years ego, the writer of these lines and an invalid physician, while visiting the Island of St. Croix for their health, experienced and witnessed many surprising and beneficial effects of the Rum there produced upon many of the invalids who were (like ourselves) scoking health; and, upon inquiry and investigation, obtained a full history of its medicinal virtues. He was delighted and surprised, and after his own recovery, which soon cocurred, determined, if possible, to procure the cole right to manufacture and sell it in the United States.

The result of his labors was a giorious success for himself and suffering humanity, for the colebrated PLANTAPION BETTERS was thus made known to the world. PLAN-TATION BITTERS being an article of real merit, founded upon new principles, and relying wholly upon the vegetable world for its medicinal offects, worked a rapid revolution in the history of medicine, and became as a household word all over the civilized world. The cabalistic S. T.-1860-X. was a talismen of health, and the domand for the PLANTATION BITTERS soon far exceeded the abilities of the proprietors to supply.

Notwithstanding the large importation of St. Croix Rum, made expressly for the compounding of these Bitters, the quantity was inadequate. It therefore became necessary that arrangements upon an extensive scale abroad should at once be made, and an agent was dispatched to St. Thomas for that purpose. He was fortunate in securing and leasing several plantations on some of the largest and most productive estates on the island. Houses, stills and presses were erected as if by magic, which utterly "astenished the natives." The services of experienced men and natives of the island were procured, and very seen the proprietors of the PLANTATION BITTERS were in a position to supply their laboratory with all the perfectly pure St. Croiz Rum needed in manufacturing the GREAT DYSPECTIC TONIC AND INVIGORATOR. The above out represents the natives crushing the sugar-cane and otherwise proparing it for the stills and presses. As an entidote to Fever and Ague, Intermittent and Malarious Fevers, Dyspepsia, and other kindred diseases, the use of the PLANTATION BITTERS is unsurpassed in the

history of the world. Over five million bottles are disposed of annually. They are

adapted to old and young, male and female. They are agreeable in taste, and always

produce an immediate beneficial result. h 3, 1869.
