WEDNESDAY, JUNE 1. RES LOCI.

LARGEST CIRCULATION ... THE DEMO-CRAT HAS THE LARGEST CIRCULATION OF ANY PAPER IN EASTERN SOUTH CAROLINA AND PUBLISHES THE OFFI-CIAL ADVERTISEMENTS.

All parties indebted to this office for subscriptions, will please call and settle their arrearages, as we are compelled to have money to keep up the supply of material.

### Fine Rains.

Since our last issue, we have had fine seasons. The rains have refreshed the parched crops, and encouraged the farmers.

Mr. Moses S. McCall, died at his residence in this county, on Saturday afternoon. He had been an invalid for many months. Mr. McCall was a worthy citizen, an affec-

tionate parent, and a tried friend. The community sympathise with the family in their bereavement.

## The C. & D. Railroad.

The recent rains did some injury to the track of this road; we are not informed as to the character or extent of the injuries sustained.

The trains are not running through to Cheraw.

### The Election,

We have no information as to the result of the Congressional election held on yester day. Every thing passed off quietly at this poll

### Irish Potatoes.

The drought just ended came upon us at an unusual season. We would like to be informed which kind of Irish Potato, bore it best. We hear much complaint of the inability

of the Early Rose to endure drought. Will some of our Agricultural friends let us hear from them on this subject?

### Elerbe's Transplanter.

Why is there no agent for the sale of this excellent agricultural implement at Darlington C. H? As it is, we know of but one objection to the few Transplanters about here. They can't stay at home.

### [Communicated.] MASS MEETING.

Citizens of the County, without distinct tion of party, class or color, when desire to see retrenchment and reform in State and County affairs, are invited to attend a Mass Meeting to be held at Darlington, C. H., on the approaching Sale Day, being Monday, the 6th of June, for the purpose of electing delegates to the June Convention of the Citizens

Party of the State. MANY CITIZENS.

### Advance in Corn and Bacon to the South.

If we are not much mistaken in the present appearance of the Western provision markets, those planters in the South who staked their bottom dollar on cotton last year are going to have a rough time of it from now until the next corn and bacon crops are made. Prime white corn on the 27th day of Apirl, one year ago was selling in this market at \$1.05 per bushel, by the car load-It is now worth \$1.50-a difference of 45 cents per bushel against the South cotton planter. Bacon at this time one year ago was weak at 18 cents for clear rib sides. It is now firm at these figures, with an advancing tendency. So it is clear that there must be a very heavy decline, at least in the price of bacon, or the planter will have to shell out a much larger amount of cash for the staff of life this, than last yea . But will this decline occur? Evidently it will not, for our corn dealers, at the present high price, arr bearly able to keep pace with the demand and from all quarters in the West we here of a general scarcity of corn, and a daily advance in prices, per contra. On the 27th day of last April planters were firmly holding cotton in this market at twenty-five cents per pound; now they are offering it quite freely at twenty-one cents .- Newbery Herald.

NEW PRINCIPLES OF CURE. Of all Wasting, Sprofulous, and Eruptive Diseases of the Eyes, Nose, Mouth, Throat, Ears, Head, LUNGS, Kid-

neys, Bladder.

THE SKIN MADE PURR, CLEAR, SMOOTH, AND BEAUTIFUL.

DR. RADWAY'S SARSAPARILLIAN RESOLVENT Establishes a new principle of Cure of all Chronic discases; and proves to the medical world that Consumption and other Scrofulous diseases are curable. This fact has been demonstrated in over ONE HUNDRED CASES OF CONFIRMED CONSUMPTION where one Lung in over feeeing cases was destroyed and dried up, and in over where one Lung in over Tecenity cases some destroyed and dried up, and in over 1500 CASES OF SUSPECTED CONSUMPTION.

DR. RADWAY, three years since, published to the world his analysis of the Blood in the several stages of CONSUMPTION, showing in every stage, that where tubercless become deposited in the Lungs and other organs, as in the Kidneys, Liver, Spicen, Bronchial Giands, Intestines, establishing Consumption of these organs, the ELOOD is thin, weak, pale, watery, and is deficient of such constituents as fibrin Albumen, Phosphorus, and the rich red coloring discs of the Blood Corpuscies. In the absence of these constituents in the Blood, the Blood is exhausted of strength and nourishment, and wherever there is inflammation it deposits tubercles and decomposition, it has not the power to hold in solution its natural constituents, and Uleers, Seres, Tumors, Cancers, and Virulent Humors are formed, the presence of which causes inflammation, gathering, and consequent suppuration.

This, reader, is the true cause of the formation of

onsequent suppuration.

This, reader, is the true cause of the formation of This, reader, is the true cause of the formation of Tubercles and Consumption. Dr. Rabway was the first to advance this theory of the cause of Consumption and its kindred diseases, and prepared the RADWAY'S RESOLVENT to supply the Bood with such constituents it was deficient of, in these conditions of system, and to give it the nourishment and strength to hold its natural constituents in solution. Dr. Rabway's theory was published in England, France, Germany, and America, and was selzed upon by the sciential men of both hemispheres. From his text medical books have been since published by medical writers claiming to hare discovered the cause of Consumption, but have fedical to produce the remedy to care. Dr. Rabway was the first to advance this theory, and the first and only discoverer of a medicine that will care. In RADWAY'S SARSA-PARILLIAN RESOLVENT the public have a remedial agent that will care Consumption and all diseases of the

ogent that will oure Consumption and all diseases of the LUNGS, BRONCHIAL, KIDNEYS, BLADDER, WOMB, THEOAT, GLANDS, AND URINARY RGANS. In all Wasting Discharges, such as Involuntary Loss of

Sperm, Emissions, Weakness of the Genital Glands, Leuchorenea, and all Uterine diffenties, Gravel, Lime Stone, Brick dust, Unc Acid, and Calculous Concretics, the SARSAPARILLIAN RESOLVENT is a positive cure. In Dropsy, Diabetes, uncured Venereal, Syphilis in its many forms, it cures when all other medicines fail. an increase of flesh, weight, and arrength is experienced. "The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions this of had blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causeimperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, bread, and frequently covered with a pasty white ceat. This condition soon shows itself in roughness of the skin, then in Eruptive and Ulcerative diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus.—Much, vory much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total sus-pension of the urinary discharges will occasion leath from thirty-six to forty-eight hours. When the Urin is voided in small quantities

t the time, or when there is a disposition to Urinate more frequently than natural, or when the urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a le-sion of the organs take place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the kidneys, except through the general circulation of the Blood, we see how eessary it is to keep the Fountain of Life Pure.
