

The "Old Folks Concert"

In spite of the weather is still promised by the musical friends.

Capt. Bell

Started the corners of the Refinery on Tuesday morning. May this be the corner stone of other enterprises.

J. W. H. Dukes, Jr.

Lost a horse from the effects of the sun on Tuesday. It died in Mr. Sain's yard.

Murrah for the Barkey!

The Marion "Staf" says there are only four persons in Marion jail, and they are all white.

Fresh Garden Seeds

Can now be obtained at Mr. Willie Robinson's. We return thanks to Mr. Robinson for a fine nelson Wednesday morning.

The Summer Guards.

Of Charleston, went by on Monday, on their way to Greenville. They were a jolly set of young fellows.

Yellow Fever

Has been reported in Memphis, and a perfect stampede from the city followed. The disease, however, has not spread and the panic is subsiding.

Eli Perkins

Comes at the Town Council again. He also hits "Ike Slinkins" a crack on the cranium. We are glad to see that he promises "to rite again."

Omission

Our printers accidentally omitted the name of Mr. Jude Robinson in the list of Survivors of the Edisto Riots. Mr. Robinson was a faithful soldier of the "Lost Cause."

Ice Cream

At Eros' every day. If you want to keep cool during this hot weather go to his saloon and call for any flavor you want. We have tried it, and we speak what we know.

Sunday School Convention

The Baptist Sunday School Convention commences to-day at Jamison. We hope there will be a full representation, and a profitable meeting.

J. W. Blosley, Esq.

Remember the popular store of this veteran merchant at the Railroad corner. He has always on hand every variety of groceries and general merchandise. Give him a call.

Mr. Riggs' Tannery

Under the new process is a success. We examined some of the leather at Mr. Kirk Robinson's, and it is excellent. He has a valuable manager in Mr. Prusner.

Remarkable

We are informed that a hen on Mr. John Ogren's place left the nest after one week's sitting and yet three chickens have hatched and are doing well. The hot weather must have finished the business.

Kortjohn

Is having his five cent counter always replenished with things worth more than the money. He is, also, constantly receiving from the depot, fresh assortments of varied merchandise. This is the place to save money.

A Treat

We notice that Rev. S. A. Weber, formerly of Orangeburg, preached at the First Baptist Church in Charleston last Sunday. We know the congregation of that old church enjoyed a treat.

Correction

It is with pleasure that we give place to Mr. Sorentruo for the correction in reference to the part he took at the Edisto picnic. We were not present, and we depended upon our reporter who made the mistake.

F. DeMars

Is cleaning and fixing up his new and spacious quarters at Fischer's old stand, and expects to move in Friday or Monday. It is an excellent stand, and Mr. DeMars being a first class business man we predict for him success.

Varied Industry

We are satisfied that there are many ways of making a living around Orangeburg beyond those now in practice. There is no doubt that a well conducted dairy, or farm for canning vegetables, fruit, &c., would pay. Vegetables don't pay here because there is no market, and the truck farms around Charleston can beat us on the seasons. But by canning all would be even, and what are more prolific and easily raised than tomatoes.

The Auction Sale

Of Mr. Fischer's stock has been completed very creditably to the parties in charge. Especial mention may be made of the services of Mr. Loyea, the auctioneer, who has proved himself an expert in this line of business.

Why

Suffer with derangement of the bowels when you can go to Dr. J. G. Wannamaker's and procure the celebrated German Chamomile Tonic, which is a certain cure for all bowel affections. Only 50 cts per bottle. We have tried it and therefore know its virtue.

Millet and Melons

Mr. J. Hess Andrews brought in town on Saturday two of the finest stalks of millet known in this country. He has also supplied the market, this year, with over 1000 water melons which have been sold by Mr. Webb Bull.

German Chamomile Tonic

A tonic that at once invigorates the Liver and Digestive Organs, regulates the Bowels; acts upon the Kidneys, opens the Pores of the Skin and for all Impurities of the Blood, it is unsurpassed. Trial bottles 10 cents. For sale only by Dr. J. G. Wannamaker.

University Building

The Board of Trustees met in Columbia on Tuesday, and decided after consultation that they have no right to let out the University buildings in accordance with Col. Thomas' application. We are glad of this decision. What we want is the State University, and let us have it.

The News and Courier

Credits Orangeburg for 107 degrees of heat. 102 was the best we could do in a fair trial, and that was more than we cared about. We notice that Quelquefois was silent during the hot term, and some one fired upon the thermometer while he was trying to keep it down.

Our Thanks

Are due to Mrs. Townsend Wolfe for as fine a dish of tomatoes out of her garden as we have had the pleasure of seeing for many a day. They were of the "trophy" variety, and we carefully measured a number of them, and found the average measurement to be about 11 inches in circumference. One reached 12 inches.

Suicide

Mr. D. Nordmeyer, a well known German grocer and brave Confederate soldier, committed suicide on Wednesday in Charleston by blowing his brains out with a pistol. He was suffering from an incurable disease, and decided no longer to bear "the slings and arrows of outrageous fortune."

On last Sunday two young men, Lee and Prentis, near Cheraw, while on their way to Church, dismounted to settle a difficulty they had about a young lady by a fist fight. After a while they drew their pistols, and after firing some fourteen shots, Prentis who invited Lee to the encounter, was killed.

D. E. Smoak & Co.

Change their advertisement in this issue. They have on hand a large and splendid assortment of general merchandise, liquors, &c.

We pulled some of their fine cigars, but this is not the cause of our puffing the goods. We speak what we know when we say that all who try them will be pleased with their bargains.

Our Office

Was thrown into a state of considerable excitement yesterday about 11 o'clock by the appearance of two fine watermelons from Mr. F. B. Livingston. All work was immediately suspended, and great alarm was felt by the editor for the issue. However, all fears have now subsided and we begin to think that it would be best to accustom us to such diversions by their frequent repetition.

Teacher's Convention

We have been looking anxiously for the official proceedings of this body on Saturday from the Secretary, and have even tried to obtain them, but failed.

We hear very favorable comments upon the essay of Miss Minnie Edwards. It is with pleasure that we have noted from time to time, the advancement this young lady is making in literary attainments. We wish her success in the profession of teaching, which, to her, seems rather a pleasure than a task, a fact which we always regard as a source of encouragement.

The Verdict

Of the Jury of Inquest which was held yesterday at the Court House was that Cudjoe Huggins came to his death by a pistol ball fired from the hands of W. W. Evans in the discharge of his official duty as Constable.

For North Carolina

Mr. W. B. Thompson takes a trip next week to visit his family in North Carolina. Mr. Thompson made Orangeburg his home a few years back, and during his short stay has drawn around him a host of friends by his exemplary citizenship. We wish him a pleasant journey, and a safe return.

Rev. S. Lander, Principal of Williamston Female College, writes an receipt from Williamston of a young colored man who was known to prominent citizens of that place to be a deaf mute from his birth, suddenly speaking.

He describes his physical condition before speaking as very peculiar. His head felt as if it was about to burst; he was stunned by terrible noises, and his extremities were cold.

Sickness

We regret to hear that a little child of Mr. A. Queen Sally is being very ill. We hope the disease will take a favorable turn.

Mr. Arthur Lewin was taken very sick last Saturday with hemorrhage and has been compelled to suspend business. We are glad to learn that he is somewhat better.

Mr. Charlie Brunson has also been ill for some time at the residence of his brother-in-law, Mr. W. H. Perre, clear, but is now on the mend.

In the Lock Up

On Tuesday, a vagrant prowling around town, was taken up by Mr. Cannon and put in jail. He was found about Mr. Renner's premises.

On Wednesday afternoon, a white man, in a state of violent intoxication, was carried by our office, by the same official. He resisted arrest and refused to walk and had to be taken up bodily. We commend Mr. Cannon's forbearance, and his provocation, from using his club, and yet we admit there are times that worse than clubs should be used on such refractory characters.

Our Correspondents

Are doing their duty nobly now. They are keeping us posted as to the news of the County, and they write briefly and to the point. This is as it should be, and we hope they will continue their good work.

We earnestly invite persons from every section to give us the news. If they have not the time and patience to write, send us the facts and we will do the rest. It is in this way that we propose to make the Times interesting and newsworthy, and our friends must help us. It is not the quantity but the variety of matter that pleases. A newspaper is not to be measured, like calico or long cloth, by a yardstick. Its value depends upon something else.

Juvenile Presence of Mind

A few weeks ago while two little children of Mr. W. C. Rives of Rowesville were playing around the well, the little girl accidentally fell in. The little brother instead of getting excited, as most children would have been, deliberately lowered the rope or bucket, which his little sister had the presence of mind to catch and hold on to, thus keeping her head out of the water, until relief could be brought. The little boy was unable to draw the rope up, but called for help until the father came, and the child was thus rescued from a watery grave. Such presence of mind and deliberation in children so young is worthy of note and admiration.

Insurance

Among the leading Fire Insurance Companies represented here is the Home of New York. The Home represents \$3,000,000 cash capital. It began with a cash capital of \$500,000 and has grown to the mammoth corporation it is by paying during the past 26 years, over \$28,000,000 of fire losses. This company opens its Agency with Capt. Jno. A. Hamilton, who has also such companies as the "Queen" of London & Liverpool, \$12,500,000 capital, the old "Niagara," \$1,250,000 capital, the Western Assurance of Canada, Lynchburg of Virginia, &c. Capt. Hamilton insures every class of property, and from an experience of ten years underwriting is bound to give satisfaction.

Our Farmers

Will find pleasure in reading the letter of "Agricultural Critic" in today's issue. We are gratified to see by it that he intends to give us a series of letters of Agricultural topics, and being a successful planter and a gentleman of culture and experience, the contributions from his pen will be of value to our paper which circulates so largely among the farmers. He invites criticism, so we hope some of our readers will open a friendly discussion with him on the live subjects which he touches.

The Crop Prospect

So far, at least, as corn is concerned in this County, is by no means good.

In the first of the year it was favorable, but the recent lack of rain has completely changed the outlook.

The rains have been very limited and partial. Some sections have enjoyed light showers, while others are parching up. We understand that Capt. John S. Bowman has 100 acres of corn which he does not expect to yield three bushels per acre, and everybody knows, with his excellent farming, instead of 300 bushels, with favorable seasons, he would have got six times as much.

We heard Capt. John L. Moore say, on Wednesday, that the heat of the sun and the drought were so great that even small trees in his yard were dying.

Such are only specimens of what we hear from every direction.

Williamston College

We are indebted to President Lander for a catalogue of this College. Our attention was attracted by the "One study" feature of this Institution which has been in a successful operation for many years. By this plan the department of Belles Lettres is studied solely for one month; then the department of Latin is taken up; and next the department of mathematics &c. President Lander seems to be up to the progress of the age in all things, and at the same time independent in his views and management. The departments of Book keeping, Typography and Telegraphy have been introduced.

The non-sectarian spirit of the Institution is marked, and we are pleased with its system, course of study, and general character. We notice on the list of pupils several Orangeburg names, among them Miss Julia Strunk, Miss Fannie Holman, Miss Carrie Izlar, and Miss Lorena Bull. Among the "Premium Pupils" we notice the name of Miss Lillian Weber, daughter of Rev. S. A. Weber. The Fall Session commences August 4th.

Resisting Authority

Trial Justice Evans, of the Fork, issued a warrant last week, for the arrest of some parties who had been guilty of misdemeanors. The Constable went to the spot near Easterlins, and in making the arrest one of the colored men resisted and becoming unmanageable, was shot and killed. The other man, who was the father of the man killed, was brought up and lodged in jail on Saturday.

Since writing the above we have obtained the following facts: W. W. Evans, a son of the Trial Justice, was acting as Constable. He succeeded in arresting the father, Scipio Huggins, without any trouble, who had a portion of the stolen goods and said that he got them from his son Cudjoe. Mr. J. P. Hutto and the Constable then went in search of Cudjoe. When they found him he crossed the fence, and commenced a fight with Mr. Hutto, the prosecutor.

Mr. Evans, the Constable, fearing that Mr. Hutto would be overpowered, tapped the aggressor on the shoulder to arrest him in the name of the State. Cudjoe immediately struck him, knocking him back, and pressing upon him. Mr. Evans then fired and the man fell.

He is represented as a very dangerous and troublesome character, having before been in the clutches of the law.

Tramps

In connection with the frequency of crimes at this time, public attention may be directed to the prowling of suspicious characters through the country, having no visible means of support. Two have been taken up in town this week, and we have just heard through the "News & Courier" of the attempted murder in Greenville in his bed at night of Mr. Timmons at the residence of Capt. Norwood of the Greenville Guards by an unknown person.

in our town are also fresh in our minds. The weather being warm persons cannot close up their houses as they can in winter. These characters prow around in the daytime and watch their opportunity for night. They thus learn the situation with accuracy for their midnight depredations. Our town authorities ought to be on the alert, and the vagrant laws ought to be enforced. Every man ought to show some visible means of living.

When we speak of tramps, we do not only refer to those who come from a distance, but there are many right in our midst who tramp about seeking what they may filch.

A community is materially injured when honest men have to guard their goods with locks and bars or shot guns. A rigid and severe punishment of all thefts would be of great benefit. Communities in which rogues are severely dealt with, and made to leave the neighborhood, are blessed with security, and the assurance of enjoying what they earn. With us it is not so. Ask any farmer around Orangeburg and he will confirm what we say. In calculating the profits on farming a fearful percentage has to be taken out for stealing. Especially is this the case with the watermelon and truck farming.

It is a shame that it is so. Honest men ought to be protected and rogues punished. We pay taxes for protection, and the government ought to give it. Let the government and the people keep wide awake and on the track of rogues, and make it hot for them to live amongst us.

Is it True

That a remedy has been compounded which will do away with the mineral and drastic purgatives of the past centuries, and which, while entirely efficient, will leave the system in its former healthy condition? Yes, the remedy is Tabler's Peppermint, or Vegetable Liver Powder: a cure for all the disorders arising from a torpid liver, and as innocent as spring water. Give it a trial. It will do what it promises. Price 50 cents a bottle. For sale by Dr. J. G. Wannamaker.

Out at Last

"Good morning, friend A., I am surprised to see you out, and looking so well; I heard you were confined to your room, and bed, by that pest of humanity, Piles." "Yes, Mr. B., I had been long a sufferer when I heard of Tabler's Buckeye Pile Ointment. It proved a blessing to me indeed, one bottle having so far restored me as to enable me to do about my business again with ease and comfort. You can recommend it as a genuine remedy." Price 50 cents a bottle. For sale by Dr. J. G. Wannamaker.

Be Wary Before the Public

THE GENUINE
DR. C. McLANE'S
PREPARED
LIVER PILLS,
FOR THE CURE OF
Dyspepsia, or Liver Complaint,
HEADACHE,
AND ALL THE SYMPTOMS OF A DISEASED LIVER.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternate with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and a simple purgative, they are unequalled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS. The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and J. BROS. on the wrapper. Insist upon having the genuine DR. McLANE'S LIVER PILLS, prepared by Dr. C. McLANE, of Pittsburgh, Pa., the name being full of imitations of the name McLANE, spelled differently but same pronunciation.

THE
CLOCK, WATCHMAKER
AND
REPAIRER.

"Time and tick," both wanted are, For Watch and Clock and people here, If tick you need, or time to set, Just saunter round to Chivette.

For twenty years and two, he's spent In learning how his art to know, By special Providence he's sent To Orangeburg that art to show.

If a Watch will keep no time, And if a Clock will give no tick, 'Tis just because you've missed this line, Which tells of good work, true and quick.

If your Watch will keep no time, Go to T. DeChivette. If your Clock will give no tick, Go to T. DeChivette.

"Tick and time" are needed here By Farmers, Doctors, Lawyers, all, If this be true, then take good care On T. D. Chivette to call.

SOMETHING NEW!

THE undersigned having purchased the exclusive right to sell the "New Virginia Food Cutter" in the Counties of Orangeburg and Barnwell, announce that they will keep them on hand at the store of Mr. J. C. Pike, Orangeburg, S. C. In this Cutter, that which has been so much sought after, is found—cheapness of construction, minimum of power, and rapidity of execution, having been fully attained. We present this Cutter to the public without fear of successful competition, believing that it is what its friends claim, "the most complete Cutter ever presented to the public."

EDWARDS & THOMPSON,
Orangeburg, S. C., June 11th 1875.

June 13 3m

ALIVE

To the requirements of the people, and feeling deeply interested in the satisfaction of the public, I propose to make efforts never before entered into for the welfare of the community. To this end I have purchased my STOCK, and knowing that earnest and honest endeavor will meet with that success which should attend it, I would ask all who are seeking BARGAINS in Dry Goods, Clothing, Shoes and Hats,

Not to make purchases before examining my Stock, and can assure to SAVE MONEY
