The Executive Committee of the Democratic party meets in Orangeburg to-morrow. Dr. Barton has commenced building on his lot near the Methodist Church. Orangeburg is growing. The greatest blessing of the age, town talk baking powder, sold by Kortjohn. We regret to hear of the illness of Gen. Izlar, who has been confined to his home for several days. A full line of Butterick's spring patterns to arrive next week at Henry Kohn's. A rush of new advertisements has encroached somewhat upon our general reading space this week. Large lot hair and shoe brushes, the cheapest in the market, at Kortjohn's. The Young Americas expect to have a fine time and jubilee next week when the steamer comes. There was a slight frost on last Friday evening in Orangeburg, but not sufficient to injure the fruit. Dr. Talmage is to lecture in Charleston on the 1st of April. His subject will be "Big sinners." Smoking and chewing tobacco from the factories of Va. and N. C. at wholesale price at Kortjohn's. Branchville is talking about organizing a fire department. See card of Mrs. M. E. Steele in another column. She is prepared to do all kinds of sewing and dress making in the best style. She is located over P. G. Cannon's store. We are sorry to learn that Mr. R. F. Bryant and Mr. Jas. Van Tassel have both been quite sick, and have been prevented for several days from attending upon their regular business. Adults are subject to worms as well as children; therefore how important it is that the system should be cleansed of these vile pests. Shiner's Indian vermifuge will do it effectually. 400 yards jeans in 3 yard pieces, low down if called for at once at Kortjohn's.

Mr. Jehu Postel has been appointed Railroad Agent at our depot in place of Mr. T. O. Dawson. Mr. Postell has commenced the duties of his office. Rev. J. F. Kiser, pastor of the Lutheran Church, who has been traveling in the interest of his Church, returned on Monday evening in order to be present at the Easter services of his congregation. The Southern boom is the name of a new venture in journalism in Charleston, under Republican auspices. Whose particular boom it is, whether Grants or Sherman's, will, doubtless, soon be developed. There will be a meeting of the Orange Light Infantry on Wednesday the 31st inst., at 7 1/2 p. m. The members from the country as well as those in the town are requested to be present, as there is business of importance to transact. The Southern Life Insurance Company, that monstrosity against the peace and dignity of the State, proposes to pay 2 per cent to its creditors. Was there ever a bigger swindle outside of the Butler, Chadwick and Co. nostrisosity? A remarkable peach blossom from the orchard of Mrs. H. M. Andrews, was placed on our table last week. The petals were all completely connected, and the blossom measured over an inch in diameter, resembling a rose in size and form. There has been an unaccountable rise in the price of provisions, and articles of merchandize of every class. We are at a loss to find a satisfactory explanation for the upward tendency. Crops have been abundant and the country is prospering. We fear that speculation has much to do with it. Kerosene stoves! Cooking stoves!! If you want the nicest little commodity in this line, go to Willock's, and suit yourselves. He has a lot of kerosene stoves just to suit the times. Husbands submit yourselves to your own wives and go to Willock's and get one of these tricks. See his advertisement in another column. We commence in this issue the publication of a serial story entitled "He Made His Mark," written for the Times by a lady of our county. The plot is well conceived, and the perusal will not fail to interest the reader. We feel assured that our patrons will uphold our efforts to secure good reading matter, and encourage home literature. Mr. Denne, the engineer of the new steam engine for the Young Americas, has come on in advance of the engine which was expected here yesterday. It is supposed, however, by the delay, that it has missed the steamer, and will probably not be here until the same time next week. It is somewhat of a disappointment as expectation was on tip-toe. It is cheering to see the rapid progress of our bug.

We have been informed by Mr. Emanuel Rickenbacher, secretary of the Executive Committee, of the Orangeburg Baptist Association, that at a meeting of the Committee held on last Saturday, L. W. Smoak in the chair, Rev. W. F. Chaplin has been appointed a missionary to preach within the bounds of the Association from the middle of July to the middle of September. The boom in the fire department of Orangeburg is a considerable one. Last week we mentioned the purchase of the steamer and the increase in the membership of the Young Americas. This week a reflex influence seems to have been at work. At the meeting of the Elliott Hook and Ladder Company on Tuesday evening, over a dozen of the best young men of our town sent in applications for membership. We are glad to see that the fire department is improving. The welcome meeting of the Young Men's Christian Association Convention will be at the Presbyterian Church next Thursday evening at 8 o'clock. Barton, caught fire while all the inmates were absent except a colored girl about 10 years of age and a few little children. The house was totally destroyed and the little girl burnt to death in it. Dr. Barton's residence narrowly escaped from burning, no one but his wife and little children being at home. The woods then caught and the neighbors are now busily engaged fighting it in order to arrest further damage which seems threatening. The recent letter of Congressman Aiken, taking position against existing parties, and urging the farmers to form a party of reform, is fresh in the minds of the people. Again, a few days ago, he voted on the matter of political assessments on the opposite side from the rest of his Democratic colleagues. For this action he was criticized right sharply by the News and Courier. In answer to this Mr. Aiken explained his position in a letter so satisfactorily that his honesty is recognized by this great journal in a manner which reflects credit upon its editor. Mr. Aiken says that he is in Congress to represent his constituents and look to their interests but he does not feel that he is called upon to surrender his private judgment on all questions that come up for his action.
