We certainly can be excused if we pass a little beyond the custom in such cases made and provided, and say that it is "hot" instead of warm weather. The thermometer has reached 96 degrees in the shade. The "Palmette Yeoman" has the following for last Sunday:

"Yesterday was decidedly a hot day, as the following figures will show: A gentleman residing on upper Sumter street tells us his thermometer was 99° in the shade in an open hall, and that it went to 149° in the sun. A gentleman residing on Assembly street says his thermometer stood at 103° in the hall for six hours. Another gentleman, residing on east Washington street, informs us that in his hall-way, which is forty feet long and eight feet wide, his thermometer indicated 99° at 3 P. M. This shows that the heat was general and intense. To-day has been very nearly, if not quite, as warm as yesterday. A good rain is much needed."

THE WORKING PEOPLE.

For Judge of Probate. Editor Orangeburg Times

Please aumonnee Mr. Charles B. Glover as a candidate for the above office. It is useless to say anything in his favor, as his ability is already displayed by the manner in which he has discharged the duties of that position during his term of service. We further urge our claim in his behalf on the ground, that the incumbent of that office ought to have considerable experience is the practice of law, as the office is not min:sterial, but is beyond a doubt, judicial. Any persons, desiring to satisfy themselves on this point, can do so by referring to the Corstitution of our State, "Article 4, Judi-cial Department, Sec. 20." Also Revised Statutes, pages 572 to 578, "Title 4, Pro-bate Court." and to the "Rules of Court."
