A B WALKER,
CHAMPION GROCER, ORANGEBURG, S. C.
I LIKE TO TRADE

At A B WALKER'S because I can get what I want in the Grocery Line
there, and the quality and quantity of his goods are always right.
The above is what one of my customers told a Merchant who was drumming him,
and I think it fairly described my effort to deserve the success which I have won.
My trade has increased so largely in the past three years (I am now selling
more Goods in my Line than any other House in Town) that I have found it
necessary for myself, as well as advantageous to my customers, to make
arrangements to procure weekly, in quantities, from the Largest, most Reliable and
cheapest
Pork Packing Houses, Flour Mills, Can Goods Factories, Tobacco and
Cigar Factories

As well as all other cheap First Class Houses in my line, Goods to cater to the trade.
And in this way procure the Best and Cheapest commodities on the market for my patrons.
I save for my patrons a large commission they have to pay other men in my line
for pleasure trips North and West, under the pretense of going to buy Goods Cheap
when, in fact, I adopt the better plan. I buy my goods cheaper and save the pleasure
commissions for my customers, by bringing all the Largest Houses in my line into com-
petition by means of Circulars and Letters, and by this means, get each House down to
the Lowest Figure, draw a Sight Draft less my Discount for Cash, and give this to my
Patrons, reserving only for myself a profit on goods.
I patronize only the largest and most reliable houses, and in this way get the goods
I buy warranted pure and wholesome, satisfactory in quality, and as represented in
quantity, so my customers have not got to share with me the loss on goods bought at
second hands and from irresponsible houses. My sales-men are instructed to refund the
purchase price of goods in any case where consumers have cause for dissatisfaction.
Competing houses, sometimes, for an object, cut under my prices, but in the long
run I have found that where buyers bought at less than my figures they found a differ-
ence in quantity or quality which explained the apparent difference in price.
I am, to the Trade, very respectfully,
A B WALKER

ESTABLISHED 1858!
KEROSENE STOVES! **KEROSENE STOVES!!**

The Undersigned would call the attention of the Ladies of Orangeburg and Vicinity
to his **KEROSENE STOVES.**
Every housekeeper feels the want of something that will Cook the daily food, which
will do away with the excessive heat for the Summer Months, of a Cook Stove. You
wish to **Economize!** It costs you less by one half as much to Cook your food with
a Kerosene Stove as it does by a wood fire, and again, where Ladies are compelled to do
so much of the cooking themselves to get anything fit to eat, also to avoid the great
trouble we have with servants, Kerosene Stoves are just the thing, especially for small
Families. They will Cook, Boil, Fry, and do anything that a Cook Stove will do. Any
Lady can cook on them all day without soiling her Cuffs. One trial will convince the
most skeptical.

TO THE PUBLIC IN GENERAL.
Always on hand, Cook Stoves from the Best Manufacturers only, Wood and Willow
Ware, Lamps and Crockery, and by far the largest and best stock of Tin Ware and
House Furnishing Goods in Orangeburg County. All of which will be sold low for
cash. Call and see for yourselves.

AMERICAN BARB FENCE WIRE
Painted or Galvanized.

Merits of the American Wire Fence:
It weighs one pound to the rod. It contains six times as many barbs to a foot as
any other. It will not slip through the staple. The barbs being triangular shaped like
the teeth of a saw, and close together, there is no danger of cruelty to animals, as they
cannot pierce the hide, they only prick, which is all that is ever necessary. It is the
cheapest fence made, most durable, is not effected by fire, wind or flood. Takes fewer
fence posts, stock cannot rub it down. It protects itself, acts on the defensive, and takes
but little room. You can cultivate close to it. Weeds are easily kept out of it, requires
but little labor to put it up. You can draw at one load enough to fence a farm. You
can fence a good size farm in a day; it is the greatest practical invention of the age, and
is certain to be the farm, and railroad fence of the country.
