

# UNPARALLELED SUCCESS

OF THE  
**White Sewing Machine**

Oct 1 1880

Superlative in its Attributes.  
The **White Sewing Machine** is acknowledged as the **KING** of all Sewing Machines.  
In the third year of its existence its sales amounted to 2,000,000 Machines. No other machine ever had such a **RECORD OF POPULARITY**.  
It is simple in construction. Its Tension is Automatic, once regulated requires no change for ordinary work. It is the **Lightest Running Machine** made, and is nearly noiseless.  
Its Shuttle is Self-threading, made of solid Steel, and carries a Larger Bobbin than almost any other Family Machine.  
It has more room under the Arm than any other Machine, making it very desirable for Dressmakers and others, who often wish to carry the fabric under the arm without crumpling it.  
It has, in fact, every Improvement known in Modern Sewing Machines.  
Besides all the regular and extra Attachments which are given free with each Machine, I also give the New "White" Attachment, consisting of:  
1st. A Blunder for Scallops.  
2d. A Welt Cord for small Cord.  
3d. A Fold-Maker. 4th. A Dress Trimmer. 5th. A Shirring Dresser. 6th. A Bias Cutter and Folder.

## A. B. WALKER. CHAMPION GROCER, ORANGEBURG, S. C. I WANT TO TRADE

At A. B. WALKER'S because I can get what I want in the Grocery Line there, and the quality and quantity of his goods are always right.  
The above is what one of my customers told a Merchant who was drumming him, and I think it fairly describes my effort to deserve the success which I have won.  
My trade has increased so largely in the past three years, I am now selling more goods in my line than any other house in town, and I have found it necessary for myself, as well as advantageous to my customers, to make arrangements to procure weekly, in quantities, from the Largest, most Reliable and Cheapest  
Pork Packing Houses, Flour Mills, Can Goods Factories, Tobacco and Cigar Factories.  
As well as all other cheap First Class Goods in my line, Goods to enter to the trade. And in this way procure the Largest and best commodities on the market for my patrons.  
I save for my patrons a large commission they have to pay other men in my line for private trips North and West, under the pretense of going to buy Goods Cheap when, in fact, I prefer to enter plain. I buy my goods cheaper and save the pleasure commissions for my customers, by bringing in the Largest Houses in my line into competition by means of 100 Dealers and Factors, and by this means get each House down to the Lowest Figure, draw a profit from my 100 Dealers for Cash, and give this to my Patrons, receiving only for myself a profit on goods.  
I procure only the finest and most reliable Houses, and in this way get the good I have warranted pure and wholesome, satisfactory in quality, and as represented in quantity, so my customers have no ground for complaint. My sale men are instructed to return the purchase price of goods to my customers where consumers have cause for dissatisfaction.  
I compare prices, not only for an object, but under my prices, but in the long run I have found that where buyers bought less than my prices, they found a difference in quantity or quality which exactly made up the apparent difference in price.  
I am, to the Trade, very respectfully,

A. B. WALKER  
Champion Grocer, Orangeburg, S. C.

### The "Domestic" Improvement's

**Combination Fly Wheel.**—For Winding the Bobbin without working the Machine.  
**Slide Side.**—Table of supporting size, Needles and Thread stamped on Slide Side, always convenient for reference.  
**Shuttle.**—Combines simplicity of construction and management. Is self-threading, has but few parts, all attached together, with no possibility of derangement.  
**Bobbin.**—Increased in Length and Capacity. The bearings much improved.  
**Needle and Clamp.**—A New Arrangement which gives a thoroughly practical Self-Setting Needle. Needle introduced easily and with certainty, while a winged thumb-nail does away with the use of set-screw.  
In addition to these important features, the Needle-Bar has been made to rise higher. The **High and Low** Litters have been combined; the Take-up fit with an Adjusting screw, so that it can be set to a nicety. The Thread-guide to the Needle-bar has been made broader, and the Foot-plate and Hinges bettered in several ways.  
With these new features, the "Domestic" must commend itself to practical buyers and increase a popularity which it has ever so largely enjoyed. We invite critical examination.

## AMERICAN BARB FENCE WIRE

Painted or Galvanized.

Merits of the American Wire Fence:

It weighs one pound to the rod. It contains six times as many barbs to a foot as any other. It will not slip through the staple. The barbs being triangular shaped like the teeth of a saw, and close together, there is no danger of cruelty to animals, as they cannot pierce the hide, they only prick, which is all that is ever necessary. It is the cheapest fence made, most durable, is not affected by fire, wind or flood. Takes fewer posts, stock cannot rub it down. It protects itself, acts on the defensive, and takes but little room. You can cultivate close to it. Weeds are easily kept out of it requires but little labor to put it up. You can draw at one load enough to fence a farm. You can fence a good size farm in a day; it is the greatest practical invention of the age, and is certain to be the farm, and railroad fence of the country.

## ESTABLISHED 1858!

**KEROSENE STOVES!** **KEROSENE STOVES!!**

The Undersigned would call the attention of the Ladies of Orangeburg and Vicinity to his **KEROSENE STOVES.**

Every housekeeper feels the want of something that will Cook the daily food, which will do away with the excessive heat for the Summer Months, of a Cook Stove. You wish to **Economize!** It costs you less, by one half as much to Cook your food with a Kerosene Stove as it does by a wood fire, and again, where Ladies are compelled to do so much of the cooking themselves, to get anything fit to eat, also to avoid the great trouble we have with servants, Kerosene Stoves are just the thing, especially for small Families. They will Cook, Boil, Fry, and do anything that a Cook Stove will do. Any Lady can cook on them all day without soiling her Cuffs. One trial will convince the most skeptical.

**TO THE PUBLIC IN GENERAL.**

Always on hand, Cook Stoves from the Best Manufacturers only, Wood and Willow Ware, Lamps and Crockery, and by far the largest and best stock of **Tin Ware** and House Furnishing Goods in Orangeburg County. All of which will be sold low for cash. Call and see for yourselves.
