The White is King. TUNE—My Grandfather's Clock. As COMPOSED AND SUNG BY WILLIAM GREGG OF NEW ORLEANS, LA. My grandfather Howe, thirty five years ago Lay dreaming at midnight in bed, Next morning he told to a wondering world, Of all that passed through his head. And this was the song that he sung to his chums, As they chucklingly formed in a ring: The Wheeler & Wilson and Singer went in And agreed to a very wicked thing. Chorus—Thirty years of monopoly, Ring, Ring, Ring! Millions put in our treasury, Sing, Sing, Sing! But they stopped short, never to go again, When the "White" became king. The next thing they did was our Congress to bribe The extension of patents renew. Thus millions of money were wrung from the poor By those tyrants, the privileged few, But there came a glad day when our wrongs were made right, Our nation as one man arose, And said to Congress, our servants ye are, So down the monopoly goes. Chorus—Thirty years, etc. As the day of our freedom has come to us now, We're allowed all the patents to use, So old Mr. Singer just take a back seat, For all your bad points we refuse, And now let us shout of a perfect machine, Self-threading and quiet and light; So friends all unite in the chorus we sing, As we tell of the beautiful "White." Chorus—Thirty years, etc. Sold by **HENRY KHON,** Orangeburg, S. C. oct 1 1880 1y

**ALSO The Light Running Remington Sewing Machine**

The **BEST** and the **CHEAPEST** Sewing Machine manufactured. Repairing of all kinds in my line done at the shortest possible notice. jan 1880. 16; **P. G. CANNON.**

**The "Domestic" Improvements**

**Combination Fly-Wheel.**—For Winding the Bobbin without working the Machine. **Shuttle Guide.**—Table of corresponding sizes, Needles and Thread Stamped on Shuttle Guide; always convenient for reference. **Shuttle.**—Combines simplicity of construction and management. Is self-threading, has but few parts, all attached together, with no possibility of loosening. **Bobbin.**—Increased in length and capacity. The bearings much improved. **Needle and Clamp.**—A New Arrangement which gives a thoroughly practical self-setting Needle. Needle introduced easily and with certainty, while a winged thumb-nut does away with the use of Screw Driver. In addition to these important features, the Needle-Bar has been made to rise higher. The Foot-iron has been provided so as to render the threading of it easy and certain. The High and Low lifters have been combined; the Take-up fitted with an Adjusting Screw, so that it can be set to a nicety. The Thread-guide to the Needle-bar has been made broader, and the Bed-plate and Hinges bettered in several ways. With these new features, the "Domestic" must commend itself to practical buyers and increase a popularity which it has ever so largely enjoyed. We invite critical examination. **THEODORE KOHN,** Agent for Orangeburg County.
