

Adelina Patti's Bravery. When quite a little girl Madame Adelina Patti once saved a companion's life. She was living in New York at the time, and when out on a country excursion with some young friends, one of the party, slipping on the edge of a river, fell into a deep pool. The future queen of song at once sprang in after her, succeeded in reaching the drowning girl and clung with her to a floating log. Buoyed up in this way, the two girls floated down stream, and were saved.

Reservoirs on the Nile. Reservoirs upon the Nile, for the storage and control of the waters of that river, upon which the prosperity of Egypt largely depends, are to be secured by the construction of great dams at Assuan and Assuit. The Khedive has made a contract with engineers, who agree to have the entire work done within five years, at a cost of about \$24,000,000. The principal dam will be 6,000 feet long, and the reservoir which it creates will hold more than 1,400,000,000 cubic yards of water. This system of storage is expected to provide against seasons of low Nile floods, to mitigate the violence of exceptional floods, and to extend greatly the area of cultivable land.

A Strange Case. From all accounts Czar Nicholas II. is really very fond of his wife, much to the Dowager Czarina's disgust, as she finds she is not the power behind the throne that she expected to be. The easy ceremony of the Russian court gives great displeasure to sticklers for time-worn forms. Their imperial majesties actually exchange endearing phrases in public, a thing previously unheard of in Russia.

Will Be Disappointed. According to a special dispatch from Shanghai, Admiral Von Diederichs, is semi-officially asserted, left Naamsaki, Japan, for Manila, on receipt of instructions from Berlin, to prevent Dewey from bombarding the city, and also because Captain-General Augusti offered the German consul the Caroline Islands as a coaling station, in such operations as should be undertaken against Manila.

Petitions have been filed at San Francisco, Cal., opposing the probate of the will of Julius L. Franklin, involving about \$500,000.

That Everlasting Irritating Itch. That describes Tetter, Eczema and other skin diseases. 50 cents will cure them—stop the itchy at once. 50 cents pays for a box of Tetterine at drug stores, or postpaid for 50 cents in stamps from J. T. Shub-rine, Savannah, Ga.

Two Havana cigar factories are running.

B. B. B. Cures Mercurial Rheumatism. Scrofula, Syphilitic Rheumatism in its worst form. Try it. 4.00 per large bottle, or \$2.00 at drug stores, or sent on receipt of price, express paid, by Blood Balm Co., Atlanta, Ga. Books of wonderful cures sent free.

If riches didn't have wings they would be unable to roost so high.

Robt. Flourney writes: "I can with confidence recommend Dr. Moffett's TERTINA (TEETHING POWDERS) as the best and surest medicine I ever used for Teething children and the Bowel disorders of our Southern country." TERTINA Aids Digestion, Regulates the Bowels and makes teething easy.

The smallest cows in the world are to be found in the Samoan islands.

To Cure a Cold in One Day. Take Laxative Bromo Quinine Tablets. All Druggists refund money if it fails to cure. 35c.

At New Orleans, La., the Alden Knitting Co. is running day and night with two sets of employees.

S. K. Coburn, Mgr. Clarie Scott, writes: "I find Hall's Catarrh Cure a valuable remedy." Druggists sell it, 75 cents.

After physicians had given me up, I was saved by Hove's Cure. RALPH ERICZ, Williamsburg, Pa., Nov. 22, 1893.

Fits permanently cured. No fits or nervousness after first day's use of Dr. King's Great Nerve Restorer. Serial bottles and treatise free. Dr. K. H. Kline, Ltd., 431 Arch St., Phila., Pa.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c. a bottle.

Hip Disease. Had Five Running Sores—Could Not Walk Without Crutches. "I suffered from hip disease and had five running sores on one of my hips. I could not walk without crutches. I was confined to my bed for weeks at a time. I began taking Hood's Sarsaparilla and it has accomplished a perfect cure. I am now well and have no trouble from impure blood." Annie Robert, 43 Fourth Street, Fall River, Mass. Remember Hood's Sarsaparilla is America's Greatest Medicine. \$1; six for \$5.

Hood's Sarsaparilla. Hood's Pills cure biliousness, indigestion.

Biliousness. "I have used your valuable CASCARETS and find them perfect. Couldn't go for indigestion and biliousness and now completely cured. Recommend them to every one. Once tried, you will never be without them in the family." EDW. A. MARK, Albany, N. Y.

S. C. CROP BULLETIN

For the Week Ending Monday, June 13, 1898.

COLUMBIA, S. C., June 14, 1898. There was an entire absence of rain during the week over the greater portion of the State. On the 12th and 13th thunder showers occurred over the central and western counties, but at a few places only was the rainfall copious enough to be of material relief from the prevailing severe and distressing drought.

Some additional measurements were received of the rainfall of June 4, on which date Walhalla had 1.09 inch, Barksdale 1.25, Longshore 1.26, and a number of other places had amounts either too small to measure or less than one-tenth of an inch. The normal rainfall for the current week is 1.04 inch, the State average is about .01.

The deficiency in rainfall since January 1st, amounts to somewhat over 50 per cent. of the normal for the State. In Charleston the actual deficiency for the above period is 15.56 inches. In the former locality the drought has about reached the stage of a water famine; cattle are dying for want of water, as springs, brooks and streams are dry, while the tides have salted the rivers for miles inland.

Streams all over the State are either dry or their water gathered in stagnant pools. Few ponds in the lower counties but what have dried up and fish are dying by thousands.

The drought is, however, not confined to the lower counties but includes the entire State, and is especially severe in Anderson, Abbeville and portions of contiguous or nearby counties where correspondents report either no rain or less than beneficial amounts for periods of from 20 to 50 days, while during this time the temperature has been abnormally high, with but little cloudiness. While most of the staple crops have as yet suffered no irreparable injury, a continuation of the dry weather for a week or two longer would inflict severe damage to all crops and especially on corn.

The sunshine was practically uninterrupted during the week at many places, with an average estimated percentage of 87 of the possible, for the State.

The winds were light easterly during the first of the week, changing to light and dry westerly and southerly during the latter portion.

A severe wind storm on the 12th in Spartanburg county damaged wheat, oats, fruit trees and buildings severely.

The continued drought has affected all crops adversely and injured some seriously, especially early, or March planted corn which is now in silk and tassels but putting on very small immature, scrubby ears. Many places continue to report bad stands of corn due partly to the ravages of worms and partly to poor germination owing to lack of moisture. The condition of corn in general, is variable; it is green and healthy in places while elsewhere it is yellow and sickly, but small everywhere.

There remains considerable land, intended for corn, yet to plant, estimated at 30 per cent. in Saluda county, and consisting generally of bottom land that early became too dry and hard to plow. Early corn is dying in places for want of moisture. Corn will badly during the daytime and is bringing. Corn is being slowly laid by.

Cotton has apparently not been injured by the dry weather, except that replanted cotton died for want of moisture, and that late planted and replanted cotton was slow to germinate and came up to irregular stands. Cotton made very slow growth, but otherwise is in a vigorous, healthy condition. It is infested with lice in Orangeburg, Sumter, Clarendon, Bamberg, Barnwell where in spots it is dying. Richard where lice are more numerous than ever before observed, and in portions of several other counties. Cotton fields are generally well cultivated, except that clay soils are too dry and hard to work, and that in upper Berkeley and portions of Williamsburg counties it was too wet during May, but is all right now.

Cotton is putting on squares rapidly in Chesterfield and Darlington, but slowly elsewhere. Cut worms still damaging the stand in places. "First blooms" have been noted in various sections during the week. Sea island cotton is not thriving.

Tobacco failed during the week except in portions of Florence where it grew vigorously. Tobacco needs rain urgently. Worms not unusually numerous and are easily kept from inflicting serious damage.

Wheat harvest is about completed, and threshing is well under way. Yields at threshing are very satisfactory although Oconee and Spartanburg report yields below last year.

Early oats are harvested and housed. In Horry the crop was rather light but elsewhere from fair to very good. Spring own oats are a failure in most places, and at best a poor crop.

It has been too dry to sow peas and have previously sown they have not come up to stands.

Few potato slips were set during the week and the draws are dying in the beds.

Irish potatoes are very poor, yielding less than a third of the usual returns, while the individual potatoes are small and generally inferior.

Melons about holding their condition, but are late and irregular, thereby reducing the commercial value of the crop. In the Charleston truck-raising districts, musk melons and cucumbers are yielding about one-fifth of a crop. Peaches are ripening and shipments will begin this week. There are numerous reports of inferior fruit, but in the principal peach district the fruit is of good quality.

Apples and other deciduous fruits are dropping freely and are not promising. Blackberries are drying up on the vines, although there is any quantity of them to pick.

Apple and pear trees are dying from blight. Cane doing well on moist land but on other lands is making no growth while in Hampton it is dying.

Chufas are doing well in Williamsburg. The weather has been excellent for cutting and curing hay, although the stand of grass is light.

Pastures and gardens are near; in a few places it has become necessary to feed all farm stock dry fodder. Over the western sections of the

State the conditions are now more tolerable—due to the showers of the 12th and 13th, but nowhere has sufficient rain fallen to relieve the drought.

UNITED STATES CONGRESS.

Proceedings of Senate and House From Day to Day.

THE SENATE.

JUNE 14TH.—At to-day's session of the Senate, the resolution of Mr. Lodge, providing for an inquiry into the disposition made of the Methodist Book Concern, of the money which was paid recently by Congress was adopted without division. Mr. Lodge said that he hoped the claims committee would bring in the draft of a general law which would put an end absolutely to the work of lobbyists and claim agents. Mr. Bate, of Tennessee, and Mr. Morgan gave their suggestion their cordial approval. Without division the resolution was then adopted. A Senate bill to provide a home for aged and infirm colored people was passed. A joint resolution appropriating \$175,151 to pay the Behring Sea award was adopted. The Senate at 5:19 p. m., went into executive session and soon afterwards adjourned.

JUNE 15TH.—After the passage of a large number of private pension bills the Senate resumed consideration of the International Bank bill. An amendment was accepted by the committee and adopted extending the privileges of the measure to all citizens of the United States.

JUNE 16TH.—After devoting an hour to the discussion of a bill restoring the annuities to the Sisseton and Wahpeton bands of Sioux Indians, the senate resumed consideration of the bill to incorporate the International American Bank. Daniel, of Virginia, offered an amendment to strike out the entire seventh section of the bill, which confers power on the bank to act as the financial agent of any nation, State, municipality, corporation or person, and to act as trustee of any such. A vote upon Daniel's amendment was taken, the amendment being rejected 28 to 17. The Senate then went into executive session and at 5:15 adjourned.

JUNE 17TH.—The foreign relations committee, through Senator Davis, the chairman, reported favorably to the Senate the Newland's resolution for the annexation of the Hawaiian Islands. The bill to incorporate the International American Bank was passed by a vote of 26 to 23. At 4 p. m. the Senate went into executive session and soon afterwards adjourned.

THE HOUSE.

JUNE 13TH.—The debate upon the Hawaiian annexation continued today in the House, ten speeches being made. The House passed a bill appropriating \$175,151.26 to pay the Behring Sea award. At 5:18 p. m. the House adjourned.

JUNE 15TH.—By a vote of 209 to 91, the House of Representatives adopted the Newland's resolution providing for the annexation of Hawaii. The general deficiency bill carrying an aggregate of \$224,032,325, was reported by the committee on appropriations. All but \$18,205,026 is for war expenses and \$8,070,872 of these ordinary deficiencies are for pensions. The bill is the largest deficiency bill ever presented to Congress, and the largest appropriation bill put through that body since the civil war, a special appropriation bill of upwards of \$700,000,000 enacted into law in 1863 eclipsing it.

JUNE 16TH.—The general deficiency bill was considered by the House, but was not disposed of. A heated debate was precipitated over the paragraph carrying \$163,599 for postoffice deficiency, but it was not passed, and the House at 5:12 o'clock p. m. adjourned.

JUNE 17TH.—The general deficiency bill and conference report upon the District of Columbia appropriation bill occupied the attention of the House. At 5 o'clock the House took a recess until 8, the evening session being devoted to the consideration of pension legislation.

Thibet and Its Inhabitants.

The immense territory of Thibet is almost completely surrounded by mountain ranges of appalling magnitude, which, especially along the southern, western and northern frontiers, constitute formidable barriers against ingress. From the Pamir Plateau, in the extreme west—"the world's backbone"—radiate the great natural ramparts which shut out India on the one hand and the Tartar countries of Bokhara and Turkestan on the other. No Asiatic or Western conqueror has ever dared to penetrate this mountain world; and even Genghis Khan, the scourge of Asia, whose ravages extended from Peking in the East to Moscow in the West, was obliged, when invading Northern India, to take the circuitous route, via Kashghar and Afghanistan, instead of crossing Thibet. Secure on their lofty plateau, and practically isolated from the rest of the world, the people of Thibet have remained undisturbed for ages, and have developed characteristics for which we might vainly search in any other race on the globe. The Chinese "conquest" has not produced the slightest change in their mode of life, or exercised any appreciable influence upon their peculiar culture.

Saw a Charming Snake. W. R. Mason of Bakersfield, Kern County, Cal., tells the following story of snake-charming to the Scientific American: "I was riding in California and had off-saddled to eat some lunch, when I saw a gopher snake stretched along the limb of a tree in which was a flock of excited small birds. About eighteen inches distant from the snake's head was a bird whose companions were making the noise. The bird was perfectly motionless, and, to all appearances, looked straight at the snake, which was gradually creeping toward it. When about eight inches away the snake struck and caught the bird by the breast. The captured bird and its companions struggled with the snake, but it lowered itself to the ground, carrying the bird in its mouth."

Have you ever seen anything like this?

EXPENSES OF THE WAR.

Appropriation Made by Congress Run into the Millions.

The appropriations made during this session of Congress to supply deficiencies aggregate \$115,356,156, making in all for deficiency, \$333,388,480. Of this amount \$321,183,453 is distinctively for war expenses and is independent of amounts carried in the naval and fortification acts and in the naval auxiliary act which appropriates \$3,000,000. Under the head of naval establishments the bill carries \$10,000,000 for an emergency naval fund; and a maximum of \$500,000 of the sum appropriated for the creation of an auxiliary naval force is issued to be expended for the repair and equipment of the vessels so purchased.

The following appropriations are included under the head of military establishment: Pay of volunteers under act appropriated April 22, 1898, and subsequent acts for six months, beginning July 1, \$25,027,250; also volunteer's pay under that act and subsequent acts, mustered into service under the President's call of May 25, to be available from June 1 to December 31, 1898, in all \$14,000,881; subsistence department for next six months, \$15,367,112; regular quartermaster's supplies for the present year and next six months, \$12,500,000; incidental expenses, \$5,250,000; horses for cavalry and artillery, \$4,000,000; barracks and quarters, \$2,450,000; transportation of the army and its supplies, \$53,000,000; clothing, camp and garrison equipage, \$26,000,000; manufacture of metallic ammunition for small arms, and ammunition for reloading cartridges, etc., \$4,240,000; ammunition for infantry, cavalry, field and siege artillery, \$1,110,000; infantry, cavalry and artillery equipments and horse equipments, and miscellaneous materials, \$2,742,625; construction of gun and mortar batteries, to be immediately and continuously available, \$2,500,000. Total for War Department and military establishment war expenses, \$178,317,876.

A Fatality Averted.

From the Democrat, Goshen, Ind.

When neuralgia is accompanied by a dull, heavy pain near the heart, frequently becoming intense, it generally terminates fatally. Mrs. Nancy Flynn, who lives near Goshen, Indiana, survived such an attack and her advice is worth heeding. "In the fall of '92," she said, "I began to have trouble with my heart. There was a sharp pain in my breast which became rapidly worse. The doctor was puzzled and put me under the influence of opiates. These sharp attacks followed one another at intervals and I became weak and had a haggard look. I was constantly in pain, seldom slept and had no appetite. "At the end of two years I was confined to my couch most of the time and the doctors agreed that my death was only a matter of a short time.

"One day I noticed in a newspaper an item about a woman having been cured of neuralgia of the heart by Dr. Williams' Pink Pills for Pale People and I concluded to try them. "When I had finished one box I noticed an improvement in my condition, and when I had taken twelve boxes I was completely cured. These pills have done for you what we could not do," said one of my physicians, "they have saved your life."

"That was two years ago and my heart has not troubled me since. I believe I owe my life to Dr. Williams' Pink Pills for Pale People, and I take pleasure in telling others about them. "Among the many forms of neuralgia are headache, nervousness, paralysis, apoplexy and locomotor ataxia. Some of these were considered incurable until Dr. Williams' Pink Pills for Pale People were formulated. To-day thousands testify to having been cured of such diseases by these pills. Doctors frequently prescribe them and all druggists sell them.

Plot to Assassinate the Czar. Advice from St. Petersburg tell of a plot to assassinate the Czar, at his consecration in the Church of Tzarskoe Seloe by undermining the spot where he was expected to stand. It is believed to be the work of secret police and is thought to have been prepared for a scare in view of the abolition of the lucrative posts in the secret department of the government.

Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

It wasn't for the weather some people would be conversationless.

Renovate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 10c. 25c. If C. C. C. fail, druggists refund money.

Alexandria possesses the largest artificial harbor in the world.

Beauty is Blood Deep. Clean blood means a clean skin. No beauty without it. Spain Like an Ostrich. Whatever sympathy European nations have to spare is certainly going out to America. As far as the press is concerned the change is complete. All the principal papers of Paris favor America. A few journals that do not are hedging. The Matin has some sensible remarks on the war. They are the more noteworthy, as the Matin is a serious paper. "There are two things in the Spanish-American war hard to understand. What advantage is it to the Spaniards to spread abroad news of victory every time they are beaten? They have done nothing else since the outbreak of hostilities. Then, again, why do they forbid the sending of telegrams from Madrid when they contain nothing of value to the enemy? "This is really the worn-out policy of the silly ostrich, which thinks because its head is buried in the sand no one can see its body sticking in the air. This action is absurd, seeing that the suppressed news comes from some other quarter at the same time."

SYRUP OF FIGS. NEVER IMITATED QUALITY. THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company— CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y.

Mules Never Get Seasick. "Do government mules get seasick?" This was the interesting and somewhat novel question propounded by Lieutenant-Colonel G. C. Smith, the head of the quartermaster's department, says the St. Louis Republic, upon the receipt of a telegraphic order from Washington to immediately ship 120 mules to San Francisco to go with the reinforcements to be sent to Rear Admiral Dewey. The trip across the Pacific Ocean will take the mules nearly half-way around the world, the ocean voyage alone being 7,500 miles in a straight line from San Francisco. Though the Quartermaster's Department has been handling mules for many years, there was but one man in the place who could throw any light on the matter. He had it from a horse and mule trader that mules never became seasick, but horses do.

MAKES CHILDREN AS FAT AS PIGS. GROVES TASTELESS CHILL TONIC. IS JUST AS GOOD FOR ADULTS. WARRANTED. PRICE 50 CENTS. GALATIA, ILLS., Nov. 16, 1892. Farris Medicine Co., St. Louis, Mo.
