

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somewhat the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

Cadet L. H. McCullough returned this week to Clemson College.

Mr. and Mrs. Will N. Harben, of Dalton, Ga., are visiting relatives at this place.

Last Sunday we attended a baptizing at Sim's Reach Bridge on Black river, the services being conducted by Rev. D. L. Crossland, assisted by our young brother, Rev. L. J. Bristow, of the Theological Seminary. Three candidates were baptized.

The hot supper at Cedar Grove Baptist church on the evening of the 7th inst., was largely attended. The proceeds was \$52.30, to be used to furnish the parsonage at Black Mingo.

Mr. J. G. McCullough is having an artesian well bored at his place by Mr. Timmons.

The weather is still dry and hot. Cotton picking is nearly through in many places—a short crop indeed. W. S. G.

Liberty Limnings.

The busy harvesters of our community are making fine progress with fall work. "In the noiseless tenor of their way" they have graded the golden leaves of America's first currency, tobacco, stored forage, and are now gathering the fleecy staple. From hedge and treetop the crow in solemn tones calls to the gleaners, "Slow! slow!" while thoughts of beating rains make hasty fingers nimble. But nature strikes a medium, dividing rest and labor equally by the grand providential order of the autumnal equinox.

Rev. T. J. Rooke filled his regular appointment Sunday at Liberty Baptist Church, giving to his flock sound gospel truths for meditation. On fourth Sunday night ult., we were favored with a splendid sermon from Rev. Mr. Harrison, of Cartersville. The new church at Liberty is so near completion that we hope to witness dedication ceremonies there in the near future.

Fresh from the presence of the best educators of the land at Rock Hill Summer School, Miss Maggie Lee began her labors at Liberty September 3. She is a thoroughly conscientious teacher, and inspires her pupils to reach higher and nobler aims in life. Her school promises to be one of the most successful in the county.

Mr. Thad Lee opens to his customers a new supply of groceries, dry goods and notions. When a

post office is established at his place of business we can hope to be one step nearer civilization.

Among the visitors of our neighborhood are Miss Sallie Byrd, of Live Oak, Fla., and Miss Addie Cannon, of Ellingham, S. C. For the sake of "Auld Lang Syne" we wish to see them again at

LIBERTY.

T. W. Wood & Sons' catalogue of seeds and grain for fall planting is of particularly valuable and timely interest to our farmers and gardeners. It gives very full and complete information, not only about farm crops, but also about vegetableables that can be grown to advantages and profit in the fall. It tells all about the best methods of seeding lucerne, or alfalfa clover, winter, or hairy vetch, and other valuable crops which are becoming so popular now.

This fall catalogue will be mailed free, upon application to T. A. Wood & Sons, seedmen, Richmond, Va.

CURRENT MISCELLANY.

The smallest restaurant in Baltimore, and probably in the country, is located on Grant street, near Baltimore, under the shadows of The News building. Its proprietor is Norman W. Tumblinson, aged 22 years, whose father has a larger place on Baltimore street. He caters only for the trade of the newsboys, and does a thriving business in 3 cent lunches and cheap ticklers of the palate. The restaurant is in a small frame room, attached to the building on the west side of Grant street, and is about 20 feet long and a yard wide. Formerly it was used as a bootblack stand.

Young Tumblinson secured permission about eight months ago to open a stand in the place. He had it thoroughly cleaned and painted inside and out, and then erected a small counter, leaving barely enough room to walk about. Next he secured three oil stoves, and then hung out neat placards announcing his opening. The newsboys took him into their hearts, and many odd pennies fell in his way. At first he sold milk shakes and candy, cakes and sandwiches, but he now furnishes a lunch for 3 cents for newsboys only, including soap, choice of beef, liver or pork, with mashed potatoes and pickled beets.

Coffee is 1 and 3 cents a cup, cheese sandwiches 1, 2 and 3 cents, ham sandwiches 1 cent, soup 3 and 5 cents a bowl, and other things in proportion. The newsboys swear by the restaurant keeper because he jokes with them and often feeds a poor and hungry waif for nothing.—Baltimore News.

The largest library in the world is that of Paris. It contains upward of 2,000,000 printed books and 160,000 manuscripts. The British museum contains about 1,500,000 volumes, and the Imperial library at St. Petersburg about the same number. These are the largest libraries in the world.

A Wonderful Cure of Diarrhoea.

A Prominent Virginia Editor Had Almost Given up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.—Read His Editorial.

I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life.—O R Moore.
