VICTIMS OF THE TORNADO

One Death Results From the Storm of Last Week.

Darlington, Special.—The tornado which passed three miles above the town of Darlington on Monday last has cost one life, that of Mrs. McCown, who died Monday night at 10 o'clock and was buried Wednesday at 11 o'clock from the Presbyterian church, of which she was a member. The interment was in the cemetery near the town.

At the time of the storm Miss Rosa McCown, the daughter of Mr. and Mrs. George McCown was coming down the stairway with her mother, who had been an invalid for some time with grippe. Miss Rosa was not hurt, but Mrs. McCown received injuries which resulted in her death that night.

Mr. McCown was found in the house near one of the chimneys. He is still in a serious condition, but it is hoped that he may recover. The little granddaughter, Mary Cook, was blown out of the house and was picked up at a distance from it. Her left leg is broken near the thigh and she had also sustained a fracture of the skull which required trepaning. She may live. Miss Rose McCown, the daughter, was not hurt, though she knew nothing after the storm struck the house until she found herself in the house of a neighbor where the members of the family had been carried. The mill house was also blown down, the miller being caught in the ruins, but fortunately not hurt. Two colored persons were in an out house on the premises just in the rear of the building. The timbers of the house were caught by chairs and tables, and they were thus enabled to crawl out without injury.

A number of tenant houses on J. B. Law's place were blown down, but no one was injured. There has been great destruction to the timber in the track of the storm, but so far as has been ascertained no other lives have been lost.

Robbed His Brother.

Laurens, Special.—A young white man giving his name as John Allen was arrested by the police late Wednesday afternoon at a livery stable where he was offering to sell or trade a fine mule, which he had just ridden in town bareback, for "any old thing" and a little cash. He was locked up as he could or would not give any connected account of how he came in possession of the mule, etc. Thursday morning a message was received from Spartanburg describing the mule and man, saying his name was John Lee and the mule had been stolen from his brother, a farmer residing near Pacolet. When confronted with these facts Allen alias Lee owned up and explained that he just rode the mule off because he didn't like his brother on account of trouble between them a year or so ago. Lee and the mule will be carried to Spartanburg this evening, and he will probably have a chance to explain to a jury of that county his purpose and intention of carrying the mule away.

Killed About a Bicycle.

Greenville, Special.—The record for manslaughter is not being diminished in any way, and Greenville county is still the theatre of operations. The negroes seem determined to maintain the record, if the whites are not so active and aggressive as formerly. John Dixon shot and killed James Bannore on the farm of T. A. Ashmore Thursday afternoon, and the cause of the quarrel was a bicycle owned by one of them. The killing took place near Lenderman, ten miles south of the city, and the two negroes were at work in a field not far from the Ashmore residence. Both men have been in the employ of Mr. Ashmore for several years, and they have always been friendly until this difficulty, which arose without any signs of previous trouble. The culmination of the quarrel was when Dixon drew his pistol and Bannore picked up a rock. Dixon fired his pistol and Bannore fell for his life, with Dixon pursuing him and firing as he went, until Bannore fell to the ground and the climax was over. Bannore was dead and Dixon was the slayer. Coroner Black held an inquest and the jury rendered a verdict in accordance with the facts given. Dixon was arrested at once and has been placed in jail.

Fell Into the Fire.

Union, Special.—At 12 o'clock Thursday Mrs. "Pallie" McLaughlin, while sitting in front of the fire nursing her two-weeks-old grandchild, fainted and fell into the fire. At the time there was no one in the house except her daughter-in-law, who was confined to her bed, but who managed to rescue her mother from the flames. Drs. Will and S. S. Linder were immediately sent for. As a result it was found that Mrs. McLaughlin was seriously burned. One eye is out, the other will probably be lost, the face is badly scarred. The doctors say if she recovers she will never have her eyesight. The baby was not seriously burned so far as can be ascertained.

WOMEN MUST SLEEP.

Avoid Nervous Prostration.

If you are dangerously sick what is the first duty of your physician? He quiets the nervous system, he deadens the pain, and you sleep well.

Friends ask, "what is the cause?" and the answer comes in pitying tones, nervous prostration. It came upon you so quietly in the beginning, that you were not alarmed, and when sleep deserted you night after night until your eyes fairly burned in the darkness, then you tossed in nervous agony praying for sleep.

Mrs. A. HARTLEY.

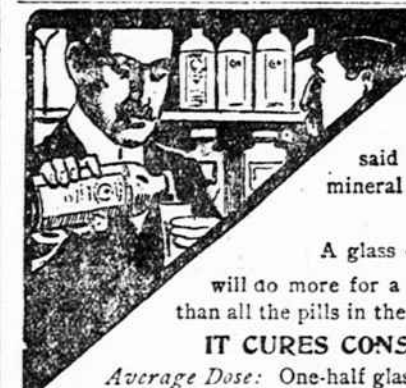

You ought to have known that when you ceased to be regular in your courses, and you grew irritable without cause, that there was serious trouble somewhere.

You ought to know that indigestion, exhaustion, womb displacements, fainting, dizziness, headache, and backache send the nerves wild with affliction, and you cannot sleep.

Mrs. Hartley, of 221 W. Congress St., Chicago, Ill., whose portrait we publish, suffered all these agonies, and was entirely cured by Lydia E. Pinkham's Vegetable Compound; her case should be a warning to others, and her cure carry conviction to the minds of every suffering woman of the unfeeling efficiency of Lydia E. Pinkham's Vegetable Compound.

Not Due to Arsenic.

In a recent letter to the London Lancet Prof. Tunncliffe and Dr. Rosenheim announce that there is strong evidence to show that the epidemic of beer poisoning in Manchester was not due solely to arsenic. They have been able to demonstrate the presence of "selenium" in brewing sugar and in beer, and state that this substance is quite as poisonous as arsenic. It is contained in every crude sulphuric acid and is likely to be present even in acids from which the arsenic has been removed.
