Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, **Swamp-Root**, Dr. Kilmer's **Swamp-Root**, and the address, Binghamton, N. Y., on every bottle.

FARMERS' PROTECTIVE UNION.

President Urges the Importance of Attending Meeting on November 2nd.

Editor County Record:—

With your permission I should like to call the attention of farmers and business men of all professions and callings to the importance of their meeting with us in Kingstree, on the 1st Monday in November.

We are confronted by many and grave problems to be solved other than trusts and combinations of the money powers. The labor question is one of much importance as I see it now. The lien law is another great hindrance to our material prosperity as an agricultural people, and many others that I could mention. So let us come together and confer with one another as to our best interest. Let all come.

Respectfully,
 J. DAVIS CARTER.

CHAMBERLAIN'S COUGH REMEDY.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. Death of Mrs W D Crooks.

We learn with regret of the death of Mrs W D Crooks, which sad occurrence took place last Sunday at her home about five miles west of Harpers. Mrs Crooks—nee Miss Lizzie Grayson—was born in the vicinity of Cedar Swamp and it was there that she spent her girl-hood days up to the time of her marriage. Mouday morning her remains were borne to the old Cedar Swamp church-yard, and there in the presence of a number of her grief-stricken relatives and friends, laid to rest among her kindred and friends who had gone before.

Mrs Crooks was possessed of a lovely christian character and her amiable qualities gained her a large number of sincere friends. Her immediate surviving family comprises her husband and five children, besides four brothers and three sisters. We extend our sympathy to the sorrowing ones.

COTTON NOW AND NEXT SPRING.

The Atlanta Constitution Predicts Higher Prices Later On.

Cotton experts, including middle men and purchasing agents, agree in saying that the reason why the incoming crop is selling at 9 cents and fractions above is because of the conditions in the money market.

While it is admitted that there is money enough in the banks and available to them to handle the crop at 10 cents and more per pound, and the mill people would gladly stock up for future needs around that figure, they cannot get the ready loan money from the banks for that purpose. Even now the southern mills are buying in only small quantities because of the possible contingencies of the market and the unwillingness of the banks to advance money for larger supply stocks. Many mills that use from twenty to fifty bales per day have out orders to purchase so many day by day, and urging sales of their goods to supply cash for current purchases.

The banks are keeping close watch on crop reports and on the cotton goods markets. The latter have been very tight recently and no great increase of demand for the piece goods is felt even yet, with the oncoming of winter. Prices do not rise because the consumption of the goods has fallen off, indicating that the people cannot or will not pay more for them.

Yet this condition cannot long remain. The cotton is needed and must be taken up by the manufacturers, who cannot afford to allow their plants to lie idle. Cotton is cheaper today, calculated on the basis of visible crop and probable demand, at 10 cents per pound than it was a year ago at 8.50 cents per pound.—Atlanta Constitution.

A BIG FIRE IN MANNING.

Heaviest Losers Jenkinson and the Manning Grocery Company.

MANNING, October 15.—Special: A very disastrous fire broke out this morning between 3 and 4 o'clock in the large department stores of W E Jenkinson. Several hundred people quickly assembled, and did what they could in saving goods and impeding the progress of the fire. One part of the building was saved as a result of its having fire-proof doors.

The adjoining store, occupied by the Manning Grocery Company, was a total loss.

The losses, as near as can be determined, are: W E Jenkinson, loss on stock between \$30,000 and \$40,000, with \$21,000 insurance. The goods in the millinery and furniture departments, valued at some \$5,000, were saved with considerable damage thereon.

The above losses do not include the building, which is valued at several thousand dollars, protected by a reasonable amount of insurance, and owned by the Rev S A Nettles, of the South Carolina Conference. The Manning Grocery Company loses about \$6,000, insurance \$3,500. The R B Loryea drug store will lose by damage to building, by falling wall, possibly \$200. B A Johnson, general merchandise, lost, in removing stock, possibly \$200 or more.

Manning is without protection against the fire fiend.—News and Courier

Try for Health

222 South Peoria St., CHICAGO, ILL., Oct. 7, 1902.

Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

Serges Dumber

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?
