

Lines From Lenud.

LENUD, March 21:—After a week's illness Mr S B Gordon is able to be out again.

Although the busy season has set in the school at this place is flourishing. The attendance is increasing daily under the efficient management of the teacher, Miss Clemons.

The young folk of this community attended a fruit supper and box party last Friday evening at the hospitable home of Mr J C Bailey.

Miss Blackie Gordon visited Rosemary Sunday.

Mr L A Rogerson of Harpers has been a frequent visitor of late at Lenud. In "the rosebud garden of girls" hereabout we suspect lies the charm that attracts him over this way.

Sunday, our first spring day, was so pleasant that quite a crowd gathered at the church for Sunday-school. Every one seemed to be infused with new life. STARLIGHT.

Letter to Prof. Ernest Wiggins.

Dear Sir: You are a teacher: here's one for your boys:

If the painting cost two or three times as much as the paint and one paint goes twice as far as another, how much are those two paints worth?

If Devoe is worth \$1.50 or \$1.75 a gallon, how much is the other one worth?

How much is a gallon of paint worth anyhow?

The answer is: Depends on the paint.

The reason is: paint isn't always paint.

There are true and false paint and short-measure.

How much is a short-measure gallon worth? How much is false paint worth? How much is Devoe worth?

There are millions a year in the answer to this last one.

Yours truly,
F. W. Devoe & Co.
New York.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Why Russia Loses at Sea.

It is apparent that Russia has not yet learned her way on water: she must first build her ships and sail them long enough to breed a generation of sailors before she can fight as well on sea as on land. The Russian is a man and a fighter, at his best, as stubborn as any: but he is not yet a seaman. Here the Japanese has him beaten. For centuries the Japanese, like the British, girt about by the waves, have literally farmed the sea, making it a garden and a pathway.—From "The War in the Far East," by Frank Putnam, in National Magazine for March.
