KINGSTREE, SOUTH CAROLINA, MARCH 9, 1905.

OF NEWS.

ENGINEER'S LEG CRUSHED AND ENGINEER SEVERELY BRUISED.

About 7 o'clock last Saturday evening an extra freight train, No. 347, ran into an open switch just below the Main street railroad crossing. The monster "copper head" engine and tender were derailed and overturned and nine cars out of the twenty-one comprising the train were completely wrecked. The debris of the wreck was piled fifteen or twenty feet high and the contents of the cars, consisting mainly of fertilizers and lumber, were scattered along both sides of the track. When the crash came Engineer Pearson says that he instinctively reversed his lever before being thrown out of the cab. Mr Pearson's lip was badly cut and his nose broken, but fortunately he suffered no serious injuries.

The worst off was the negro fireman, Pres Stevenson, whose leg was caught between the driving wheel of the locomotive and the tender and his foot and ankle crushed. Piteously calling for help the unfortunate fireman hung for three hours until the arrival of the wrecking train with appliances for moving the ponderous engine from his limb. There were several doctors present, however, and everything possible was done to relieve the pain of the man. When he was operated, he was found to have a fractured ankle. Dr W V Gaskins, of the local railroad hospital, thought it necessary to amputate the leg just above the ankle. The negro is now recovering very slowly.

The local passenger, No. 50, had preceded the freight only about a half hour, so that if the switch were interfered with it was done within this period of time. The switch lock was found by the side of the track several feet away still locked. All day long on Sunday a crowd of people thronged about the scene of the wreck curiously watching the railroad hands as they cleared away the wreckage. The first train to pass after the wreck was No 51, the local passenger, which went by toward Charleston at four o'clock, just five hours behind its scheduled time.

A charter has been issued by the Secretary of State to the Lake City Mercantile Co., of Lake City and Charleston. W A Ward is president and treasurer and Hyman Pearlstone vice-president and secretary. The authorized capital is \$2500.

W L Bass, Esq., has moved into his new offices in the new Bank of Lake City building, corner Acline avenue and McAlister street.

The following recommendations for magistrates in Williamsburg have been made to Governor Heyward, to wit: H C Godwin, Lake City; L L Rodgers, Johnsonville; Geo B Nesmith, Morrisville; R R Jeffers, Greeleyville; A R Moseley, Salters; W B McCants, Trio; R K Wallace, Kingstree, was appointed a few weeks ago. Application for the appointment of a magistrate at Harpers was made, but as the law provides for only seven in the county, this appointment could not be made.

Messrs B Wallace and Arthur L and Misses Pansy and Beatrice Jones attended the inauguration of President Roosevelt Saturday, leaving here Friday night and returning Sunday night.

MULE VS. NEGRO'S HEAD--THE LAKE CITY MERCANTILE CO.--BATCH OF NEW MAGISTRATES.

LAKE CITY, March 6: Hon W H Wells of Florence was in town Thursday of last week.

Judge H P Baldwin went down to Kingstree Saturday on business.

Mr P G Gourdin came up from Kingstree Tuesday night and with Mr J H V Gaskins checked up the dispensary here and at Scranton, after which they went down to Kingstree and investigated the affairs of the dispensary at that place. On account of serious illness in his family Mr Blackwell could not be with the other members of the board.

Editor Wolfe spent Saturday in town in the interest of his business.

Some of our lettuce growers tell us they will begin shipping in about ten days. On account of the excessive and continuous cold the plants are a little backward in maturing this season.

Sammie Godwin, the ten year-old son of Mr S T Godwin, met with a painful and serious accident one day last week. He was kicked by a pony which he and another boy, Clarence Hall, were "pranking" with. The pony's hoof landed on Sammie's mouth, cutting off the upper lip, breaking the upper jaw bone and knocking out three teeth. Drs Williams and DuRant sewed back the lip and dressed the wound, and the little fellow is now doing well.

A few weeks ago the writer stated that Seipo Singletary, who some days before had killed a mule, was himself killed by another mule, which kicked the top of his head off. The statement was made upon the personal information of two reliable men, who declared that the matter came to them direct and from a source that could not be doubted. If the writer had been in his usual health he hardly thinks he would have had the temerity to write that article even upon the declaration of a dozen reliable men; for while it is safer to stand under a pile of dynamite than near the business end of a mule, this thing of breaking a nigger's head is something else. It is one of these things that "call for more talk;" and we want to humbly apologize to Seipo for being so rattle-brained as to suppose that his skull could be cracked by anything short of an eleven-inch Japanese gun charged with shintos. Mr J U Godwin tells us that Seipo is nothing like dead, but is getting well. However, there is no mistake about his killing the mule first referred to.

Mr Floyd Rodgers, who has been in Charleston for several months, is now in this town.

A charter has been issued by the Secretary of State to the Lake City Mercantile Co., of Lake City and Charleston. W A Ward is president and treasurer and Hyman Pearlstone vice-president and secretary. The authorized capital is \$2500.

W L Bass, Esq., has moved into his new offices in the new Bank of Lake City building, corner Acline avenue and McAlister street.

Graded School Department.

(Conducted by the pupils of the ninth and tenth grades.)

Lagrippe is still prevalent around town. A great many pupils have been absent for the past few days.

We are glad to report that several, who were absent last week, are able to resume their work.

We hope, as spring advances, every child will be able to be "at his best" and begin—if they have not begun already—work in earnest.

The teachers had occasion to be vexed a little on Monday. Owing to the show Friday and Saturday nights, and the excitement of the week, a great many children came with their lessons unprepared.

We are beginning to make preparations for our commencement exercises. Dr George B Cromer, ex-president of Newberry college, now mayor of Newberry, has consented to deliver the address.

As the pleasant days of spring approach, we are reminded of the fact that we have a limited supply of water for two hundred children. We are very grateful to the town for our handsome building and nice playground, but we would now appreciate a large stream of artesian water.

Several weeks ago, a kind friend in town presented a United States flag to the school. Each morning at 9 o'clock it is raised by some member of the 9th or 10th grades. At any time between the hours of nine and two, it may be seen floating silently and loyally over the building. Our work begins at nine and is supposed to be completed at two, but we always expect and do have some "additional."

THE LADIES' CARD CLUB.

Delightfully Entertained by Mrs. LeRoy Lee Last Friday Evening.

At her beautiful home on North Academy street, Mrs LeRoy Lee charmingly entertained the Ladies' Card club Friday afternoon.

A violet color scheme was artistically carried out. On the tables were violet candles and hand-painted violet score cards, while the room was sweet with the perfume of the season's chosen flowers.

Those playing were, Misses Minnie Porter, Agnes Erickmann, Mamié and Barbara Jacobs, Luna Tribble and Ada Brockinton, Mesdames R J Kirk, Clara G Harper and LeRoy Lee.

Miss Mamié Jacobs, who scored highest, was presented with a handkerchief bag embroidered in violets.

Responsibility.

No stream from its source Flows seaward, how lonely soever its course, But what some land is gladden'd! No star ever rose And set without influence somewhere! Who knows What earth needs from earth's lowest creature?

No life Can be pure in its purpose and strong in its strife, And all life not be purer and stronger thereby; The spirits of just men made perfect on high— The army of martyrs who stand by the throne And gaze into the face that makes glorious their own— Know this, surely, at last! Honest love, honest sorrow, Honest work for the day, honest hope for the morrow. Are these worth nothing more than the land they make weary— The heart they have sadden'd— The life they leave dreary? Hush! the sevenfold heavens to the voice of the Spirit Echo, "He that overcome shall all things inherit!"
