seed meal is a cheaper and more effective fertilizer than cotton seed．According to
chemical analysis of each 886 pounds of cotton seed meal are equivalent to 2000 pounds of cotton seed，but owing to the superior mechanical condition of meal，it is safe to assume that 800 pounds of mea are the full equivalent to one ever excess above 800 pounds o meal theffarmer gets in exchang for a ton of seed is so much clea profit to him in comparison wit
