#### Harpers Happenings.

HARPERS, September 19:—Crops in this community are suffering from lack of rain. We have not made enough peas for seed in this section for several years and this means that the crop will likely be a failure again.

The Rosemary cotton ginnyery had quite a blaze Saturday night, September 19, caused by a match in the cotton. The ginnyery was in imminent danger of destruction but happily the fire was put out without danger. The ginnyery at Harpers is running daily and is getting a good patronage.

The Georgetown chaingang is doing some excellent work on the streets here under the able management of Mr O M Matthews. The town of Harpers expects in a few weeks to have roads and streets second to none in the State. Our town is fast coming to the front, not only the Georgetown part. The free-holders who live on Williamsburg side of Harper and the free-holders from Black river to Oak Ridge bay will petition the next general assembly to change the county line, taking one and one-half miles by seven miles into Georgetown county. The free-holders of Harpers want to have the whole town in one county, putting it with Rosemary into one school district.

We have a special district now laid off and bonded and expect to have a \$5,000 school building completed by January 1, 1909. The trustees have the money in hand, but so far this is all in Georgetown county. Our people have a right to want to be put into Georgetown county that we may join the band of progress as it passes. I ask the readers of THE RECORD to look at the Georgetown side of the town and compare it with "dear old Williamsburg's" side and note the contrast.

SUBSCRIBER.

#### Notice of Opening

**Books of Subscription.**  
Notice is hereby given that on Thursday, October 1, 1908, books of subscription to the Kingstree Tobacco Ware House Co. will be open at the office of Kingstree Hardware Co., Kingstree, S C., for the purpose of receiving subscriptions to the capital stock of the said company. Capital stock to be \$10,000, divided into 1,000 shares of the par value of 10 each.

HUGH McCUTCHEEN,  
W H CARR,  
E C EPPS,  
Corporators

10-21-11

Go to Farmers' Supply Co's for your china, crockery and cooking utensils.

#### NO TROUBLE FEARED.

##### Rumor of Negro Uprising Near Indiantown Postoffice Exaggerated.

Sheriff Graham went to Mr Bell's place near Indiantown postoffice last night on account of threatened trouble between whites and negroes growing out of a difficulty between Mr Bell and a negro hand. The negro, it is reported, used offensive and threatening language to Mr Bell and the latter shot at him with a shot gun, but the load did not take effect. When the sheriff arrived on the scene everything was quiet and it is supposed that the incident is closed.

Cotton is quoted today on the local market at 8 15-16, seed \$14 a ton.

#### Trespass Notice.

All parties are hereby warned not to trespass upon the lands of the undersigned and the estate of M S Feagin, deceased, in any manner whatsoever.

R C Marshall,  
P B Feagin,  
J A Feagin.

200 boxes crackers just arrived, fresh and good.  
W T Wilkins.

#### Tired of the Even Thousand.

John Hollister was one of the most popular men in Washington. He was always doing favors for other people and never asking any for himself. An acquaintance, knowing his proverbial good nature, had abused his confidence.

One day Hollister was standing in the Arlington hotel lobby when this man came up to Hollister and said very effusively:

"I'm a thousand times obliged to you for what you said to Secretary Foster. I got the place."

"And you are a thousand times obliged?" queried Hollister in his most innocent manner.

"Yes, indeed, a thousand times." "Say, can't you make it 1,200 just once? You've been a thousand times obliged on several occasions, if I am to believe you."

#### Panama Hats.

That panama hats are woven under water is denied by a man who has all his life been engaged in the panama hat trade and has himself made the hats. The hats are woven in the early morning hours, when the atmosphere is damp, as the heat of the sun makes the fiber brittle and unfit for manipulation. At night the hat is hung out in the open air, where it absorbs the dew and is in condition for work again the next morning. This accounts for the great length of time (from one to three months) required for the making of a panama hat.—New York American.

Get prices and call on W T Wilkins. Will not be undersold.

#### THE ONE GREAT GATHERING OF SOUTH CAROLINIANS

The State Fair This Year—October 26 to 30.

The fortieth annual State Fair will be held at Columbia this year October 26-30, and it gives promise to be the greatest State Fair ever held. No matter how bad the crops or how hard the times, everybody goes to the State Fair at Columbia. It has been the custom now for nearly half a century, and it will ever continue so with crowds increasing each year.

The State Fair is the one time of the year that work can be put down and everyone have a good time for a few days. Old acquaintances and relatives meet at the State Fair if they are not fortunate enough to meet elsewhere during the year. Friends meet friends and college men meet their college mates and renew friendships with good stories of the good times of the past.

This year the fair holds even more than that for South Carolinians. It will be made up of new exhibits that will teach the farmers new methods and improvements that mean money to every one of them.

The races will be the best ever seen in the South. This being the first year that the Fair Association has entered the Virginia-Carolina Circuit. The stake races will bring many of the country's very finest racers. The two football games will draw thousands of enthusiastic "rooters" from both the Carolinas.

Columbia is better fitted to take care of her guests than ever before, with more hotel accommodations. The railroads will all put on special rates, as usual. President John G. Mobley, of the Fair Association, has worked hard to get everything in ship-shape, and he predicts the largest crowd in the history of the fair.

Farmers' Supply Co have just received a solid car load of O K cook stoves. Don't fail to see them before buying.

300 sacks rice at right price.  
W T Wilkins.

#### DISASTER TO AIRSHIP

Keenly Felt in Washington, Where Test Was Made.

WASHINGTON, September 19:—The disaster to the air ship of Orville Wright in which the inventor was badly wounded and his companion killed is felt keenly in Washington, where the experiments were being made. The official test was to have been made this week and Mr Wright and the officials of the War department, as well as the crowds who have daily attended the trial flights, were confident that the aeroplane would easily pass all of the tests. It lies now in the shed where it had been kept, a mass of broken wires, splintered wood and torn muslin. Lieutenant Selfridge, who accompanied Mr Wright, is dead and Mr Wright with a broken leg, several broken ribs and many bruises, is lying in the army hospital at Fort Myer in the suburbs of the city, still unaware that his companion in the flight was killed. Of course every one has a reason why the propeller should have fallen, but it takes little technical knowledge to see that when a flying machine gets anything wrong with its machinery while in air it has but one thing to do and that is to obey the law of gravity and reach the earth by the shortest line. When an automobile stalls on a hill it may be annoying but it is not dangerous. When a flying mechanism fails it is not only dangerous but probably fatal.

This fact postpones by many years the time when flying machines will be useful either for war or transportation and before that time it will doubtless demand a heavier vital toll than those who have already fallen victims to the experiments. Lieutenant Selfridge was a clever, promising young man of twenty six. He had for several years taken the keenest interest in all air ships and had made many ascensions. He was also the inventor of some of the parts of the Baldwin dirigible balloon and was fearless in experimenting with them. His death, happily, was painless, as he never regained consciousness after striking the ground.
