

Two Towns Will Hardly Unite—Rosemary to Celebrate the Fourth?

Harpers, June 28:—There was an enthusiastic meeting of the citizens of Harpers and Rosemary last Thursday night, June 24, to consider the uniting of the two towns under one charter, but no definite conclusion was reached, the intendant of the town of Harpers not being present. Another meeting has been called for next Saturday night and the people of Harpers have decided to make no move towards uniting the two towns before the end of the present year. Then, if it is deemed best, such action will be taken as is necessary to extend the charter over Rosemary. Our people seem very much opposed at present to making any changes in the town's charter, but we hope to see our sister town become chartered if they see fit to do so. We had somewhat extended speeches on the night of the 24th inst by Messrs W H Andrews, H C Tallavast and J W Doar of Rosemary on the subject of extending the charter of Harpers over Rosemary.

Your scribe made a flying trip to Florence one day last week. While there he was shown over town by Mr J W Worford, the popular route agent of the Southern Express company. Mr Worford showed us over the grand new station building. This station would do credit to a city twice the size of Florence.

Farmers of the upper part of Williamsburg county have fine crops and everybody seems to be hopeful for the future.

Next Saturday is the 3rd of July. What have become of the races and the picnic which were announced for Rosemary on that date? It was said that they would run excursions from all points of the State on that date and they expected to have fifteen thousand people present, with several brass bands to furnish music. The Rosemary boosters were to give a grand ball on the night of July 5. People are looking forward to this as a "red letter" day for Rosemary. They were to have races on their race tracks and several games of baseball on that day. We know that Rosemary never starts things and fails in their accomplishment. We know all of this will be carried out. This will be a day of great pleasure for our people. SUBSCRIBER.

Notes from Woody

Moody, June 28.—Messrs W O and H A Canlin went to Georgetown Saturday.

Mrs W R Canlin is suffering from erysipelas in the palm of her hand caused from a blood blister.

There is a good deal of sickness in our community, mostly chills and fever.

Miss Lula Barfield of Charleston is spending some time here with relatives.

Miss Carrie Terry of Cleveland, Ga, arrived here last Thursday and will spend the summer with relatives.

The Moody baseball team say that they will play any team in the county a match game of ball.

Mr J C Schneider, who has been working for the Holly Lake Cypress Lumber Co, returned home Friday. He says that on account of the quantity of water in that section the lumber company has shut down for fifteen days or until the water subsides. HAN COOK.

Life 100,000 Years Ago.

Scientists have found in a cave in Switzerland bones of men who lived 100,000 years ago, when life was in constant danger from wild beasts. To-day the dangers shown by A W Brown of Alexander, Me, is largely from deadly disease. "If it had not been for Dr King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Throat, Colds, obstinate Coughs and prevent Pneumonia, it's the best medicine on earth. 50c and \$1.00. Guaranteed by D C Scott. Trial bottle free.

Capt. Constine Takes Party Safely Through on the Wanderer.

The "Wanderer," a "joe bat" thirty-four feet long and eight feet wide, propelled by a ten horse power naphtha engine, arrived in this port Sunday night at 9 o'clock from Kingstree, via Black river. The "Wanderer" left Kingstree last Saturday afternoon at 5:30 o'clock, with her owner, Mr Conrad Constine, accompanied by the following gentlemen, Messrs John Britton, David Scott, Royal Flowers, Rachel Flowers, Walter Dennis, H O Smith and T W Smith. Several of these young men informed our reporter this morning at Market dock, where the "Wanderer" is moored, that the trip down Black river was very enjoyable, though the stream is tortuous and crooked. This is what the people of Kingstree are trying to have remedied by the Government. Could these curves be straightened out, easy access up and down Black river would be obtained and Kingstree and Georgetown would be in closer touch, both places being wonderfully benefited in a commercial sense.

The party of excursionists will take their departure Monday evening or Tuesday morning for their return trip, which the people of this city hope will be as enjoyable and as interesting as was their trip in coming down.—Georgetown Item.

More Dairy Farms Needed.

In Farmers bulletin No 349, B H Rawl, Chief of the Dairy Division of the United States Department of Agriculture, shows that each of fifty Southern cities, not to mention all the others, buy on an average \$450,157 worth of dairy products from Northern producers annually. It would require 200,000 cows, better than our average, to produce the dairy products purchased by these fifty cities alone. If the cost of feeding these cows a year was \$45 each, it would leave a balance of \$270,151 as the profit on furnishing the dairy products used and bought by these fifty cities from Northern farmers. To bring the facts a little closer home, and follow still further Mr Rawl's ideas, it would require 10,000 dairy farms, of twenty such cows each, to supply these fifty cities, or 200 such farms for each city, which after paying the cost of feeding the cows, would leave a profit of about \$1,400 per farm. Here is an opportunity for a large number of our readers to get "\$500 More a Year." There are hundreds of other cities in the South buying equally large quantities of dairy products in proportion to their population, and these offer a splendid market for any Southern farmer who will produce a good product and put it on the market in proper condition.

At present we are shipping our cotton seed meal to the Northern States and Europe, and in every ton robbing our soils of \$30 worth of plant food; while in return, we are buying butter which does not bring back to us a hundredth part of the fertilizer material contained in the feeds which produced it.—Progressive Farmer.

Build Up Your Town.

The following item from the Charleston News and Courier is good enough to be memorized and we commend it to readers of The Times and Democrat: "Invest your money at home. Build up the town where you live. The divorce between home interests and ownership is almost always a handicap. That is a little check of philosophy from the Waterbury American which felicitates itself upon the great prosperity of its own home town because 'Waterbury money has been invested here at home.' Don't forget the philosophy of the American: 'The divorce between home interest and ownership is almost always a handicap.' Salute all the friends who come to live among us, but stick to the town yourself.—Orangeburg Times and Democrat.

The Loyal Temperance Legion will hold a silver medal contest at Scranton school house on the night of July 8, 1909. Let everybody attend, for Miss Elizabeth Moore, State President Woman's Christian Temperance Union of North Carolina, will be present and speak to us on "Christian Citizenship." Miss Moore's credentials are here given:

OUR STATE ORGANIZER.

Miss Elizabeth Moore of Taylorsville, N C, having served acceptably during the past year as State Organizer and Superintendent of the Loyal Temperance Legion department for the Woman's Christian Temperance Union, was again unanimously endorsed by the executive board, and without a dissenting voice elected by the convention held in Elizabeth City October 2-6, 1907, to the responsible duties of those offices.

Miss Moore was a missionary to Japan for several years and is well known as a Christian worker in many parts of our State.

We are fortunate to have one of such sterling traits of mind and heart as Miss Moore, and bespeak for her the recognition and cordial co-operation of all Christian people everywhere.

Miss Moore is authorized to take collections and pledges for State work. She will not only organize new Unions, Loyal Temperance Legions and the young woman's work, but will visit existing Unions.

In behalf of our work for our Master, in the interest of humanity, we ask that Christian people open their hearts and homes to Miss Moore, our State Organizer, and thus co-operate with us in this work "For God and home and native land."

MISS ELIZABETH MARCH,
President.
MISS NOTRE M JOHNSON,
Cor Sec.

How to Control the Flies.

Flies on the farm can be made much scarcer by keeping the manure well cleaned up. Then the woven wire screens are now made very cheaply and easily adapted to all sizes of windows, and wire screen doors fitted with springs to close quickly will also aid in keeping out flies and mosquitoes. The few that get in can be rapidly disposed of with one of the fine wire brushes now sold in the hardware stores. With one of these, the housekeeper can go around the room and kill every fly on the wall or window very rapidly.

Especially should there be the closest attention to keeping out flies when there is sickness in the neighborhood, and people are careless about the wastes of the sick room. Attention was called last year to the fact that flies in the dining-room caused the outbreak of typhoid at the State Normal College at Greensboro, N C, and doubtless many other cases of diseases that puzzled people to find the cause were due to the flies. Hence it is not only important for comfort to keep the flies out, but especially important as a preventive of disease.

With a farm-house isolated from other buildings, it should be easy to prevent many of the flies that are usually found there, by keeping the stables and barnyard absolutely clean of manure, and getting it out where it will do good and not harm.

Remember that they have horse manure and filth to breed in, and you do not want these carried into your milk or other food.—Progressive Farmer.

See Mother Grow Young.

"It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs W L Gilpatrick of Danforth, Me. "Although past 70 she really seems to be growing young again. She suffered untold misery from dyspepsia for 20 years. At last she could neither eat, drink nor sleep. Doctors gave her up and all remedies failed till Electric Bitters worked such wonders for her health." They invigorate all vital organs, cure Liver and Kidney troubles, induce sleep, impart strength and appetite. Only 50c at D C Scott's.

Railroads Make That City Distributing Point for Coal Fields.

New York, June 25:—The Norfolk and Western and the Atlantic Coast Line railroads through the president and general counsel of each road, today completed arrangement to furnish the Winston-Salem south-bound railway with funds required to complete its line from Winston-Salem, N C, to Wadesboro, N C, a distance of about 90 miles. These two points are the termini of the Norfolk and Western and of the Atlantic Coast Line respectively, and when linked up will establish a short line from Charleston to the Pocahontas coal field, cinnati and thence by other points North. The new line owned jointly by the two building it. Although it is a very heavy county, it will be laid out in as a straight line as possible, and be constructed to take care of trunk line business. No new financing, it was said today, will have to be undertaken by either road in connection with the new construction.

Rheumatism.

M F Ballantyne, of Ballantyne & McDonough's Iron Foundry, Savannah, Ga, says that he has suffered for years from Rheumatism, and could get no relief from any source, but P P P, which cured him entirely. He extols the properties of P P P on every occasion.

P P P is the greatest known cure for Rheumatism; it eradicates the disease out of the system quickly and forever.

P P P Lippman's Great Remedy, cures Salt Rheum, with its itch and burning, Scald Head, Tetter, etc.

Five Years

of Heart Trouble Cured by Dr. Miles' Heart Remedy

"Before I began taking Dr. Miles' Heart Remedy I had been suffering from heart trouble for over five years. I had pains in my left side, and under my shoulder blade, could not sleep on the left side, and was so short of breath the least exertion would bring on the most distressing palpitation. I had scarcely taken a half bottle of the Heart Remedy before I could see a marked change in my condition. When I had taken six bottles I was cured."

MRS. C. C. GORKEY,
Northfield, Va.

If there is fluttering or palpitation it is an indication of a weakness of the nerves and muscles of the heart. It is not necessarily diseased—just weak from over-work. The heart may be weak just the same as the eyes, stomach or other organs. You can make a weak heart strong by taking Dr. Miles' Heart Remedy. Get a bottle from your druggist, take it according to directions, and if it does not benefit you will return your money.

McCALL PATTERNS

Makes Marvelous Cures in Blood Poison, Rheumatism and Scrofula.

P. P. P. purifies the blood, builds up the weak and debilitated, gives strength to weakened nerves, expels disease, giving the patient health and happiness, where sickness, gloomy feelings and lassitude first prevailed. In blood poison, mercurial poison, malaria, dyspepsia, and in all blood and skin diseases, like blotches, pimples, old chronic ulcers, tetter, scald head, we say without fear of contradiction that P. P. P. is the best blood purifier in the world. Ladies whose systems are poisoned and whose blood is in an impure condition due to menstrual irregularities, are peculiarly benefited by the wonderful tonic and blood cleansing properties of P. P. P., Prickly Ash, Poke Root and Potassium.
F. V. LIPPMAN, SAVANNAH, GA.

Flower Language Post Cards—a Series of 12 Free to You
Do you know the meaning of the flower language? Can you read the message of the flowers? If you are a lover of souvenir post cards this series will appeal to you.
You may have this set of beautiful flower cards; you may have them absolutely free and prepaid if you will send me only 10 cents for a four months' trial subscription to the Southern Agriculturist. These post cards are strictly high class. Each card represents a beautiful scenic view and has the meaning of the flower language worked out most beautifully in flower motifs and floral designs. To illustrate, in this series the poppies spell out the words "I dream of thee," the lilies "peace," the chrysanthemums "I love you," the violets "faithfulness," etc. You won't be disappointed because these cards are really different from the ordinary kind and are novel in design and attractive in appearance. These cards are taken from real paintings, and are reproduced on excellent coated paper that is waterproof and not easily soiled.
Write to me personally to-day and I'll lose no time in sending them to you—charges prepaid. Remember this also; every one that answers promptly gets a pleasant surprise. Don't forget to ask about it. My supply of cards is limited, so do not delay. **D. R. OSBORNE, Nashville, Tenn.**
