

## OUR POLICY.

The policy of the Bank of Williamsburg has always been, and will in the future more than ever, be to lend its financial aid and influence toward helping the deserving, progressive and needy people, rather than to aid and assist the wealthy man to carry on his speculations and greedy practice of gain. We shun large, risky loans to any one person, firm or corporation. This, we foresee, will do much more toward the upbuilding of our country and thereby repay those people who repose so much confidence in our institution and patronize it so largely. Conservatism must attend our every act and doing. We propose distributing our loans with view to safety first, then to uniform development of our section.

We regret to hear of the serious illness of our friend, Mr Marion Britton, at his home near Indiantown church. We hope that he may soon be climbing the hill of recovery.

On these dark, rainy nights, when a black cat would almost relieve the circumambient gloom, why skip the dark, obscure residential streets in town, prithree, oh, official lamp-lighter?

The Carolina Furniture Company took over the furniture business of Mr L J Stackley on March 2 and will continue the same line at the same stand. Look for their announcement next week.

The local passenger train No. 78, due here at 6 p m, did not arrive last night until about 9 o'clock on account of a small wreck at Santee river. A truck of a freight train was derailed, causing the delay.

If the man in the moon were a sure-enough coon, South Academy street, alongside the railroad, could scarcely be darker than it has been the past few nights, when the invisible, coquettish moon was all we had to depend on for light.

Mr Phillip Arrowsmith is reading law in the office of Messrs

Lee & Askins. This makes two embryonic disciples of Black stone in town, Mr John Ross having become a student in the law some months ago under the tutelage of E L Hirsch, Esq. Here's hoping that both these ambitious young men may develop into legal luminaries whose light shall shine far beyond the narrow confines of our town and county.

We regret that under our rules we cannot publish this week an article from Chapman signed "A Friend." There is no objection at all to printing the article save the simple fact that the writer did not sign his or her name, which, we have stated several thousand times, is inevitably required, "not necessarily for publication but merely as a guarantee of good faith." If the writer desires to see the communication referred to in print in this newspaper he or she will have to let us know who is responsible for the article.

We are informed that the package of "Records" addressed to Salters Depot failed to reach that office last week. We check up every package before the papers are put in the office, so that the Salters package must have got lost after leaving our hands. We know it is very annoying to our subscribers to pay for the paper and not get it, but all we can do is to print the paper and put it in the postoffice. It causes us much greater worry and disappointment, we know, than our subscribers feel, but we are powerless to regulate the United States mails, or to improve their efficiency.

### A Card.

Editor County Record:— Permit me through your columns to attempt to express to the people of Kingstree and other parts of the county my heartfelt thanks and grateful appreciation for their manifold kindnesses toward my poor boy and the sympathetic, charitable spirit shown toward both him and myself in this dark hour of tribulation. Words are not adequate to convey the full measure of my gratitude, but let these few protestations be an earnest of the sentiments of esteem and friendship that I will ever bear in my heart for the noble people who have shown us such disinterested kindness.

May God reward you all, as I cannot.

Yours most sincerely,  
J R M MOTLEY.

### A Timely Protection.

Everyone knows the after effects of La Grippe are often more dangerous than the disease. So often it leads to pneumonia, which a weak heart action makes fatal. La Grippe coughs that strain and weaken the system yield quickly to the strengthening qualities of Foley's Honey and Tar. D C Scott.

### Suttons Sittings.

Suttons, February 28:—The weather for the past few days has been very pleasant, with the exception of a few disagreeable showers.

On Friday evening, the 25th instant, Miss Ruth Hinnant, the charming daughter of Mr R P Hinnant, entertained a jolly crowd of young people at her always hospitable home. The evening was very pleasantly spent in playing games. One of the amusements was an old time "spelling bee." The prize for the most expert speller was won by Miss Clara Blakeley.

In another contest Miss Mary Mace, the accomplished teacher of the Blakeley school, was awarded the prize for naming the greatest number of articles seen on the "mysterious table."

Mr B D Hinnant added very much to the pleasure of the occasion by pleasingly rendering several selections of music.

### CUTTING AFFRAY NEAR COUNTY LINE.

**In Encounter Between White Man and Negro Knives Were Freely Used.**

Lake City, March 2, (Special):—Mr James Yarborough, white, and James Cockfield, a negro, had a quarrel Saturday night about ten miles from here near Lynch's river. It is said that the negro assaulted and struck Mr Yarborough with a stick and then cut at him with a knife, whereupon Mr Yarborough cut the negro, wounding him very seriously, but not necessarily fatally. The negro has a chance for recovery if no untoward symptoms develop. From all accounts Mr Yarborough appears to have acted in self-defense.
