

Death of a Child.

Rome, December 1.—On October 20 Annie, the youngest child of Mr and Mrs T W Britton, died after being sick only a few days with diphtheria. Little Annie was only 18 months old but was a bright child and loved by all who knew her. She was nursed through her short period of suffering by loving hands and had skilled medical attention, but the angel of death had come and the little one had to go.

A FRIEND.

Help Yourself by Helping Us.

We hope the friends of The Record, when they come to town to do their trading, will patronize the business houses that advertise in this paper. Remember that without these liberal merchants, bankers and other enterprising business men, the price of subscription would be at least \$3 a year for such a paper as The Record. You'll find, as a rule, that the men who advertise are wide-awake and on the alert and can give you better bargains than those who do not advertise. This applies not only to Kingstree, but many live and up-to-date business men of Lake City, Seranton and Greelyville recognize the pulling power of an ad in The Record.

"I had been troubled with constipation for two years and tried all of the best physicians in Bristol, Tenn, and they could do nothing for me," writes Thos E Williams, Middleboro, Ky. "Two packages of Chamberlain's Stomach and Liver Tablets cured me." For sale by all dealers.

HERE NOW!

DR. H. D. REESE will be pleased to examine your eyes and furnish you with prescription for any refractive error with the latest samples of everything optical. There are few people who realize the grave importance of consulting a competent refractionist in regard to any infection of the eye, which, next to the heart, is perhaps the most delicate organ of the human body. If through neglect it becomes disarranged, it becomes your master, and with the loss of it you are helpless.

With our system we eliminate all guess work and give you the true condition, and will tell you frankly whether you need glasses or treatment.

We will examine all school children FREE OF CHARGE. Your children's eyes are surely worth more than the cost of a pair of glasses. Poor or impaired eye-sight means a handicap, no matter what your position in life may be. Dr Reese will assure you scientific attention.
