Old Soldier Tortured.

"For years I suffered unspeakable tortures from indigestion, constipation and liver trouble," wrote A. K. Smith, a war veteran at Erie, Pa., "but Dr King's New Life Pills fixed me all right. They're simply great." Try them for any stomach, liver or kidney trouble. Only 25c. at M. L. Allen's.

THINGS ALL OUGHT TO KNOW

As Christian Bible Students—The Satisfactory Proof of "Why God Permits Evil?" One of the questions which comes to nearly every thinking mind today is, "Why does God permit evil?" As we look about us in the world we observe that it is filled with sorrow and trouble, sickness and pain and every trial we could enumerate, and we cannot help wondering WHY GOD ALLOWS IT. We realize that He is almighty and that He could prevent it if He wished. We read in His Word that He is more willing to do for His children than are earthly parents for theirs, and we know how much that means; yet oftentimes, it seems that those who try to do and live right have the most trouble. This question is made very clear in a book entitled, "The Divine Plan of the Ages." Every statement is backed by Scripture, and shows that while God does not sanction evil HE HAS ALLOWED SIN AND DEATH TO REIGN FOR THESE LONG SIX THOUSAND YEARS. This and many other subjects of deep interest to all of God's people are discussed fully and in language easy of comprehension. In English, German, Swedish, Danish, Norwegian, Italian, French, Greek, Hungarian, Spanish, Polish, Hollandish, [Syriac and Turko-Armenian in preparation.] 355 pages, cloth bound, 25 cents post-paid. Ensilage For Beef Cattle.

We feed the ensilage to our herd of Angus cows and to the young stock and finish out the steers on corn and grass in the summer, writes an Illinois breeder. We turn the cattle on shock fodder until the middle of January or the 1st of February and then give them ensilage and good oat straw that has been thrashed into the barn or hay, and if we have plenty of ensilage and other rough feed we do not feed any grain. Last year the snow came early, so we ran short of rough feed and had to feed some corn, too, but it is the first time for years that anything but the steers and calves were fed any grain.

THE WELD THAT HELD

Science has developed something infinitely better than the old style wrap or clamp
"Pittsburgh Perfect" FENCES
Are Welded by Electricity

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A wrap holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" reinforces the protection against rust at the electrically welded joint; examine the joint. Stays cannot slip. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

Every Rod Is Guaranteed Perfect

Don't allow your prejudice in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"Pittsburgh Perfect" Fences represent progress, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

"Pittsburgh Perfect" Fences represent progress, because hundreds of thousands of dollars worth of standard material is daily welded by electricity. If your wagon was made in a large factory, its tires were welded by electricity. You will find, electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

Mr. Farmer LISTEN NOW! Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this fence is perfectly adjustable. That the wires are not injured at the joints—that the fence is perfectly adjustable in every particular. That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

Notice.

We are mailing out statements to all our subscribers who are from three months to more than a year in arrears. We hope no one will be offended at receiving this reminder, and still more we hope no one will get too mad to pay the amount he or she owes. If we send you a statement when you owe us nothing don't "fly off the handle" and "cuss us out" but point out the error and we will cheerfully make the correction. It's a vast deal of work and considerable expense to make out and mail one thousand of these accounts. Think of it! The postage alone amounts to \$20. All because our friends, many of them, thought the little amount one man owed didn't matter. But it does matter to us, more than \$1,000. All the fruits of our labor for the past year are in your hands—are you going to see us lose your part? It's like lending out 1,000 bushels of wheat and getting it back one bushel at a time. Each person must pay back or we lose our wheat. Have you paid yours? tf

A NURSERY

Is one of the easiest rooms to make pretty, and one of the most important.

The dainty whiteness makes for that cleanliness which is the first and greatest requisite for a baby's health. Besides, prettiness is the only fit surrounding for any child.

You need a chiffonier and bureau in white enamel (perhaps we can show you how to do over your present pieces) a good brass or iron crib with sides high enough to keep baby from falling, a rocking chair, straight back chair and small table, also in white. These with a pretty rug, dainty wall paper, and muslin curtains, complete the room.

Be careful to get a STEARNS & FOSTER mattress, for it is the best. To a child, good sleep means good health, a sturdy body, a fresh, retentive mind. Even nervousness is often due to lack of really sound sleep. Get a STEARNS & FOSTER for the crib to-day. If after 60 nights' trial you are not entirely satisfied, we will give you your money back without a word.—\$3.45 to \$11.25.
