Isn't it time for the board of health to get busy and have the citizens of Kingstree clean up their premises? Better do something now, before sickness forces us to improve the town's sanitary condition.

Monday was "Clean-up day" over the State. No signs of any attempt to clean up were visible here. Judging by appearances it would take at least a week or two to give the town any semblance of cleanliness. Can't we get busy?

Rev Richard Carroll of Columbia, the Booker Washington of South Carolina, will lecture in the court

house tomorrow night. See ad elsewhere in this paper. From all reports Rev Carroll's lecture is well worth hearing.

A petition in voluntary bankruptcy was filed in the office of the clerk of the United States district court Thursday, April 6, by Stackley's Dry Goods Company of Kingstree. The liabilities are said to be about \$8,000 with assets approximately \$4,000.

Mr J Clayton Wilson, of the Bethel section, lost his house Saturday night by fire, supposed to have been set by lightning. He had just completed the building all ready for occupancy. Fortunately, if lightning was the cause, no one was occupying the house.

The Atlantic Coast Line railroad has recently laid a double track between Mount Holly and Bonneau, a distance of about twenty miles, which gives a double track from Bonneau to Charleston, thirty-eight miles. It is rumored that the double track will soon be extended to Florence, 102 miles from Charleston.

The pension fund, amounting to about \$250,000 for the whole State, has been sent out to the respective county boards for distribution. There are 9,431 names on the pension roll, compared with 9,592 for last year—a net decrease of 161 names. Williamsburg's share of the pension money this \$5,037.60.

"Squire" Fishburne is rapidly qualifying as a formidable competitor of the famous Squire Bailes. For two Sundays consecutively Mr Fishburne has exercised his notarial authority in splicing love-lorn couples of dusky hue, in each instance unifying "two souls with but a single thought; two hearts that beat as one."

Saturday night our heart was made glad and the Sunday dinner assured by the gift of a pair of fish of liberal size. The gentleman who presented them is one of "nature's noblemen," but entirely too modest to have us print his name. We are none the less grateful, however, because he prefers doing good by stealth and we won't embarrass him by telling on him.

Everyone sympathizes with Mr and Mrs R W Fulton in the loss of their little daughter, one of the twin girls that came to brighten the home only a few short weeks ago. The little one died Sunday and was laid to rest at the Williamsburg cemetery Monday morning at 10 o'clock, Rev E E Ervin officiating. To add to the parents' affliction the other little girl is critically ill and scarcely expected to live.

Don't miss our next issue, which will contain the story of the bombardment of Fort Sumter and the events leading up to the act that precipitated a mighty four years' struggle, one of the bloodiest wars of modern history. The story will be illustrated with pictures of Fort Sumter and all the star performers in the grim drama of a half century ago. If you are not already a subscriber, send us your name. You can't afford to miss this story.

Miss Madge McCants entertained quite a number of her youthful friends and playmates at her birthday party Saturday afternoon from 4 to 6 o'clock. The little hostess gave her many friends and playmates a cordial welcome at her hospitable home on South Academy street and the occasion was much enjoyed by all the participants. An Easter egg hunt was productive of much fun and "treasure trove" to the eager young seekers after the hidden prizes.

Another magnanimous Salters gentleman responded to our appeal last week by advancing his subscription to 1914. Those men of Salters are the salt of the earth and the ladies—well, the only way to describe them is to say they are the "sugar of the earth." We are proud of these two responses from Salters, for, while we expect to give our friends full value for their money, it would lighten our load very materially if a hundred or so subscribers would pay as much ahead as the gentlemen at Salters have done.

"Money's Worth"

When a man buys an Automobile he should insist on getting his money's worth.

I have succeeded in getting the agency for Williamsburg county with the celebrated

Oakland Car

a machine that has been looked upon as the height of perfection.

☛ The car is simple, strong, very pretty and positively the most reliable car offered to the public today.

☛ These cars are **absolutely guaranteed** and the buyer takes no chance. Ask the owners of these cars in your own county their opinion and ask me for a catalogue and demonstration, if you are in the market, or expect to be soon.

☛ The **1911 Model** is ready for delivery and has no competition in its class.

Just a look will convince you.
