#### ELLERBE ON THE JOB.

##### Has Drainage Surveyor Sent to Williamsburg and Georgetown.

Washington, June 12—Representative Ellerbe, of the 6th South Carolina district, has received a letter from Prof C G Elliott, in charge of drainage investigation for the department of agriculture, containing the information that the department will shortly begin a survey of lands near Morrisville and Rhems, in Williamsburg county, South Carolina, for the purpose of determining the cost of drainage of this area of about 40,000 acres.

A party of department experts is now engaged in surveying a tract of about the same extent in Georgetown county, and will go thence to Williamsburg county. It is the intention of the owners of the Georgetown tract, if they find the drainage proposition practicable, to sell these reclaimed lands to farmers in order to promote the general development of the section. The drainage in investigation work for South Carolina is in charge of J C Eason of Charleston.

#### The Local Newspaper.

Your local newspaper works for its town, does all it can to build up the place, advance the interest of its citizens, draw trade to the town, puts money into the pockets of the business men and adds to the well-being of all. Such a paper is entitled to the liberal patronage of the town and community it works for.

Such a paper is The Record. Do the city papers say anything about your county, its climate, water, springs, healthfulness, soil, product, stock raising, mills, minerals, schools, churches, roads, bridges or other improvements? Nothing. Do they ever say a word gratis calculated to draw attention to your town or county and aid in bringing in immigrants and developing the wealth of your community? Not hardly.

#### TRIO TOWN TOPICS.

##### What People of a Busy Community Are Saying and Doing.

Trio, June 13:—Mr and Mrs S E Thomas, formerly of this place but now of Sumter, visited the latter's father, Mr T G McDonald, several days last week.
