COMES A BREEZE 'ROSS THE SEAS.

THE RECORD A WELCOME VISITOR IN FOREIGN LANDS--A MESSAGE FROM BRAZIL.

Editor County Record:--

This is just a note to tell you that The Record has found its way to me safely and that it is a most welcomed visitor. It came to me very faithfully the two years that I spent in Kansas City--1,200 miles from home--and I thought that I knew how to appreciate it then, but I know it now. Five copies have already reached me and, though they are over a month old, I am sure that I greet them with more joy than any of its readers who get them before the ink is dried. I think now that I know how dear old "Uncle Ike" (Mr Isaac Epps) used to feel when it went to him while he was teaching away off in a little country school and was so hungry for news from the folk back at home. I know you remember how he loved it. If any of its readers have a tendency to criticise it, you just tell them to leave their loved ones and their homes in Williamsburg and go away six thousand miles across the seas and live awhile in a strange land with strange people of strange customs, then let a boat come in bringing in two or three copies of the old County Record and see if they still have the spirit of criticism.

This note will reach you about Xmas time and may it be a happy, happy Xmas for every one of you in our old town! My heart almost overflows when I think of the many happy Xmas seasons that I have had there. I am sure that there are many young men and young women there who will agree with me when I say that there is no feeling just like the "going home feeling" at Xmas, when they are tired of school work and their hearts are so hungry to be at home with loved ones and friends. I am wondering what kind of Christmas we are going to have out here. My heart aches when I see the spiritual condition of the people of this country. Oh, that their eyes were opened and they could see the need of our living Saviour! While you are all rejoicing over the birth of Christ, don't fail to pray for Brazil; that He may be born in the hearts of these precious people!

Kingstree has many sons and daughters scattered far and wide over this old world; but I don't think she has one anywhere who can possibly be more happy or more satisfied than is this one. I am so glad that I am here at this girls' boarding school, working for our Heavenly Father; I'd rather be here than any-

where else in all the world. I get lonely sometimes and home seems so far away, but just then Jesus seems to draw me closer to Him and proves Himself to be a Comforter indeed. He has given me so many kind friends and such a lovely home out here.

Next Thursday will be Thanksgiving, and it seems that I never had so much to thank my Father for.

With love to everybody in our old home town, I am,

[We thank Miss Epps for her kind expression of appreciation. On behalf of The Record and its readers, we invite this consecrated young woman, who is devoting her talents to the Master's cause, to give us an occasional letter for publication. No doubt her observation and experience in a foreign county would make very interesting reading for The Record's circle.—EDITOR].

WHY SO WEAK?

ROAD IMPROVEMENT TRAIN IS COMING.

OPERATED BY U. S. GOVERNMENT AND ATLANTIC COAST LINE RAILWAY.

The Atlantic Coast Line road improvement train, which left Richmond, Va, on November 24, has entered our State and will be with us until January 13. This train consists of an engine and four cars, as follows:

Two coaches, one of which is used for stereopticon views and the other containing models of road-working machinery, operated by electricity, and models of good roads, as well as a large collection of instructive photographs; private car for the accommodation of the Government experts and Atlantic Coast Line representatives, and one baggage car.

Large, enthusiastic crowds have met this train at every stop in Virginia and North Carolina and expressed themselves as being highly pleased with the free illustrated lecture and the exhibit car, both of which proved to be very instructive as well as interesting. At a good many places the crowds were so large that moving picture halls and theatres had to be secured in order to accommodate them and at other places, when the halls could not be secured, it was necessary to give two lectures in the coach, so as to give all an opportunity to hear.

As previously stated, this train is operated by the Atlantic Coast Line, under the auspices of the United States office of public roads.

We know our people will give this train a hearty reception and take advantage of the opportunity to learn all they can about the construction and maintenance of good roads, as there is nothing more important for the development of our State than good roads, well maintained.

Below we give a partial itinerary of this train:

Monday, January 8—Leave Florence 2:57 p. m., arrive Lake City 3:53 p. m.

Interstate Fertilizer

YOU COULDN'T expect a half up big and strong, could you profit-making crop come from the crop is properly fed.

Few soils known have enough plant fertile when cultivated. Exacting crop upon its fertility.

Ammonia, Phosphoric Acid and Potash from the soil—some crops requiring a greater amount of one and less of another. Fertilizers must be mixed as accurately as a doctor's prescription to supply the elements that are lacking, that the crop takes out.

The fertilizers made by us are conscientiously made. We could cheapen them, and analysis would not show the difference. But we prefer to give you the utmost in plant foods for the price you pay. For we consider reputation our richest asset.

The bountiful yields of cotton—the mammoth yield of corn—produced by them, are winning for Southwide prestige.
