Judged by the number of victims which it has caused to bite the dust, the motor-car has already more to its credit than all the deadly weapons of war.

Makes the Nation Gasp.

The awful list of injuries on a Fourth of July staggers humanity. Set over against it, however, is the wonderful healing, by Bucklen's Arnica Salve, of thousands who suffered from burns, cuts, bruises, bullet wounds or explosions. It's the quick healer of boils, ulcers, eczema, sore lips or piles. 25 cts at M L Allen's.

Science has developed something infinitely better than the old style wrap or clamp.

### "Pittsburgh Perfect" FENCES

Are Welded by Electricity

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A wrap holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing on "PITTSBURGH PERFECT" reinforces the protection against rust at the electrically welded joints, examines the joint. Stays cannot slip. They are always just where they were put. Stay and strand wires become one piece when the union is made. The fence is like a solid sheet of perforated steel.

**Every Rod is Guaranteed Perfect**

Don't allow your prejudices in favor of the rapidly-declining and now antiquated methods you have heretofore known, to warp your good judgment.

"Pittsburgh Perfect" fences represent progress, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product. If your wagon was made in a large factory, its tires were welded by electricity. You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

**Mr. Farmer LISTEN NOW!** Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this

That the wires are not injured at the joints—That the fence is perfectly adjustable to uneven ground—That the stays will not separate from the strands.—That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.
