This footing is to be paid by our taxpayers outside of the levy made by our lawmakers for county purposes, which is 4 1/2 mills. Why can't we have good roads? Two dollars from every man in the county between the ages of 21 and 60 for roads, everyone convicted in the county is put on the roads, and over one-fourth of the taxes collected goes on the roads. Our last Legislature also made an additional appropriation of \$250,000 to start a cotton warehouse in our State. If

it could be enforced it would be a full brother to the State dispensary. The Legislature was trying to make another graft nest to hatch thieves, but the supreme court killed this graft with the constitutional hammer.

Now, brother taxpayer, take those figures. Besides, you can add the Clemson college figures of \$400,000 or \$500,000 paid in by the farmers of this State in the guano tax. With the same increase in taxes for the next ten years as for the past ten, can we pay those taxes and own our homes, with the millions of now standing State debts?

If our voters don't wake up and elect men to the House and Senate who will use economy and reduce those awful extravagances in appropriations and make the running expenses of our State less, the lands in our State will be owned by landlords and the poor people will be renting their homes. Now, Mr Voter, you have the picture before you. Decide this day what you will do. Have you not had promises of economy and reduction in taxes? Have you ever got anything but increase in taxes? With all of those extravagant appropriations we are paying one-third of a million dollars interest on a State debt. Why is it that our State is in this condition? Because we pay three men to do one man's work. The Governor gets \$3,000 to be called Governor and his secretary gets \$1,500 to do the Governor's work. The Secretary of State gets \$1,900 to wear the name and he has two clerks at a salary of \$1,500 each, a total of \$3,000, to do his work, besides a stenographer at \$720. The Comptroller General's salary is \$1,900, and then he is furnished a chief clerk at \$1,600, an audit clerk at \$1,400, extra clerical service \$1,400, a bookkeeper \$1,500, stenographer \$400 and porter \$300, services paid for by the State for one office. Besides, all of the other State offices are paid and upheld in about the same manner. This in part is the cause of high taxes and why our State is in debt.

Can't the State Legislature make

a stipulated price for each State and county office therein and let each office-holder hire his own help? Besides, Mr Taxpayer, you are being taxed to pay the premiums on your office-holders' bonds. The office-holder draws his salary and the taxpayer pays for his bond. Is this just, and who made this law? Let our voters open their political eyes and see that they are to choose some one besides a Governor in the coming election. The Governor does not make tax levies. This is some of the past work of our honorable lawmakers. I hope the taxpayers and voters of Williamsburg county will see the true condition of our State and elect their lawmakers under a strong vow to try to reduce taxation by using the pruning knife in the next Legislature.

Yours respectfully,  
W S CAMLIN.

**Gass, Hopper & Gorrell.**

**Hard On the Governor.**

Thomas B Felder, the Atlanta attorney, who made sensational charges of official corruption against Governor Cole L Blease, of South Carolina, before the special investigating committee of the South Carolina Legislature, makes the following reply to the Governor's attack and denials of Felder's charges:

"He (Blease) substantiates his statements by the affidavits of men who have been convicted of felonies and pardoned by him and by men who are under indictment for graft-

ing in South Carolina. Further than that the reply that will be made to him will be as soon as he is relieved of his Gubernatorial robes.

"It is just as certain that he will be landed in the penitentiary as it is that the Ohio grafters, the Atlantic City grafters, the McNamaras, Abe Ruef, of San Francisco, and the land robbers of Oregon were placed behind the bars.

"We have better and more conclusive proof against Blease and his associates than Detective William J Burns had against any of those

people who are now serving terms in various penitentiaries of the United States."

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.
