as Phosphoric Acid? That is the real kind that pays you and the dealer. If you did not, you should at once ask your dealer to carry Potash Salts so that you may increase the Potash in the ordinary brands. To increase the Potash 1 percent, add 40 pounds Muriate or Sulphate of Potash to a ton of goods. A 200-pound bag will increase the Potash of a ton 5 percent.

Try it once and see how Potash Pays.

*If your dealer will not carry Potash Salts, write us for Prices. We will sell any quantity from a 20 pound bag up.*

### BLEASE'S PARDONS.

#### Several Crimes Committed Within 48 Hours by Freed Convicts.

Some day States will see the folly and futility of electing Governors like Blease, of South Carolina. Until then the country must chafe at the headlong spirit that still enables demagoguery to keep its grip on the public imagination.

Blease has brought his folly to a startling climax. Up to the early part of the week he had pardoned a total of 800 convicts, a record for recklessness in the history of American commonwealths. Then, last Wednesday, he shamed his own record by adding one hundred pardons, in a single batch, to his previous performances, bringing the total to 900. Of these hundred, twenty-six are men convicted of murder and as many more of manslaughter. Often it happens that a murderer merits pardon and parole, and that the community and the individual are the gainers thereby. But it is impossible that in this case fifty-two criminals should have had a record sufficiently clean to warrant turning them loose on society. The only explanation is a mental quirk on part of Blease that unfits him for the proper judicial discharge of his office.

Two days only were required to demonstrate the costly consequences of Blease's perversion of the pardoning power. Forty-eight hours after these fifty-two pardoned criminals were in the full enjoyment of their liberty they "broke loose" in several South Carolina counties, some committing crimes worse than those for which they were pardoned.

It is to be hoped the lesson will not be lost on our sister States. No more tragic illustration of official unfitness has been offered in the South in recent years.—*Atlanta Constitution.*

# MR. FARMER:

Do you know that the year 1914 is going to be a record breaker for good prices on all farm products? Are you willing to exert a little latent energy to make 1914 the most successful year in your career as a farmer? If so, we would suggest that you turn your attention at once to your soil, getting it in order for the

## Largest Crop of Tobacco

you have ever planted. The prices next year are going to be even higher than during the last season. Get your plant beds in good shape.

---

The great markets of the country are eager for your products, such as poultry, eggs, butter, hogs and beef cattle. Milch Cows are more in demand than ever before and command high prices everywhere. Make it a point to produce your own oats, corn and hay and save the money you pay out for inferior food stuff of the same kind.

Give some attention also to trucking--strawberries, beans, cantelopes, cucumbers, potatoes, etc. For everything you can raise you will find a ready and profitable market.

Later on there will be an abundance of tobacco seed for free distribution in Kingstree. Get ready for making a bumper crop.
