LETTER FROM A SOLDIER BOY.

Well Pleased With Military Life and Travel Incident Thereof.

Scranton, March 9:—It required only seventeen pages for our "Army Correspondent," Mr Archie C Wall, to inform the writer that he had left the training quarters, Columbus, O, and had reached Angel Island, California, where the several hundred boys would sail for the Philippines and Hawaiian Islands, March 5. He describes graphically the trip from Columbus to 'Frisco passing through twelve States, a distance of 2,980 miles. They were four days and four nights on the special train of thirteen cars (Pullman and dining). How they had short stops in the large cities; passed through Indiana, St Louis, Mo, Illinois, Kansas City, Colorado, New Mexico, Arizona and California. He picks Indiana for his State, with its broad acres of staples and fenced farms. Indiana and the "Show Me" State raise stock and grain; Colorado has few trees, but good pastures. Here, Mr Wall says, he saw thousands of sheep in herds, in Arizona and New Mexico, which was a curiosity to him. He says that it is mountainous and when you see a level place it is covered with prairie dogs, funny animals to him. The State is populated with Indians and Mexicans and sections are covered with Indian huts—whole villages of them.

They stopped at Newton, New Mexico, a fine city, but the most of the State looked like a desert. Very little crops could be raised on account of the sand storms. "You should see those Indians riding from place to place trying to farm, all as busy as could be—this was new to me," said he.

"The climate was extremely cold until we reached California, where we saw green grass and fruit trees in full bloom; the climate is warm and pleasant. Angel Island is 1 1/2 miles across the bay from "Frisco" and is owned by the Government; it is five miles in circumference. On

this island is a mountain which we climbed, taking two hours and fifteen minutes. Here we could see San Francisco and the grand exposition lit up by electricity. It was a scene to remember. I intend to go to the exposition. A soldier gets a pass through the gates. I visited the immigration station, where the Chinese and 'Japs' enter California. "Another bunch of boys arrived yesterday from Ft Jefferson, Kansas—more than 600. The boat I go on will carry 1,500 or 1,600. We start for Honolulu March 5 and will make it in eight days, if no delay occurs; the distance is 2,190 miles."

Archie informs us that he is sleeping in a two-story bunk and "has not fallen out of it yet."

The island, with its flowers, pet animals, sea birds, beautiful scenery imprints on one a lasting impression.

"School will soon close there and I shall have to begin when I reach my post. I shall go four or six months. I don't know what studies we take, but shall seize all advantages. I am satisfied and enjoying the soldier's life and would not give up my enlistment for the experience already gained.

"During the trip by rail, we came through 27 tunnels, from 1/4 mile to 1 1/2 miles long. Four men deserted en route here, but they are expected to be hauled up, as they could not carry their names with them.

"The boys do their own laundry. "Dr J B Bearn, missionary to China, addressed an attentive congregation at the Methodist church last night. He spoke most interestingly of conditions, needs and what the missionaries are doing in China." I M G.

TOLBERT GETS DEATH SENTENCE

Greenwood Man Convicted of Murder—Killed Young Wife.

Greenwood, March 6.—A C Tolbert was found guilty of murder this afternoon, after a short deliberation by the jury which had heard all the evidence adduced since yesterday afternoon at 3 o'clock, when the trial began. The testimony was practically completed yesterday evening and the morning occupied with arguments of counsel for the defense, Solicitor Cooper in reply. Judge Moore delivered his charge shortly before 1 o'clock.

At ten minutes after 3 o'clock the jury brought in its verdict, "guilty of murder"

Tolbert was found guilty of a particularly atrocious crime. He choked his young wife to death while the two were alone in a room in a house at Panola mill, a few days before Christmas. He waited an hour after committing the crime before he notified any one, saying he wanted to be sure she was dead.

At the trial he testified that her infidelity was the cause of his rage towards her.

The plea of the defense was insanity and testimony both of physicians and others was offered that Tolbert was "peculiar" or crazy.

When Judge Moore finished the death sentence Tolbert fell across the dock as in a swoon. He was carried into a jury room and given medical attention. The date of execution is April 2.

Court adjourned after sentence had been pronounced on Tolbert.

A Specific Against Colds.

"If there is such a thing as a specific against colds, it is to be found in the sleeping porch or the open bed room. Next to that comes the cold sponge bath in the morning," says the Youth's Companion. Be as careful as you can you will occasionally take cold and when you do you will find Chamberlain's Cough Remedy a great help in enabling you to get rid of it. Try it. Obtainable everywhere.

Dog Gave Money to Master.

Edward Gottlieb of Muncie, Ind, has a shepherd dog which for intelligence he believes can not be surpassed. It is not unusual for the animal to bring home things that he finds in the streets, but the other day it surpassed all its previous endeavors by coming home with a brand new \$1 bill in its mouth. It is said the dog picked up the money in south Walnut street in the centre of the business district. Mr Gottlieb is now endeavoring to find the person that lost the money.

"Shep does not mean to be dishonest," said his owner, "but he thinks that everything of value he sees should belong to me."

However, Russia would cheerfully undergo a protracted beef shortage for only one slice of Turkey.
