

SELL YOUR TOBACCO AT Gorrell's New Warehouse Kingstree, S. C. THE HOME OF HIGH PRICES

R. W. GORRELL

M. R. GASS

P. A. GORRELL

The Men Who Have No Axe to Grind.

Our greatest desire is to please our customers. Let us do some hard work for you this year, we are counting on you. And if hard work, square dealings and high prices count, we will get a liberal share of your patronage. Prices are much better than they were. We advise that you sell some tobacco now. We have buyers from all the companies. Come to see us whether you have tobacco or not. We want to know you and be your friends.
Yours for high prices, GASS & GORRELL, Props.

S. A. L. ABSORBS BONSAL LINES.

**EXTENSION OF 416 MILES OF
TRACK--WILL BE EXTENDED
TO SAVANNAH.**

A dispatch from Baltimore Monday says:

The Seaboard Air Line Railway will be consolidated with the Carolina, Atlantic and Western Railway under the corporate name of the Seaboard Air Line Railway Company. The Carolina, Atlantic and Western Railway is a recent consolidation of the North and South Carolina, the Charleston Northern, and the South Carolina Western railroads, operating a total of 416 miles. The Carolina, Atlantic and Western Railway recently acquired the Georgetown and Western railroad, operating from Lanes to Georgetown; and from Andrews to the Pee-Dee River, S. C. a distance of seventy miles. The Charleston Northern Railway is the line recently completed, connecting the North and South Carolina railroad with the city of Charleston, giving the Seaboard Air Line entrance into Charleston, and now becoming a part of the main line of the consolidated system. The new terminals at Charleston are admirable both as to location and facilities.

The line will be extended from Charleston to Savannah by the immediate construction of eighty-five miles of railroad with a maximum grade of only three-tenths of one per cent. This new line will also become part of the main line of the consolidated system.

This will give the Seaboard Air Line Railway Company, the new company growing out of the consolidation of the above mentioned properties, a low grade line from Hamlet, N. C. to Savannah, Ga. By this new line the Seaboard will reach Georgetown, S. C., Charleston, S. C., and Savannah, Ga; will tap a rich and fertile territory, highly productive in cotton and tobacco, will admit of the Seaboard's running time to the South being shortened, will create a line with a maximum grade of only one-half of one per cent as compared with one and one-half per cent, the maximum grade of the present line to Savannah, and which will permit the increase of the full train load, 127 1-2 per cent. In effect this will give the Sea-

board, through South Carolina, from Hamlet, N. C. to Savannah, Ga, two lines, the other line running via Columbia, each one self-supporting in its own territory, and thus will be obviated the necessity of double-tracking the Hamlet-Columbia line, where traffic is being congested. The territory to be opened up between Charleston and Savannah is generally adapted to the growing of vegetables, corn, rice and sea island cotton will put the Seaboard immediately into Charleston's heaviest vegetable producing section.

The new company will execute a mortgage authorizing an issue of \$300,000,000 bonds, of which there will now be issued \$25,643,000, Series "A," \$2,750,000, of which will be retained in the treasury.

Salters Sitings.

Salters, August 9:—Everything is moving along here in the usual way. Tobacco curing and fodder pulling is the order of the day. Crops are only moderately good. The copious showers of the past week have been of great benefit and things are looking better.
