In men whom men condemn as ill,
I find so much of goodness still;
In men whom MEN pronounce divine,
I find so much of sin and blot—
I hesitate to draw the line

Another Jolt to Our Patience.

We had just begun to feel in a congratulatory mood toward ourselves, the National Government, the people of these United States and Washington over what seemed a week ago to be a happy culmination of the differences arising over the sinking of the Lusitania, between the Imperial German Government and that of the United States when the news of the destruction of the Hesperian by being torpedoed without warning is broadcasted to create further unfriendly feelings and diplomatic correspondence between the two nations and turns the damper on our ameliorated spirit toward Germany. The Arabic incident, it is claimed, was pulled off by a "square head" submarine commander in disobedience of his Majesty's orders. A similar excuse will doubtless be set up by the German Government when it learns that the Hesperian was "indubitably struck by a torpedo" fired from a German submarine, as shown by affidavits of the liner's officers. Must this practice of sinking ocean liners and killing innocent people by German submarine commanders in disregard of Imperial orders be tolerated longer? Germany is, and should be held accountable for the unlawful acts of her naval officers, orders or no orders.

"Holier Than Thou."

A few years ago an inflamed mob lynched an innocent old negro in Springfield, Ill., on suspicion, and the South refrained from branding the whole Northern race as below par.

A few weeks ago a Georgia mob lynched Leo Frank, and the Chicago Tribune immediately jumps to the conclusion and asserts that the Southern people are uneducated, unrefined and a bunch of bad eggs generally.

But fortunately the Tribune speaks only for the Tribune, and not for the Northern people as a class. The North knows the South as it is—a refined, educated, courteous and generous hearted class of people, who deery the action of the mob as quickly as do the people of the Northern States under like conditions.

The South stands shamed by the action of the few of the Leo Frank mob, just as the North stood shamed by the action of the Illinois mob,

and by the action of yet another Illinois mob, which sought to lynch a murderer but a few days ago.

We condemn mob law wherever it exists, but we do like to see fair play on the part of the public press.

"Holier Than Thou" editors do more harm than good.

Rhems, September 6:—Mr Oscar Outlaw, chief engineer of the steamer "Brunswick," and Miss Blanche Belle Baxley, an accomplished young lady of the Pee Dee section, were happily united in marriage last Sunday evening at 8 o'clock at Good Hope church. The young couple will make their future home at Rhems. We gladly welcome them to our midst, and join their many friends in wishing them much happiness and a long and prosperous life.

The large school bell at Union rang Monday morning at 9 o'clock, thereby giving notice that the machinery of the Union High school was ready to be set in motion for the 1915-16 session. A full corps of teachers were at their post and the large attendance of pupils at the opening is proof of the educational interest manifested in this section. The familiar adage, "Play days are over and by the rule, Mary must go again off to school," could plainly be seen on the faces of the little "tots" as they were marching on their way to school. Hon J W Doar, Superintendent of Education of Georgetown county, made the opening address.

Mr John P Eaddy, of the Leo vicinity, visited relatives and friends here a few days last week.

Biliousness and Constipation.

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs Chas Peck, Gates, N Y, writes: "About a year ago I used two bottles of Chamberlains Tablets and they cured me of biliousness and constipation." Obtainable everywhere.

John H Earle, former Railroad Commissioner and son of the late United States Senator Joseph H Earle, died Friday morning as a result of a pistol wound in his head. A DISTRESSING ACCIDENT.

Promising Young Man Drowned Near Scranton.

Scranton, September 7:—Thomas M Creecy, age 18, of this town and son of the late Major Thomas M Creecy, was drowned at 3:30 yesterday afternoon at Cockfield's Landing on Lynch's river. The body was found about two hours later and brought to his home, where Coroner Gun empanelled a jury and held an inquest. The jury found a verdict in accordance with the above statement.

The young men had organized a swimming club and this point on the river was popular with a large number. The youth was bathing with three others when he got into a strong current. The other members of the party made desperate, but vain, efforts to effect his rescue. When the body was brought ashore a physician was present, but efforts at resuscitation proved futile.

Interment was made at the Methodist cemetery here at 11 o'clock Tuesday. Rev J B Prosser conducted the funeral services, assisted by Rev Mr Taylor of Darlington, pastor of the Free Will Baptist church. A large crowd paid its last respects to the deceased, which attested to the esteem in which he was held. The floral decorations were profuse.

Mr Creecy was a young man of exceptional qualities, and had a bright and promising future. He was a member of the local Y P B of W C T U and also a member of the Missionary Baptist Sunday-school. The other members of the class were the pall bearers.

His sudden and untimely death is the cause of genuine sorrow among his host of friends. His mother, sister and a large circle of family connections survive to mourn his loss. The grief stricken ones have the sincere sympathy of the entire community. I M G.

Mr Creecy was a nephew of Mr Olin Welch, of this place, who, upon receipt of the sad news of the drowning, left for Scranton Monday afternoon.

When You Think of Life Insurance, Think of The Pilot.

Every death claim which follows few premium payments takes just that much away from the dividends for the remaining policyholders.

That's the Economy of Being Classed with Healthy Risks

We are mighty careful about our medical examinations. It's **quality** of risks that we want. We are not so keen on **quantity**.

That Is Why Our Record of Loss Is Lowest,

and why our dividends to policyholders so large. Don't get in an unhealthy company. If you do, you'll have to help pay one early death claim after another. No reason for you to carry the burden of insuring others not in your class physically.
