

An Old Kentucky Home
 Since I Began
 Taking Peruna
 I Weigh 120
 Pounds for the
 First Time in
 My Life. My
 former weight
 was 102 lbs. My
 Mother who is
 76 Years Old
 Had Grown so
 Weak She could scarcely walk.
 She also took Peruna and is flesh-
 ier and looking well.

The above splendid woman is Mrs. Hattie Hamilton, of 918 Glen Ave., Latonia, Ky. She recommends Peruna to all housewives. Address The Peruna Co., of Columbus, Ohio, for a free copy of the "Tills of Life."

much shorter time than previous calculations would indicate, and it behoves us as sensible people to give this matter our best thought and to prepare for it accordingly. We must not regard it as one of those misfortunes which may or may not come to in a distant future. We believe that the boll weevil will soon be here.

Again, I urge upon our people to plant food crops and raise more live stock. I hope that this warning will be heeded.

RICHARD I MANNING,
 Governor.

Notes from Earles.

Earles, October 1:—The people of this section are busy housing their hay and picking their cotton.

We have had much rain in this section the last two days.

The Earles graded school will open October 11. There will be three teachers this session. The trustees are having the school house completed and put in order.

Mr G W Camlin took a flying trip to Kingstree Saturday on business.

The hunters of this section are having plenty of sport deer driving.

Mr R E Camlin had the misfortune to lose one of his mules last

Monday night.

Mr John Terry is very sick. He has been to an infirmary, but the doctors do not think his illness of a serious nature. We shall be glad to hear of his recovery. C S C.

To Our Teachers and Pupils:

Thursday, October 21, is "Educational Day" at our County Fair. You will be admitted free on that day, and all of you are earnestly requested to attend.

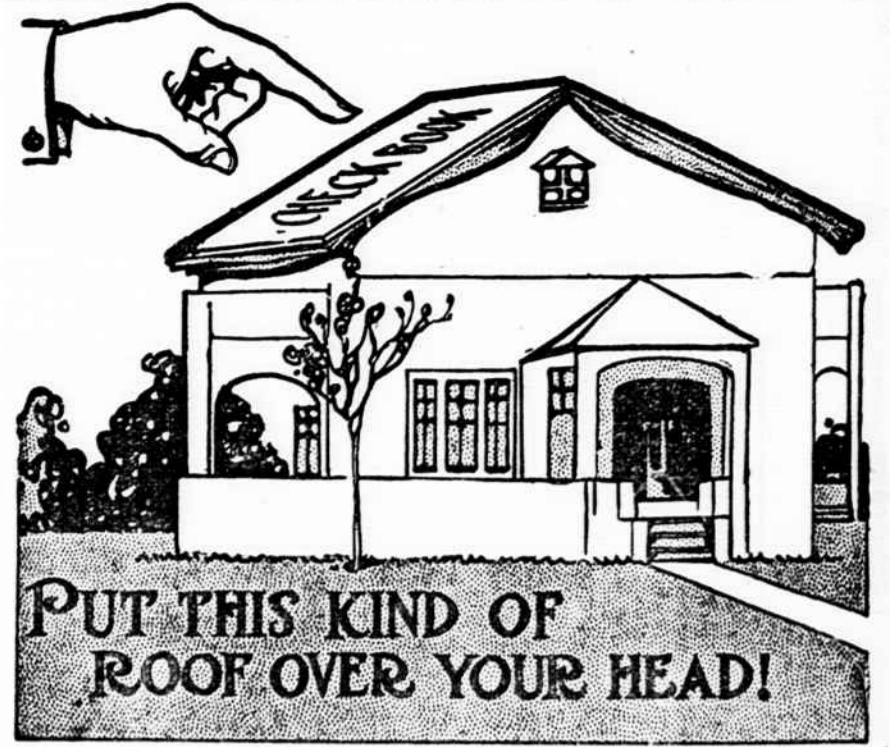

Coming at the opening of the school session, we do not hope to make a very extensive display of exhibits, but I am sure every school that is open at the time will have some articles of general interest to enter. I suggest as especially appropriate:

1. Pictures of your school building, class-rooms, and grounds.
 2. Statistics as to your enrollment, average attendance, number of grades, number of teachers, special taxes, length of term, transportation, etc.
 3. Specimens of industrial work.
- Bear in mind the fair is an advertising medium and that town or community is well advertised whose school has a good display.

J G McCULLOUGH,
 Co Supt of Edu.

County Fair Oct. 19-22

ASK any business man in town whether he has a CHECK BOOK OVER HIS HEAD. CERTAINLY he has. He couldn't do business and he couldn't live at home unless he had. More and more these days the AVERAGE MAN is PROTECTING his FAMILY BENEATH the COVERS of a BANK BOOK. Of course you want to select a RELIABLE INSTITUTION where SERVICE is PERSONAL.

LET US PUT A COVER ON YOUR HOME.

Warning to Farmers.

To the Farmers of South Carolina: I desire to call your attention to a matter that, to my mind, is of grave concern to every citizen of our State.

The boll weevil has reached the Atlanta district, in Georgia. The agricultural committee of the board of trustees of Clemson college, at a meeting held September 29 and 30, has considered the alarming aspects of this matter, and has taken steps to bring this situation to the attention of our farmers so that they can at once prepare for this disaster when it strikes us. The government maps and reports show that the boll weevil has advanced between 90 and 100 miles towards us this season. They have another month or more in which to advance still further in our direction. I am not an alarmist, but together with other trustees of Clemson college, I do regard the situation as so serious that active steps should be taken at once in order to meet this threatened calamity, and plans are now being

formulated by the Clemson college board looking to this end. I will, at a later date, give these plans and suggestions to the public. In the meantime let me urge our farmers throughout the State to sow wheat, oats, rye, clover and other winter crops, in preparation for money crops other than cotton, to be grown next year.

I urge our people also to fix their minds on plans for raising hogs, cattle and other live stock. I urge this matter most seriously, and assure them that I will advise only what I know to be facts. The increased price of cotton and the spread of the boll weevil, still further reducing the yield of cotton, will have a tendency to attract our farmers to the raising of cotton in preference to other crops, and to fix their efforts on an increase in cotton acreage. This, in my judgment, will mean disaster. I say it advisedly. Again, I urge that everything points to the appearance of the boll weevil in South Carolina within a
