Quiet Clutch—Runs in Oil

The clutch of the new Maxwell operates in a bath of oil. This makes it remarkably smooth and velvety in engagement, and eliminates 80 per cent. of noise when the gears are shifted.

Designers of the highest-priced cars agree that the clutch should run in oil.

The Maxwell clutch and transmission mechanism is fully enclosed.

We are waiting to take you for a test ride in the car that has broken all low "First-Cost" records, and is breaking all low "After-Cost" records.
