

# To The Voters of the Sixth Congressional District:

As many of you were unable to attend the Congressional campaign meetings, I feel that it is not only my privilege, but a duty which I owe to you as well as to myself, to put myself on record as to the issues involved in this campaign.

I feel that I have run a good race, that I have fought a good fight, that I have kept the faith; for I have endeavored to make this a campaign of measures, not of men; of issues instead of personalities. I have done no mud-slinging, either in public or private. I have heaped neither abuse nor ridicule upon my opponents. I have offered myself as a candidate upon my own merits, and not on the demerits of anyone else. I believe that I am qualified to properly represent this District. I feel that the time has come when our people want clean politics, when they will demand above all else, that a candidate for any office must be a man of high character. I believe that the people of this District will utterly condemn the use of money in elections, and that they will think any man who tries to buy his election wants office for opportunity of personal gain instead of public service.

I stand for Democratic principles, and am in thorough accord with our National Administration upon all of its great policies. I believe that the prosperity and welfare of the nation, especially the South, depend to a very large degree upon the continuation in power of the Democratic party under the wise leadership of Woodrow Wilson. The things which have been accomplished in the past three years have done us great good, but much more remains to be done.

I believe that the need for further preparedness of this nation against the possibility of war is a real and serious one. I stand for a large army, thoroughly equipped, and a navy second in size and power only to that of England.

I stand for the extension of activity by the Federal Government in farm demonstration work, the building of good roads, and reclaiming of our swamp lands by a proper drainage system.

I stand for laws that will give justice to both labor and capital, which will tend to prevent both strikes and lockouts.

I want to express to my friends and supporters my appreciation of the good work they are doing in my behalf, and to say to them that their efforts are being successful to a most gratifying degree. My friends and I are jubilant over my prospects. Letters bearing assurances of support are pouring in, bringing the glad tidings of success. My friends are finding my support stronger than they had even hoped it could be.

The crown of victory seems to be within my grasp ---I only want to urge my friends to keep up their efforts in my behalf until the primary.

**Julius S. McInnes,**  
Candidate for Congress,  
Sixth District, S. C.

### SUFFERED THREE YEARS WITHOUT MINUTE'S EASE.

**Mrs. Pilgrim Had Terrible Attacks Nearly Every Day.**

### LIKE A HORRIBLE DREAM.

**She Declares First Bottle of Tanlac Completely Relieved Her—Had Been in Bad Health 10 Years.**

After suffering three long years without "a minute's relief" from stomach trouble, Mrs. Rena Pilgrim of 15 Harris street, Anderson, S. C., found complete relief in the first bottle of Tanlac she took, according to a statement she gave the Tanlac representative. Her statement follows:

"I suffered from stomach trouble, which caused me continual pain for three years. I did not have a minute's relief. I could not eat anything, and I was so very weak that I could not do my housework. I had been in bad health for ten (10) years, and my ailments had been very bad during the past five (5) years.

"My nerves were all torn to pieces, too. Nearly every day for about nine months, and less frequently during the two previous years, I would have terrible attacks. My nerves had something to do with them, I suppose. These attacks would continue an hour or longer and I would become unconscious. Members of my family several times thought I was dying, and I thought so myself. When these attacks wore off it seemed as if I had had a horrible dream, and I would be too weak to sit up or talk, even for two or three hours after the spells ended. Before I took Tanlac I was so weak I could not do my housework and I would have to go to bed three or four times and rest a short while during the time I was cooking each meal. I did not dare eat meat, and everything I ate would cause me terrible pains.

"I had tried so many medicines and had spent so much money without getting relief that I had lost faith in medicine almost and had about lost hope of ever getting well again. I was persuaded to take Tanlac, though, and when I began taking it I could not walk across the street.

"Well, I am a well and happy woman now, and it is all due to Tanlac. I do my cooking, wash clothes occasionally, and go to town and anywhere I care to, for my strength has been returned. The very first bottle of Tanlac ended those terrible attacks and stopped the pain in my stomach. You can imagine how grateful I felt when I was freed of those pains after three long years of steady suffering.

"Since I began taking Tanlac I have taken two trips to Georgia to visit relatives. I never get tired now and I find a lot of pleasure in my housework. I am 45 years of age, but I am going around a lot now to make up for the time I lost during the past five years. I can eat anything now and a lot of it, and I never have indigestion.

"I am really a new and an entirely different woman now, so great has been the change since my health was improved. I felt fine when I had finished the second bottle of Tanlac, and I have not taken any in over a month. I bought six bottles at one time, but I gave one to a friend, and other members of my family took the rest. I took just two (2) bottles.

"I am sure I can recommend Tanlac, and I have persuaded a lot of my friends to take it. If you had seen me before and after I took Tanlac, you would say it has worked a real miracle for me. That is just the size of it; Tanlac worked a miracle for me."

Tanlac, the master medicine, is sold by Kingstree Drug Co., Kingstree; Mallard Lumber Co.'s store, Greelyville; R P Hinnant, Suttons; price \$1 per bottle, straight.

## Reliable Laxative Relieved this Baby.

**Child Was Badly Constipated until Mother Tried Simple Remedy.**

WOODROW WILSON

In spite of every care and attention to diet, children are very apt to become constipated, a condition responsible for many ills in after life unless promptly relieved.

Mrs C W Wilson of Shelbyville, Tenn, had trouble with her baby boy, Woodrow, until she heard of Dr Caldwell's Syrup Pepsin. She writes, "I can safely say Dr Caldwell's Syrup Pepsin is the best remedy of its kind on earth. It acts so gently and yet so surely. Little Woodrow was very badly constipated and we could find nothing that gave relief until we tried your Syrup Pepsin, which gave immediate relief."

Dr Caldwell's Syrup Pepsin is a compound of simple laxative herbs, free from opiates or narcotic drugs, mild in action, positive in effect and pleasant to the taste. It has been prescribed by Dr Caldwell for more

than a quarter of a century and can now be had for fifty cents a bottle in any well-stocked drug store.

To obtain a trial bottle, free of charge, write to Dr W B Caldwell, 454 Washington St, Monticello, Ill.

## 5,000,000 FIGHTERS NOW IN PRISON.

**GERMANY HAS 1,750,000 OF THEM, RUSSIA 1,500,000, AND MORE POURING IN.**

More than 5,000,000 prisoners, double the number of men engaged in any previous war that the world has known, are now confined in prison camps of the belligerent nations, according to Dr John R Mott, general secretary of the Young Men's Christian association, who arrived in New York several days ago on the Danish steamship Oscar II from Copenhagen. Dr Mott left New York in May for Russia and has visited the prison camps of nearly all the countries at war.

Dr Mott said that of the prisoners, Germany has the greatest number, approximately 1,750,000. Russia, with about 1,500,000, comes next, then Austria with 1,000,000, followed in order by France, Italy, Great Britain and Turkey. Russia's prisoners, he added, are rapidly increasing, more than 400,000 having been added to the camps since the beginning of the last Russian drive. In six weeks, Dr Mott added, 230,000 passed through Kiev.

"I found," Dr Mott said, "that reports as to the treatment of prisoners of war were receiving have been greatly exaggerated. In all the countries the prisoners receive virtually the same food and care that the armies of the respective countries do. Everything possible is done for their comfort and their health.

"We have forty-five American secretaries working among the various armies, and I hope to increase this number shortly. The work is the general army Y M C A work, looking after the men's mental and physical wants. We have been accorded all the co-operation and assistance we could reasonably expect by all the countries except Turkey, where, as yet we have not been permitted to enter."

D A Davis, formerly of Washington, D C, is in general charge of the American Y M C A work on the western front, Dr Mott said, and A C Harte is in charge on the eastern front. Mr Harte returned with Dr Mott for a vacation.

### NEEDFUL KNOWLEDGE.

**Kingstree People Should Learn to Detect the Approach of Kidney Disease.**

The symptoms of kidney trouble are many. Disordered kidneys often excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back may ache, headaches and dizzy spells may occur and the victim is often weighted down by a feeling of languor and fatigue. Neglect these warnings and there is danger. Delay often proves fatal.

You can use no better endorsed kidney remedy than Doan's Kidney Pills. Here's Kingstree proof of their merit.

C R Thomas, photographer, Mill St, Kingstree, says: "My kidneys were disordered, and I suffered from dull pains in my back. I was sore and lame in the morning, and could hardly stoop. I had headaches and dizzy spells. The kidney secretions passed irregularly and caused me no end of trouble. When I read about Doan's Kidney Pills I got a supply at Allen's drug store, and one box rid me of all signs of kidney complaint."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr Thomas had. Foster-Milburn Co, Props, Buffalo, N Y.

The lad who sticks to the farm in youth will find the dollars clinging to him in old age.

### LAKE CITY HAPPENINGS.

**Sale of Newspaper--Ice Plant in Operation--Personal Items.**

Lake City, August 15:—Mr W T Askins has gone to see his daughter, Miss Violet, who is in a sanatorium in Asheville.

About ten days ago the son of Mr Fank Cockfield, who lives out near Lynch river, was bitten by a dog which acted in a manner exciting suspicion that it was mad. The dog was killed, and the child has been under the serum treatment several days. So far no alarming symptoms have appeared.

Mr J H DuPre, of the engineering department, spent last Thursday and a portion of Friday here, looking into the condition wrought by the storm and arranging for distribution of the assistance authorized by Congress.

Mrs Woodley and daughter, Miss Mary, of Petersburg, Va, are visiting Mrs C D Rollins, daughter of the first named and sister of the second.

The ice factory, its large artesian well having been completed, is now getting plenty of water and is running full time. Some folks think that there is no difference in ice, but that is entirely wrong. There is ice and ice, as comparison of the product of this factory with common ice will clearly show.

Mr C C Daniel of Indiantown spent Monday in town on business. The recent disaster has not affected his cheerfulness to an appreciable extent.

There are some cases of malarial and of typhoid fever in the community; and through the wide distribution of germs and filth by the recent rains it is feared that there may be numerous cases of these fevers before cold weather comes.

Tobacco continues to come in at about the same rate as last week, and the good prices are keeping up well. One must not conclude from the great quantities of tobacco being sold here that the crops of the community were not damaged much. Such a conclusion would be erroneous. Of course some of it comes from this neighborhood, but only a part. It is coming from five or six counties and even Southwest Georgia. Lake City being the best market of the State, is selling a good part of the tobacco of the State and even drawing from a sister State.

The Lake City News, so we understand, has been purchased by Messrs M K Gravelly and Mark Smith.

Mrs W C Kelley was taken Tuesday to the McLeod infirmary, Florence, for an operation. She was accompanied by Dr C D Rollins.

### France to Pay for Babies.

France is considering paying mothers for bearing children. Men will be needed to take the place of the millions killed in this war and to fight the wars of the future. With the terrible destruction now going on in Europe, it seems that there would not be much incentive to mothers to bear children, just to furnish targets for cannon and rifles. Germany has also taken steps to insure men for future wars, by legitimizing children of unmarried women and lowering the marriageable age to 15 years.

A bill is before the French chamber to establish a system of birth bounties after January the first. The State is to pay, under this proposed scheme, \$100 for each of the first two children, \$200 for the third, \$400 for the fourth and \$200 for each one thereafter. This bounty goes to the mother. Fathers who support four living children are entitled to a bounty of \$400. The funds for these bounties are to be obtained by taxing those of either sex who for any reason are childless or have only one child.
