They were then joined by the young men from town and attended services at Muddy Creek church.

Trying Suit for \$50,000.

Florence, March 12:—The United States court for the Eastern district of South Carolina, with Judge H A M Smith presiding, continues in session here this week. This will be the longest sitting of this court at Florence since the district was established. The criminal docket was cleared late Saturday and today Judge Smith heard civil business. The case on trial today was that of a suit for damages against the Atlantic Coast Line Railway. The amount being sued for is \$50,000, and the plaintiffs in the case are J C Long and his wife, Cathleen Long. Mrs Long claims damages for alleged injuries received in falling over a suit case left standing in the aisle of the car in which she was riding when she was suddenly jerked by the train when nearing Savannah, Ga. Carelessness on the part of the railroad company is alleged.

A verdict was given the plaintiffs for \$2,000.

A Good Job.

When one has the same caddie at golf for several days running, it is natural to be interested in his personal and home affairs. Such an interest in one of the caddies at Camden, S C, this winter led to this conversation:

"Your father living, Zeke?"
"Oh, yassir, my ole man livin'!"
"Does he work?"
"Oh, yassir, he wukin', now."
"What does he do?"
"Well, cap'n, my ole man he used to be a Methodis' preacher; den he quit an' got to be a Presbyterian preacher; an' bimebye he quit dat an' got to be a Baptis' preacher."
"Is he a Baptist preacher now?"
"No, cap'n; he all right now, sub, he's a caddie, up at Pinehurst."—New York Post.

Preparing For the Worst.

Don't Have Catarrh

One efficient way to remove nasal catarrh is to treat its cause which in most cases is physical weakness. The system needs more oil and easily digested liquid-food, and you should take a spoonful of

after each meal to enrich your blood and help heal the sensitive membranes with its pure oil-food properties.

The results of this Scott's Emulsion treatment will surprise those who have used irritating snuffs and vapors.

Europe Soon May Have No Shoes Left.

Rome, Feb 22 (Correspondence of the Associated Press)—"A barefooted Europe is not improbable if this war continues," said John F Stucke, vice-president of the American Chamber of Commerce in Italy and general manager of an American shoe machinery company, in an interview concerning supply and business conditions met by Americans abroad.

"At the present time a pair of heavy mountain shoes lasts a soldier but six weeks," he said. "These shoes have their heels and soles studded with nails at that. The shoes are largely made in Italy but with American machinery and American leather, and the quality of the materials is the best we can furnish, but that quality is of course inferior to that sold before the war. When manufactured by the hundred thousand these shoes cost the government about four dollars each. But the supply is always behind the demand, since materials arrive very slowly from America. On one ship, the Palermo, which was torpedoed in the Mediterranean, off the coast of Spain, in early December, the material for nearly half million pairs of shoes was lost.

"The retail store trade in Italy is now obliged to pay nearly \$7 wholesale for shoes that before the war cost \$3.50 and it is probable that American shoes will be selling in Italy soon for \$10 and \$12 the pair. The American shoes, because of their shape and fit have long been the chief product on the market here, and particularly since the war, as the handmade shoe cannot be made quickly enough."

A Tiring Task.

Instead of reprimanding the office boy for soldiering over his work the manager unctuously requested him to count the ticking of the clock for five minutes. For five minutes the boy counted. At the last second he attacked his work with unusual earnestness, and for the rest of the day his interest never flagged.

"That is a scheme they tried on me when I was a youngster and inclined to be lazy," the manager said. "To this day I do not know the secret of its success, but I know that to deliberately count the ticking of a clock will cure the worst spell of indolence."—New York Sun.

The Chinese Language.

The Chinese language is the chief among the small class of languages which include the Tibetan, Cochin Chinese, Burmese, Korean and Chinese and which is usually described as monosyllabic. It is language in its most primitive form. Every word is a root, and every root is a word. It is without inflection or even agglutination. Its substantives are indeclinable, and its verbs are not to be conjugated. It is destitute of an alphabet, in the sense in which other languages have an alphabet, and finds its expression on paper in thousands of distinct symbols or picture forms.

A Witty Scot.

At an auction sale in a Scotland village the auctioneer was trying to sell a number of domestic utensils, including a porridge pot. As usual, he was making a great fuss. Finishing, his keen eye caught a well known worthy, the beadle, standing at the back of the crowd, and he shouted out:
"Maister McTavish, make an offer for this pot! Why, it would make a splendid kirk bell!"
"Aye," replied the beadle, "if your tongue was in it!"
