

**DROPS HOE FOR GUN.**

Newark, N. J., March 30:—Andrew Miller, a young farmer who is on his way today to join the United States marines at Charleston, S. C., walked 25 miles to enlist because he had no money and was too proud to beg a ride. "I want to fight," he told the recruiting officer. "I was working in a field when a fellow came along and said the Germans had declared war on the United States and were bombarding New York city. I dropped my hoe and didn't even wait to get the money that was coming to me. I don't need a uniform; all I want is a gun."

**Undressed Lumber.**

I always have on hand a lot of undressed lumber (board and framing) at my mill near Kingstree for sale at the lowest price for good material. See or write me for further information, etc. F. H. HODGE.

**Lake City Wants Waterworks.**

The live business men of Lake City are considering the establishment of a system of waterworks for that busy town. There is some opposition to the enterprise by those who consider only the cost, but they are fast coming over when the matter is presented to them fully, showing the saving that would be effected not only in money but in health from the use of water free from contamination.

In the matter of the real hard cash proposition, Lake City has now a basic insurance rate on business risks of \$1.50 and equally as high on residence and personal property. If the town had a system of waterworks that would give an ample supply for fighting fires, the base rate would be only 95 cents per hundred on all the property upon which that rate is paid.

As the system could be put in for not over \$40,000, according to an experienced engineer, the debt being

carried by bonds bearing 4 interest, an annual charge of \$1,600. A petition calling for an election on the question of issuing such bonds is in circulation. As there is some \$250,000 insurance carried in Lake City, a saving would be effected that would pay the bonds. Besides, the health and comfort of the community would be greatly enhanced, especially if the proposed municipal sewerage plant also become a reality. Sicknes is a heavier tax than one imagines, and the records show that pure water and sewerage do save doctor bills.

Then, too, Lake city would be a much more pleasing and popular town, and if she get the court house she is after, these things will be a necessity.

Another matter that is to be considered is that much property is now lost by fire that could be saved, so that in every way the proposition is inviting.

**TAKE**

**NO ALCOHOL**  
**PREVENTS**  
**Colds, LaGrippe, Rheumatism**

A pleasant but effective emulsion, which rebuilds the tissues, revives the system, adds strength and stimulates the nervous system. It has absolutely no alcohol, and is in every sense a tonic.

**\$1.00 PER BOTTLE.**

Columbia, S. C.

**Piles Cured in 6 to 14 Days**  
Your druggist will refund money if FAZO OINTMENT fails to cure any case of itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c

**Mother Praises Remedy That Relieved Her Baby.**

**Dr Caldwell's Syrup Pepsin is a Dependable Family Laxative.**

Nearly all the sickness incident to a baby's life is due to constipation, or inaction of the bowels. At the first indication of irregularity in this important function, relief should be afforded promptly. A mild laxative should be administered to gently carry off the congested waste and leave the stomach and bowels free to perform their allotted tasks.

Of the various remedies recommended to relieve constipation, the combination of simple laxative herbs with pepsin, as prescribed by Dr W B Caldwell and sold in drug stores under the name of Dr Caldwell's Syrup Pepsin, is the most effective. It contains no opiate or narcotic drug, is pleasant to the taste, mild and gentle in action, and quickly brings the desired relief in an easy, natural manner.

Mrs C J Douglas, Mason, Ill., writes that she cannot say enough in praise of Dr Caldwell's Syrup Pepsin as a dependable family laxative. Little Mary Eva had been badly constipated until they tried Dr Caldwell's Syrup Pepsin, which brought the first natural relief the child had had in two weeks.

Dr Caldwell's Syrup Pepsin is sold in drug stores everywhere and costs only fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to ask for Dr Caldwell's Syrup Pepsin. See that a facsimile of Dr Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed.

A trial bottle, free of charge, can be obtained by writing to Dr W B Caldwell, 455 Washington St, Monticello, Illinois.

**The Negro Migration North.**

The statement made before the Business Men's Organization that 150,000 negroes have left the South to come North within a year, and that Newark has received 10,000 of them and New York 25,000 calls attention to the economical and social problems created by this new aspect of domestic immigration.

In effect, a negro population equal to one-fifth of that of Virginia, or, from another point of view, the equivalent of three times the entire white and black population of an important Southern city as Mobile, has suddenly abandoned its old home for a hazard of new fortunes in a radically different environment far away in the North. That its abrupt removal necessarily affects industrial relations there and here is obvious. It is, moreover, not merely a casual migration. The movement has become continuous and is gaining a momentum which may largely increase the North's new negro population during the current year beyond these figures.

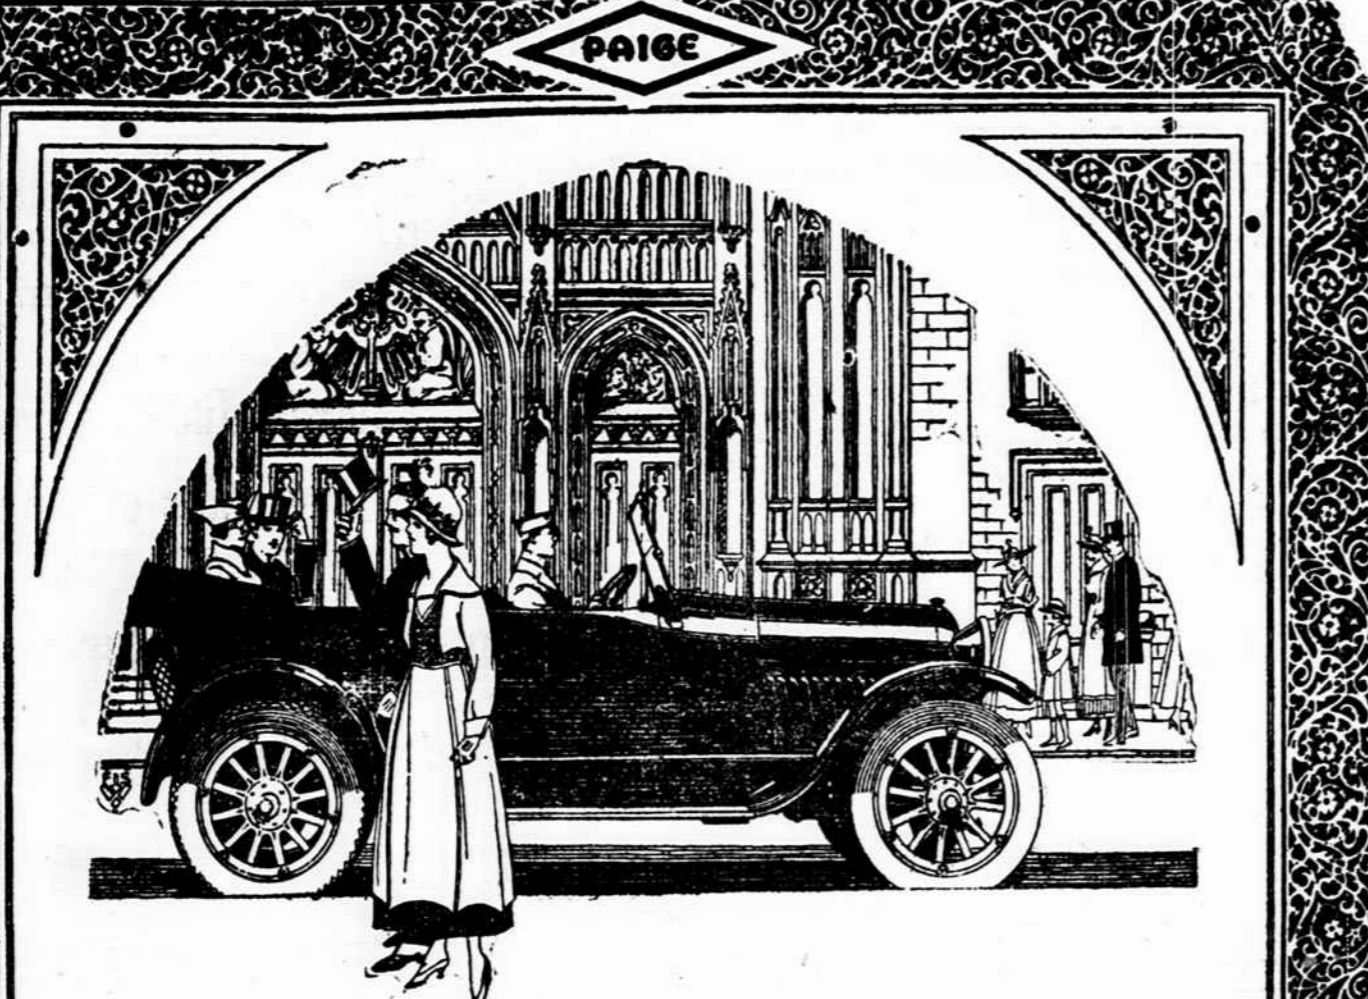

It is bound both to influence industrial conditions in the South by the withdrawal of this form of labor,

and in the North by adding to the floating supply. It will presumably create problems, but that one of them, as respects the addition to New York's population of 25,000 negroes, will be the need of charitable provision is hardly worth worrying about. New York's capacity for assimilating immigration may be expected to prove equal to this new demand put upon it.

What is happening is merely the transfer of a bulk of willing and active labor, competent within its lines, to a new market. That it will adjust itself to the novel conditions and prove self-supporting is rationally to be expected.—*New York World.*

**Peanut Hulls Vs Cottonseed Hulls**

Ground peanut hulls have been used for adulterating mixed feed and are also being sold separately as a dairy feed. In feed value they rank a little higher than cottonseed hulls. A number of farmers who have used the peanut hulls, report that they like it better than the cottonseed hulls. When the ground peanut hulls can be secured at a reasonable cost there is no objection to using them in dairy cow sections in place of the cottonseed hulls.

**PAIGE**

*The Most Beautiful Car in America*

**T**HIS new Paige Linwood "Six-39"—in the three months since it was announced—has won a distinction remarkable even for Paige Cars, which year after year establish records for instantaneous popularity.

This new Paige Linwood is already recognized as the most easily sold and the most eagerly bought five-passenger moderate-price motor car on the market. That has been its reception and achievement in three months.

You will find the explanation for this—when you see the Linwood—in the beauty of line and design, in the spacious roominess, in the elegance and comfort of every feature that go to make up luxurious motoring.

You will find the explanation for this in the power and responsiveness of the motor, in the ease of control, in the ease and security and pleasure of driving the Linwood.

The five-passenger Linwood is a blood-brother of the Big Paiges, designed by the same engineers, built of the same high-grade materials and same painstaking workmanship.

Stratford "Six-51" seven-passenger	\$1495 f. o. b. Detroit
Fairfield "Six-46" seven-passenger	\$1375 f. o. b. Detroit
Linwood "Six-39" five-passenger	\$1175 f. o. b. Detroit
