

Moore's X Roads Items

Moore's X Roads, August 8:—Mrs J J Scurry of Georgetown is visiting her mother, Mrs B W Moore.

Miss Kathleen Harrot from Darlington is the guest of Miss Ruth Wilson.

Mrs J J Moore, little Wilhelmina and Christeen visited relatives and friends in Lake City last week.

Mr and Mrs Knight, and little Knight Jr, motored over from Summerton Tuesday, and spent the night with the former's brothers.

Mr and Mrs Dave DuBose from the Hebron section spent Sunday with Mr and Mrs J E Coker.

Most all the farmers around here are curing their last tobacco this week. I think they are very glad that tobacco crops do not last very long.

Miss Harris from Florence came down Monday to see her sister, Mrs L W Moore.

Mrs Mills and Mrs McCrea have returned to their homes in Wadesboro, N C, after visiting their parents, Mr and Mrs J T Deberry.

Mr and Mrs B C Cook spent the week end with friends in the New Zion section.

Mr and Mrs J A Cook have returned home from a visit to Georgetown.

We Hope So, Too.

A man who is a pretty close observer remarked the other day that tobacco would bring still higher prices next year. He based his prediction on the fact that almost worldwide prohibition would greatly stimulate the consumption of the weed and his advice to the people is to prepare to double their tobacco acreage next year. This is pretty good reasoning, and we believe this gentleman is more than half right.—*Dillon Herald.*

Mr. Coker a Good Farmer.

Editor County Record: Please allow me space in your columns to congratulate the people of Williamsburg county, and especially the friends of relatives of Mr C B Coker, who has made his home at Andrews. He is a splendid farmer and I feel sure that he has, by his ability as such, added 1,000 bushels of corn to our community, not to mention his prospects for a bountiful money crop of tobacco and cotton.

F MOORE.

Andrews, July 29.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 100% in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European medical institutions, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue, and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical vigor and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your flagging vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test: See

how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the time double, and even triple, their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble was that the old forms of inorganic iron, like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated, and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron, for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any charitable institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 100 per cent. or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by all good druggists.
