## Iron Is Greatest of All Strength Builders, Says Doctor

A Secret of the Great Endurance and Powers of Athletes

Ordinary Nuxated Iron Will Make Believers, Nervous, Headache, People 100 Per Cent Stronger in Two Weeks' Time in Many Cases.

NEW YORK, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. E. Bauer, a Boston physician who has studied widely both in this country and in Great European Medical Institutions whom, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong but they can't tell what, so they generally commence doctoring for stomach, liver or kidney trouble or symptoms of some other ailment caused by lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen many of nervous, run-down people who were ailing all the while,

double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron acetate or stearate, both simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize-fighter has won the day simply because they knew the secret of great strength and endurance and filled his blood with iron before he went into the arena, while many another has gone down to ignominious defeat simply for the lack of iron.

**NOTE**—Nuxated Iron, recommended above by Dr. E. Bauer, is one of the newer organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 100 per cent. or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and give endurance in ten days' time. It is dispensed in this city by all good druggists.

### Relief in Sight in Coal Situation.

Mr J W Howard has returned to the city after spending some days in Virginia. Mr Howard says that according to information gathered in the Virginia coal fields some relief from the present coal situation seems now in sight. He was told by those in a position to know that vast shipments of coal were now moving to the Western States, the movement being hurried in order for the West to be supplied before freezing sets in on the Great Lakes, over which the shipments were for the most part routed. It is only a question of a short time, he understood, before coal shipments will be diverted to the South and East. When this is done, not only is a plentiful supply of coal to be looked for down this way, but prices will not be so outrageously high.—*Florence Times.*

### A Chance for Service.

The great war has clearly singled out tuberculosis as among the worst enemies of armies and has shown that the control of tuberculosis is one of the most important steps in mobilizing the strength and conserving the resources of a nation. The 150,000 French soldiers invalided back from the trenches and the vastly increased ravages of the disease among the civilian population offer our nation a timely lesson. Every person selling Red Cross Christmas Seals, sold this year as every year only for fighting tuberculosis, has a vital opportunity to make our country profit by the dearly learned lesson of France, Canada and other participants in the war.

The following have been asked to serve as agents in this county: Mr Pritchett, Mesdames Salters, S B Poston, B L Nesmith, Misses Lela Burney, Emmie Ferrell, Pattie Graham, Sarah Bailey, Garnet Graham, Mae Belle Leitch, Lula Sexton, Thelma Mouzon.

## A BEACON OF HOPE!

WHEN the storm rages and the cruel sea roars as though in ghastly glee the lighthouse is truly a beacon of hope. And when the storm of financial trouble beats upon you and the horrible pit of disaster yawns before you a bank account is your SUREST beacon of help. You know this. You have heard it a thousand times. But are you really saving all you OUGHT to save? Are you actually laying a solid foundation for your beacon of hope? **THINK THIS OVER.**
