

ANNOUNCEMENT!

I am glad to announce to my former patrons and friends that I have just moved into my new quarters---just completed---which are located in front of the Atlantic Coast Line Depot on Acline Street.

I wish to thank my former patrons and friends for the business given me, and solicit a continuation of their business and confidence in my ability to give them a first class job with the least possible delay.

I now have the largest and best equipped garage in this vicinity, together with a good force of mechanics, which enables me to give you the best possible service.

Look for "The Home of Good Cars."

I now have in stock the well-known Liberty and Studebaker cars, which are famous for their reputation for long years of service and low expense of up-keep, which really makes them the most economical car to purchase.

Give us a call and let us demonstrate these well-known cars to you and prove our statements. Give our garage a look-over and I think you will agree with me that I am in a position to serve you well.

Cardui

The Woman's Tonic

Mrs. Sylvania Woods, of Clifton Mills, Ky., says: "Before taking Cardui, I was, at times, so weak I could hardly walk, and the pain in my back and head nearly killed me. After taking three bottles of Cardui, the pains disappeared. Now I feel as well as I ever did. Every suffering woman should try Cardui." Get a bottle today. E-68

Get What We Need

We get what we need. Nature provides it as easily as grass grows where it is needed or ceases to grow where it is not needed.

For instance, the reason an Eskimo dog is used in Alaska is not by reason of his size or build or thick hairy coat, because there is a large variety of dogs that are endowed with these characteristics.

The Eskimo dog is used because he has no hair between the pads of his feet.

When a dog has hair at this particular place, the hair collects snow which gets icy and balls up and cuts the skin.

In this respect an Eskimo dog is absolutely a wolf.

Any dog taken for any length of time into a cold climate develops two coats of hair—a wooly coat to keep him warm, on the same principle as underclothing, and a thick, hairy coat to protect him from the wind.

We get what we need. Nature gives it to us.

She gives mechanics the callouses to protect their hands.

Birds that live around water—such as the heron—have long legs so they can walk into deep water, and long beaks for picking up food from the bottom of the stream.

Certain oriental animals—such as tigers, cats and jackals—have long tails because they originally were fishing animals.

They crouched on the banks of streams, let their tail down into the water, a fish took hold—the tail was jerked out and up went the floundering fish to dry land to be devoured.

We get what we need, as long as we live in harmony with Nature.

When it fails to come, it is because we have violated Nature's law of compensation—by intemperance, dishonesty, hatred, greed or perverted philosophies of life.

Prosperity helps some men to forget their friends.

STORM TOOK HEAVY TOLL

Ninety-two Killed and Property Damage \$1,000,000

Ninety-two persons were killed, approximately 300 more or less seriously injured, and property damage estimated at nearly one million dollars was the toll exacted by the storm that swept a portion of Arkansas, North Texas and Southern Oklahoma, last week according to complete reports. Of the dead, 75 persons were killed in Texas, 14 in Oklahoma and 3 in Arkansas. Previous reports that 80 lives were lost at Ravenna, Texas, proved unfounded.

In response to appeals for aid from Texas, where about 1,000 persons are reported homeless, tents and food supplies are being rushed from many points in the State. Hundreds of farm houses were blown away and farming machinery reduced to fragments while the growing crops of all kinds were reported seriously damaged and in some instances destroyed.

Hundreds of carcasses of horses, cows and mules are scattered over the devastated area and fallen trees, telegraph and telephone poles block the country roads. Relief parties, however, are rapidly clearing away the debris.

When you talk to a man or a child about his faults, don't stand over him with a club.

Sorrow does not really change people, it only develops what is already in them; that which they bring to it they will reap from it.

Cow Peas Soja Beans

TRAVELING MAN SAYS "THOUGHT MY TIME HAD COME."

"Had Given Up Hopes of Ever Being Well Again. It is Awful to Feel That You Have No Chance. But Drecto Changed it All."

"I cannot fully express my appreciation of what Drecto has done and is still doing for me," declared Mr. Jas. T. Brocker, the well known traveling salesman who "covers" Georgia, but whose home is in Greenwood, S. C. He gave this statement at Palmer & Sons Drug Store in Athens a few days ago.

"It is no wonder to me the enormous sale Drecto has, since I know some of its powers", he continued for I feel that it has actually saved my life and it deserves the highest praise anyone can give it."

"I have spent thousands of dollars in search of health. Every stomach remedy I heard of, I bought. I had catarrh of the stomach and nothing ever did me any good, but this Drecto. My kidneys were weak and my liver inactive, but the great Drecto has remedied all the ills. Nothing is too good for me to say—in fact, I don't know how to make it strong enough."

To keep the health up to the highest standard, one must keep his stomach in perfect order so that he can digest and assimilate the food properly, thereby eliminating dyspepsia, indigestion, biliousness, gas on the stomach, backache, sallow complexion, dark rings under the eyes; in fact, all the symptoms that follow stomach disorders. Drecto, the herbal tonic, gives the desired results in the distressing symptoms. Drecto is now sold by all good druggists throughout the country and is highly recommended in Kingstree by the Kingtree Drug Co.

Never give a good fellow the worst of it just because he is a good fellow.

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous things in the medicine line.—adv
